Re: Docket Number M-2017-2596907
Review of Universal Service and Energy Conservation Programs

Dear Sir or Madam:

On behalf of the Housing Authority of the County of Beaver, Weatherization Program please find comments for the captioned proceeding.

Low income Usage Reduction Program (LIURP) : Consider requiring the utility companies to prioritize the use of Community Based Organizations . Many CBOs have been working with local utilities for decades throughout the Commonwealth. By utilizing the Weatherization network, a quality service would be delivered to control heating costs and save energy for eligible customers in need.

If you have any questions feel free to contact me at 724-360-2040 or hacbwz@comcast.net.

Thank you.

Joel U. Oravitz

Weatherization Coordinator
