To Whom this may Concern

Brief for hearing on 11/16/2016

Here is proof that during the hearing the expert male witness was lying about the rigging the transformers in my neighborhood against squirrels. First picture is of the one in my back yard where squirrels do not enter because of dogs, showing it done. Yet the one across the street from my house was not done, nor any other one in my neighborhood as far as I can see. I think it is their equipment not squirrels causing the problems with service.

So I think all this witnesses testimony should be thrown out.
