Electronic Data Interchange and Internet Requirements

Any NGS suppliers and/or broker/marketers that wish to use the Electronic Data Interchange (EDI), in the NGDCs where its available, must meet the EDI certification requirements of the NGDC. Certification is a testing process using the Commission approved Internet protocol. To initiate this process, the NGS is encouraged to contact the NGDC as early as possible after filing an application for a license with the Commission, since certification may require as many as four months to complete and customer service contract dates may not commence prior to certification. NGDC requirements of new suppliers may be found on the respective NGDC home web page. Pennsylvania's industry stakeholder group the Electronic Data Exchange Working Group (EDEWG) develops and maintains the EDI transactions and related business practices, which are found on the Pa. PUC website at http://www.puc.pa.gov/filing_resources/issues_laws_regulations/electronic_data_exchange.aspx. The EDEWG meets telephonically the first Thursday of each month at 2:00pm ET to discuss EDI change control requests and other issues.

To keep current with Pennsylvania EDI practices and policies, a newly licensed NGS may choose to participate in the EDEWG by contacting the following:

Company Background & Natural Gas Industry Experience

National Utilities Refund LLC, "NUR", DBA National Energy, is a utility bill auditing firm that uncovers billing discrepancies within the utility invoices for commercial organizations. NUR has experience verifying electric and natural gas tariffs/rate schedules for a wide range of businesses across the country; from Fortune 500 companies to local government entities and small businesses. NUR currently has around 150 active customers across the country, 50 of which reside in Pennsylvania. Our utility bill audit will verify the most cost efficient rate schedule for a business, determine the accuracy of their historical meter reads, confirm whether or not a meter was properly installed, and uncover sales tax exemptions for eligible organizations. In addition, NUR verifies the accuracy of 3rd party energy supplier bills and agreements. We'll verify that an energy supplier met the contracted start/end dates, audit the contract supply rate versus the actual billed rate, uncover any hidden pass-through charges, and rectify sales tax billed to exempt organizations. Having this type of knowledge is crucial to be a successful energy broker. However, in our experience, having worked with several energy brokers throughout the years, very few are truly able to verify if a customer is being incorrectly billed by a supplier.

National Utilities Refund LLC, DBA National Energy is seeking an energy broker license in order to provide better customer service to our clientele. NUR will operate under the National Energy name when procuring energy rates in order to eliminate any potential customer confusion between our other services. Currently, National Energy works with an established licensed energy broker to procure rates from multiple energy suppliers; however, we also perform a complimentary review for our customers after they receive their first supply bill from the supplier they chose. The "post procurement review" helps ensure that the customer's bill coincides with the supplier agreement they signed. Unfortunately, some energy suppliers seem to be more error prone than others, which is another reason why National Energy is seeking an energy broker license. With an energy broker license, National Energy can have control over which suppliers we represent and recommend to our customers. Currently, National Energy does not have an energy broker license in any other state or jurisdiction.

Staffing Structure

Vincent DiMaio and Ralph DiMaio are both members of the company and there are currently four active independent sales contractors that also offer the company's services.

Sales & Marketing Training

The majority of NUR's new business is derived from word of mouth and customer referrals. In return, customer satisfaction is our number one priority. And, as our client's utility advocate, we are fully aware of the importance of delivering on our promises – it's key to maintaining our reputation as an industry leader in customer satisfaction. We strive to develop longstanding business relationships and our vision is to consistently meet the evolving needs of our customer's.

Once National Utilities Refund LLC, "NUR", DBA National Energy becomes a licensed energy broker, we will offer natural gas supply contracts to our current clientele and prospect new customers through our established marketing techniques. We currently acquire new clients through face-to-face direct marketing and we will continue to prospect customers through the same means as a licensed natural gas broker. Currently, Ralph DiMaio and Vincent DiMaio actively pursue new customers by attending trade shows, industry associations, and local networking events. In addition, we have four independent sales contractors that perform the same sales techniques in the tristate area.

Ralph DiMaio is in charge of sales and marketing training for the company as well as the independent sales contractors. In order to ensure that all marketing is performed in an ethical manner, Ralph developed a sales system and training manual for our independent contractors. In addition, he continually educates them by hosting bi-weekly sales training calls to disc. Ralph also performs follow-up calls with each customer and asks them how their experience was working with us to see if there is anything we can improve on.

NOV - 4 2016

PA PUBLIC UTILITY COMMISSION
SECRETARY'S BUREAU

CAPITALIZATION POLICY
(Effective 1/1/2016)

1. Purpose
This accounting policy establishes the minimum cost (capitalization amount) that shall be used to determine the capital assets that are to be recorded in **National Utilities Refund's** annual financial statements (or books).
2. Materials and Supplies definition
A "material or supply" is generally considered to be tangible property that is used or consumed in the business within twelve months of acquisition, is not inventory, or has a unit cost of less than \$200. Materials and supplies meeting this definition may be expensed.
3. Capital Asset definition
A "Capital Asset" is defined as a unit of tangible property that: (1) has an economic useful life that extends beyond 12 months; **and** (2) was acquired or produced for a cost of more than \$2,500 (or an amount up to \$5,000 if the business has annual audited financial statements), including acquisition and installation costs on the same invoice.. Capital Assets must be capitalized and depreciated for financial statement (or bookkeeping) purposes.
4. Capitalization thresholds
National Utilities Refund establishes \$2,500 as the threshold amount for minimum capitalization. Any items costing below this amount should be expensed in **National Utilities Refund's** financial statements (or books).
5. Capitalization method and procedure
All Capital Assets are recorded at historical cost as of the date acquired.

Tangible assets costing below the aforementioned threshold amount are recorded as an expense for **National Utilities Refund's** annual financial statements. Alternatively, assets with an economic useful life of 12 months or less are required to be expensed for financial statement purposes, regardless of the acquisition or production cost.
6. Routine Maintenance definition
Routine maintenance that **National Utilities Refund** reasonably expects to make more than once to a unit of property, including buildings, over a 10-year period is not a capital asset and will be expensed.
7. Optional Election to Capitalize Routine Maintenance
Routine maintenance that would be expensed under the definition above, may be capitalized and depreciated with the following provisions: The financial statements (or books) and the tax return must reflect the same method; an election must be made with the annual tax return and the election applies to all amounts paid for repairs and maintenance to tangible property that **National Utilities Refund** treats as capital expenditures on its books and records for that tax year.
8. Recordkeeping
Invoice substantiating an acquisition cost of each unit of property shall be retained for a minimum of four years.
