Electronic Data Interchange and Internet Requirements

Prior to doing business in an EDC service territory, all EGS suppliers, and any broker/marketers that wish to use the Electronic Data Interchange (EDI), must meet the EDI certification requirements of the EDC. Certification is a testing process using the Commission approved Internet protocol. To initiate this process, the EGS is encouraged to contact the EDC as early as possible after filing an application for a license with the Commission, since certification may require as many as four months to complete and customer service contract dates may not commence prior to certification. EDC requirements of new suppliers may be found on the respective EDC home web page. Pennsylvania's industry stakeholder group the Electronic Data Exchange Working Group (EDEWG) develops and maintains the EDI transactions and related business practices, which are found on the Pa. PUC website at http://www.puc.pa.gov/filing_resources/issues_laws_regulations/electronic_data_exchange.aspx. The EDEWG meets telephonically the first Thursday of each month at 2:00pm ET to discuss EDI change control requests and other issues.

To keep current with Pennsylvania EDI practices and policies, a newly licensed EGS is strongly encouraged to participate in the EDEWG by contacting the following:

Electricity Ratings, LLC(the "Company") is an energy brokerage company, established in 2009, that organizes and presents offers from retail suppliers to customers. Customers may then select to purchase electricity or natural gas directly from the retail supplier.

The Company is not an electricity or natural gas supplier and will not be purchasing, or taking title to, the commodity. Further, the Company does not provide billing statements. The responsibilities addressed in Chapter 4901:1-24 of the Ohio Administrative Code, Chapter 4901:1-21 of the Ohio Administrative Code, and Section 4928.08 of the Ohio Revised Code concerning the billing of consumers and customer inquiries and complaints are met by the licensed retail supplier.

The Company does not charge a separate fee to the consumer for its services. As in real estate, the broker fee or commission is included in the price quoted and paid by the seller - the energy provider - after the transaction is complete.
