Re: Christopher Geraghty d/b/a Chris's General Transmissions v. PECO Energy
Company PUC Docket No:C-2016-2571673

ANSWER TO NEW MATTER

Although a Peco representative came to check the meter I still feel as tho the neighboring business is somehow integrated to my electric service. When they are running certain electrical items at their business the service at my business gets interference. Although I expressed this to the peco rep. It was not investigated. I am asking that this is invetigated before any decisions are made.

Christopher Geraghty
