ANSWER OF PIKE COUNTY LIGHT & POWER COMPANY

INTRODUCTION

On March 21, 2006, Pike County Light & Power Company ("Pike" or the "Company") was served with a copy of a complaint ("Complaint") filed by its customer, Mr. Francis L. Hall ("Complainant")¹. In his complaint, Complainant states that Pike's default service rates are "out of line." Complainant also complains about his bill for the period January 4, 2006 through February 4, 2006, since his home is allegedly unoccupied and the heat is set as low as allowed to prevent frozen pipes. He also asks that the Pennsylvania Public Utility Commission ("Commission") "find out why we consumers are being gouged."

As set forth in greater detail below, the rate increase that Complainant objects to already has been reviewed and approved by the Commission. Accordingly, the conduct that the Complainant objects to is simply Pike billing its customers according to the filed rates contained in Pike's Commission approved electric tariff. The bill of which Complainant complains was due to an incorrect calculation of the budget bill amount as well as an estimated reading since Pike did not have access to Complainant's gas meter.

¹ For purposes of this Answer, "Complainant" will refer to both Mr. and Mrs. Hall.

DOCKETED
APR 13 2006

Subsequently, as discussed below, Pike has recalculated and reduced Complainant's budget bill. The Complaint is completely without merit and should be dismissed summarily by the Commission.

RECEIVED

In response to the Complaint, Pike states as follows:

APR 07 2006

DISCUSSION

PA PUBLIC UTILITY COMMISSION
SECRETARY'S BUREAU

1. On May 31, 2005, Pike filed a plan to establish default service rates for the period beginning January 1, 2006. Default service rates are those rates charged to customers, such as the Complainant, who do not take service from electric generation suppliers. To increase its ability to achieve the goal of providing default service coverage in an economic fashion, Pike proposed to utilize commodity swap transactions rather than physical purchases.

2. On September 23, 2005, the Commission issued an Order ("September 23 Order") approving Pike's auction proposal with certain modifications. One such modification was the Commission's directive to increase, from one to three days, the amount of time for the Commission to review the auction results and notify Pike of its recommendation.

3. Pike conducted the auction on October 25, 2005. Copies of the auction results and impacts on customers' bills were provided electronically to counsel for the Office of Consumer Advocate ("OCA"), Office of Small Business Advocate ("OSBA"), as well as to the Commission Staff on October 25, 2005. These bids provided Pike's default service customers with fixed prices for energy and capacity for a two-year period (i.e., 2006-2007). In setting default service rates, Pike does not mark up the auction prices.

4. No comments or complaints were received from OCA or OSBA during the three-day Commission review period. Commission Staff requested, and was provided by Pike, certain additional information during this three-day Commission review period.

5. In a letter to Pike dated October 28, 2005, a copy of which is attached hereto as Exhibit A, Commission Secretary James McNulty stated that "the auction appears to have been conducted in accordance with RFP Guidelines" and that "[F]urther investigation does not appear warranted". Accordingly, the Commission approved the auction results and directed Pike to file a supplement to its Tariff incorporating the default service rates resulting from the auction.

6. On January 1, 2006, Pike's new default service rates became effective. The Commission-approved rates are the subject of the Complaint.

7. At its open session on January 27, 2006, the PAPUC unanimously adopted a motion of Commissioner Shane directing the PAPUC's Law Bureau "to initiate a fact finding investigation into the competitive electric market in Pike County Power's service territory." On February 14, 2006, the Commission in Docket No. P-00052168 initiated a fact-finding investigation in the competitive electric market in Pike's service territory ("Fact-Finding Investigation"). The Fact-Finding Investigation is ongoing.

8. The basis of the Complaint is that Pike's default service rates filed with and approved by the Commission are excessive and not justifiable. The fact that these rates increased as of January 1, 2006 does not detract from their validity. Pike denies Complainant's allegation that its default service rates are excessive and not justifiable since the Commission has reviewed and approved these very rates. Pursuant to the long established filed rate doctrine, Pike could not charge the Complainant any rate other than

the Commission-approved rate of which he complains. *Cheltenham & Abington Sewerage Co. v. Pennsylvania Public Utility Commission*, 344 Pa. 366, 25 A.2d 334 (Pa. 1942).

