ANSWER

AND NOW COMES, Clean Treatment Sewage Company ("CTSC"), by its counsel Kirkpatrick & Lockhart Nicholson Graham LLP, and herein files its Answer to the aforementioned Complaint filed by Theresa DiMeo ("Complainant"). Further responding, CTSC avers as follows:

DOCUMENT FOLDER

DOCKETED
APR 27 2006

1. Admitted.

2. Admitted.

3. Admitted.

4. CTSC admits that the purchase of a grinder pump package and exterior electric hookup for all existing gravity system clients is being requested at an approximate cost of $3,000 per customer. CTSC denies that the purchase of these grinder pumps will unduly benefit the Company. CTSC's professional engineer, Applied Water Services, has evaluated a number of different remedial systems to correct existing infiltration and inflow ("I&I"), which causes NPDES permit violations. Each of these scenarios would have required passing the cost on to customers either directly or through a significant rate increase.

Because the rates of CTSC customers are already very high, CTSC, after careful examination, decided to go with the most cost-effective resolution which would correct the I&I, maintain the viability of the system and result in the least cost to the customers. CTSC further avers that these options have been thoroughly discussed with the Commission's Office of Trial Staff and Office of Consumer Advocate who generally agreed that the grinder pump installation is the most cost-effective alternative inline with the professional engineer's study and recommendation.

Further answering, CTSC will present at the hearing to this case one or more representatives of CTSC who will demonstrate to the Administrative Law Judge the measures which have been taken to correct I&I. CTSC understands the income limitations of many of the residents and is willing to work with the residents to try to provide the least "painful" method by which to purchase the needed grinder pumps.

Further answering, CTSC denies Complainants averments in paragraphs 4 and 5 alleging that CTSC is making an excessive profit on the amounts it has charged. The current rates were Commission approved. The charge for grinder pumps is a "pass-through charge" with no profit component associated with it.

WHEREFORE, for all of the foregoing reasons, CTSC respectfully requests that the complaint of Theresa DiMeo be dismissed.

Respectfully submitted,

James P. Melia
