RE: Philadelphia, PA – 25<sup>th</sup> Street Viaduct, Harrisburg Subdivision  
(P.U.C. – File C-20054422)

Dear Mr. Oliver:

Reference is made to your May 13, 2005 site meeting with Halsey Brown at the subject bridge. The purpose of this letter is to provide a written description of the maintenance work scheduled for this structure.

Work will begin in June as follows:

1. Scale loose concrete from the bridge.
2. Apply Marbri concrete sealer at selected locations.
3. Apply Marbri patching material where appropriate.

The work will not be continuous due to other bridge projects in the Philadelphia area. The problem of spalling concrete on this bridge will be an on-going issue addressed bi-annually, usually in the spring and fall.

Sincerely,

D. J. Spatafore  
Division Engineer  
Albany Division

cc: H. Brown