9. Pursuant to the filed rate doctrine, Pike is required to bill its default service customers in accordance with its existing Commission-approved default service rates until the Commission approves new default service rates. Any such new rates would apply on a prospective basis only.

10. Complainant's account for both gas and electric service had been on budget billing of \$255.00 from October of 2005 through January of 2006. In January 2006, Pike reviewed this budget billing arrangement, comparing the budget amount with the actual gas and electric consumption amounts. Due to a programming error, Pike increased the Complainant's budget bill amount to \$618.00 for the period January 4, 2006 through February 4, 2006. This error was not discovered until after the account was billed in February.

11. On February 20, 2006, Complainant called the Company to discuss the large increase in the budget bill and was advised that an error in the Company's billing system caused the large increase. Pike informed the Complainant that the error would be corrected and that Pike would lower the budget bill amount to \$357.00 with the March 2006 bill.

12. After a discussion with Complainant regarding his overall budget billing compared with his actual electric and gas usage, Complainant agreed that the erroneous February 2006 budget bill of \$618.00 would not be cancelled, but rather that Pike would treat the overpayment as a deferred credit going forward of \$172.56. Accordingly,

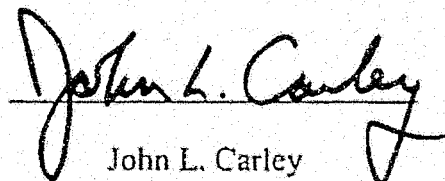

Complainant's payment for the \$618.00 was credited to his account on February 17, 2006.

13. On April 4, 2006 the Company sent a letter to Complainant advising of the Company's need to obtain an actual reading on the gas meter located in the basement. The last actual reading obtained by the Company on Complainant's gas meter was in December 2005. Complainant has not yet responded to the Company's letter to schedule an appointment for the gas meter read.

CONCLUSION

The Complainant complains that Pike's default service rates are unreasonable. The very default service rates at issue in the Complaint, however, have been reviewed and approved by the Commission. Under the filed rate doctrine, Pike can only bill the Complainant these default service rates. As to the Complainant's billing complaint, as noted above, that matter has been resolved. Accordingly, the Commission should dismiss this Complaint, without hearing.

Re: Pike County Light & Power Company – Results of Auction for Financial Swap Transactions, including the impact on Retail Rates for Default Service to Residential, General, Municipal Street Lighting and Private Lighting Customers

Dear Mr. Carley:

On October 25, 2005, Pike County Light & Power Company ("Pike") submitted electronically the results of its Request for Proposals ("RFP") auction process, including the impact on retail rates for residential, general, municipal street lighting and private lighting customers receiving default service effective January 1, 2006, at Docket No. P-00052168. On October 27, 2005, Pike filed the results with the Commission's Secretary.

This filing is submitted pursuant to the RFP process and Default Service Implementation Plan ("Plan") filed May 31, 2005 and approved by the Commission in its Order, entered September 23, 2005, at Docket No. P-00052168, as modified by the Order.

Pike requests that the Commission approve the results of the auction by 11:59 p.m. October 28, 2005.

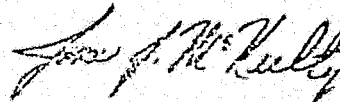

Further investigation does not appear to be warranted at this time and the auction appears to have been conducted in accordance with the RFP Guidelines.

Therefore, we approve the results of the auction and direct Pike to file a supplement to its Tariff Electric – Pa. P.U.C No. 8, no later than 60 days prior to an effective date of January 1, 2006, incorporating the proposed tariff language changes approved in the Commission's Order, entered September 23, 2005, at Docket No. P-00052168, as modified by the Order and the default service rates resulting from the auction.

If you are dissatisfied with the resolution of this matter, you may, as set forth in 52 Pa. Code §5.44, file a petition with the Commission within 10 days of the date of this letter.

Please direct any questions to H. Edwin Rodrock, Energy Supervisor, Bureau of Fixed Utility Services at (717) 783-6185.
