To Whom this concerns.

I am asking for a **Petition for interlocutory Commission review of a material Question.**

Even though I just tried to send an email to the Judge. I would like to know why he accepts emails from the attorneys for the utilities. Even though I was told no on this subject?

What other communications are going on between the attorneys for the Utilities and Judge Watson that I am not told about? This would explain why Judge Watson is so biased against me! In these hearing maybe he is receiving illegal communications from the Lawyers that he is using in court against me. I have not been informed about any further communications between the parties.
