Re: PPL Electric Utilities Corporation Distribution System Improvement Charge
Docket No. P-2012-2325034

Dear Secretary Chiavetta:

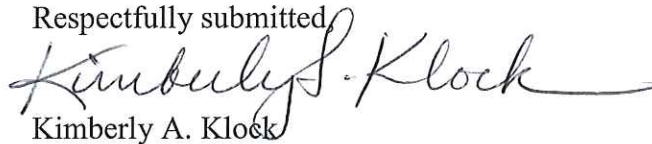

On November 30, 2016, PPL Electric Utilities Corporation (“PPL Electric”) filed its quarterly earnings reports with the Pennsylvania Public Utility Commission (“Commission”) for the 12-month period ended September 30, 2016. The data reflected in the financial earnings report show that PPL Electric has experienced overearnings for the quarter ended September 30, 2016.

In its Supplemental Implementation Order entered September 21, 2016 at Docket No. M-2012-2293611, the Commission, among other things, directed utilities that determine they are overearning to file a tariff supplement reflecting a zero DSIC rate effective upon one-day’s notice immediately after filing or simultaneously with the filing of the quarterly financial earnings report indicating that the utility is overearning. *See Implementation of Act 11 of 2012*, Docket No. M-2012-2293611 (Supplemental Implementation Order entered Sept. 21, 2016). Pursuant to 66 Pa.C.S. § 1358(b)(1), PPL Electric’s current DSIC rate was set to and has remained at zero as of the January 1, 2016 effective date of new base rates approved by the Commission at Docket No. R-2015-2469275.

Because the current DSIC rate is set to zero, it is unnecessary to reset the DSIC rate to zero due to overearnings reflected in the quarterly earnings report for the quarter ended September 30, 2016. Therefore, please be advised that PPL Electric will not be filing a tariff supplement to reset the DSIC rate to zero.

If you have any questions regarding this matter or need additional data, please contact me or Bethany L. Johnson, PPL Electric's Manager-Regulatory Operations at (610) 774-7011.

Respectfully submitted,

A handwritten signature in cursive script that reads "Kimberly A. Klock". The signature is written in black ink and is positioned above the printed name.
