To Whom this may Concern

I am writing this as a request for a Petition interlocutory review for a material question.

Whose responsibility is it to cut the trees on the line that connects a transformer to another pole in my yard that distributes power to 3 Houses including mine?

Also the line that distributes electricity to the other 5 house going the other way?

Ross E. Schell

Certificate Of Service

Wire actually wrapped around tree limbs

Tree Limbs touching wires

Wire touching trees

Transformer at end of yard line showing distribution to other pole in yard .

Wire going through trees and limbs

Other pole in yard that wire from transformer comes to, it is splits of to feed power to two lower houses and mine.

Show wire again being touched by trees

Shows wire from transformer weaving through tree limbs coming straight out of transformer

.

Transformer line going through trees.

Transformer lines going the other way to distribute power to five lower houses.

Showing main line feeds going through trees to lower pole

Main line feeds going through tree branches to lower pole

Lower pole showing wires going through trees. Main line feeds are also in trees.

More pictures showing wires in trees

Lower house showing main line wires coming from transformer in my yard to lower pole for distribution to five more houses.
