## Response To Complaint

Randy Sterling Trucking, Inc. (hereafter The Company) herein files an answer to a complaint received from the Pennsylvania Public Utility Commission Bureau Of Investigation And Enforcement, Docket No. C-2016-2573602, regarding The Company's evidence of cargo liability insurance.

Upon receipt of notification of above complaint against The Company, The Company reviewed its insurance status with both its insurer and the state, and discovered that its cargo liability insurer had failed to send a Form H confirmation of cargo insurance to the state upon the insurance policy's renewal. The Company immediately instructed that the insurer forward all such proof as was required by the Commission in order to rectify the issue.

In light of efforts by The Company to rectify the situation described in Docket No. C-2016-2573602, and providing that the required insurance confirmation has been received from the insurer, The Company requests that the complaint be closed and the assessed penalty of \$500.00 be waived.

Respectfully,

**Randy S. Sterling, President**
