SECRETARY'S BUREAU

RE: 2016-2532893 Bronwyn A. Fischer vs PPL Electric

These are my exceptions in regards to the outcome of the case referenced above reviewed by Judge Dennis Buckley.

It is very disappointing that I had to wait 6 months for an answer to my complaint against PPL.

Referring to the Judge's decision of FINDINGS OF FACTS #5 In no time or way did I the complainant ever refer to the tree limb on my property. If you were to check the records of PPL you would find that the tree was located about 5 homes down from my home. Many homes that evening lost power the entire street. My home and one other were connected to the transformer pole that was hooked up wrong everyone else received their power with no problem.

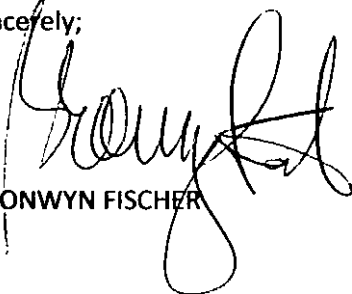

In the judges DISCUSSION he again makes reference to the tree being on my property again not true.

Again I put forward to the commission if 10 homes lose power and all receive their power without a hitch except two homes that were on an entirely different pole how can that be an act of nature. I was told by the PPL crew they connected it wrong how can this be our fault? I had this presented with my paperwork for review at court time and am again enclosing for your review. It is worth my time because I lost more than his few items.

I am totally dissatisfied with the lapse of time and inaccurate facts that have led to his decision.

Thank you for your time in this matter,

Sincerely;

BRONWYN FISCHER

Hi Bronwyn,

I didnt have enough damage to meet my insurance deductible so I just dropped the whole thing. It wasnt worth the trouble of hounding PPL. I only lost the garage door opener and a microwave and coffee maker.
