FOLDER

Dear Commission;

I am writing in response to your letter dated October 8, 2004. My accountant, Billie Shinn, has tried to reach you at the phone number listed on the letter, but has been unsuccessful, so we are responding by mail.

According to your letter, we discontinued use of our certificate of public convenience without first notifying the commission. When in fact, we did notify you of this discontinuation in early 2002, by a letter we submitted. We do not own or operate tractor and trailers in or out of PA and have not since you were notified of the discontinuation. All of our operations are done with straight trucks and all within PA.

Your letter also states that we have not reported intrastate revenue for 2002, 2003, and 2004. Approximately a year ago, a gentleman from your commission visited us and requested these forms which were faxed to you. He told us at that point that there was no problem and we would not be hearing from you again.

If there is something we have not filed and need to, please notify us of this and we will immediately take care of this matter. You can reach me by mail or at 814-632-8663 or you can reach my accountant at 814-946-8115 or fax her at 814-946-8912.

DOCKETED
NOV 09 2004

Respectfully,

Lawrence Swisher
