Notice is hereby given that PPL Electric Utilities Corporation (the Company) filed the above-reference Application with the Pennsylvania Public Utility Commission on September 19, 2017. The purpose of the Application is to seek Commission approval to rebuild approximately 14.6 miles of the existing the Hosensack - Quarry #1 and #2 138/69 kV Transmission Line Project in Lower Milford, Salisbury and Upper Saucon townships, Lehigh County and Lower Saucon Township, Northampton County, Pennsylvania (the Project).

The 14.6-mile segment of the existing Hosensack - Quarry #1 and #2 138/69 kV Transmission Lines has reached an age and condition that the facilities must be replaced in order to continue to provide safe and reliable service into the future. The rebuilt Hosensack - Quarry #1 and #2 138/69 kV Transmission Lines will allow for quicker restoration of electric service during an outage and a higher level of reliability for the customers served from this transmission line. The rebuilt Hosensack - Quarry #1 and #2 138/69 kV Transmission Lines will help ensure reasonably continuous, safe, and reliable service to approximately 25,700 customers in Lehigh and Northampton Counties and accommodate additional future customer demand for electricity. Upon Commission approval, construction is scheduled to commence in March 2018 to meet the in-service date of September 30, 2019.

A complete copy of the Application, including all Attachments, is available for public inspection on weekdays during normal business hours at PPL Electric's headquarters (Two North Ninth Street, Allentown, PA), and at the following locations:

The Commission has scheduled a Prehearing Conference on December 4, 2017, at 10:00 AM in Hearing Room 2 in the Commonwealth Keystone Building, 400 North Street, Harrisburg, Pennsylvania. NOTICE

Re: Application of PPL Electric Utilities Corporation Filed Pursuant to 52 Pa. Code Chapter 57, Subchapter G, for Approval of the Siting and Construction of the Hosensack - Quarry #1 and #2 138/69 kV Transmission Lines in Lehigh and Northampton counties, Pennsylvania, Docket No. A-2017-2625559.

Notice is hereby given that PPL Electric Utilities Corporation (the Company) filed the above-reference Application with the Pennsylvania Public Utility Commission on September 19, 2017. The purpose of the Application is to seek Commission approval to rebuild approximately 14.6 miles of the existing the Hosensack - Quarry #1 and #2 138/69 kV Transmission Line Project in Lower Milford, Salisbury and Upper Saucon townships, Lehigh County and Lower Saucon Township, Northampton County, Pennsylvania (the Project).

The 14.6-mile segment of the existing Hosensack - Quarry #1 and #2 138/69 kV Transmission Lines has reached an age and condition that the facilities must be replaced in order to continue to provide safe and reliable service into the future. The rebuilt Hosensack - Quarry #1 and #2 138/69 kV Transmission Lines will allow for quicker restoration of electric service during an outage and a higher level of reliability for the customers served from this transmission line. The rebuilt Hosensack - Quarry #1 and #2 138/69 kV Transmission Lines will help ensure reasonably continuous, safe, and reliable service to approximately 25,700 customers in Lehigh and Northampton Counties and accommodate additional future customer demand for electricity. Upon Commission approval, construction is scheduled to commence in March 2018 to meet the in-service date of September 30, 2019.

A complete copy of the Application, including all Attachments, is available for public inspection on weekdays during normal business hours at PPL Electric's headquarters (Two North Ninth Street, Allentown, PA), and at the following locations:

Lower Milford Township 7607 Chestnut Hill Church Road Coopersburg, PA 18036	Upper Saucon Township 5500 Camp Meeting Road Center Valley, PA 18034
Salisbury Township 2900 South Pike Avenue Allentown, PA 18103	Lower Saucon Township 3700 Old Philadelphia Pike Bethlehem, PA 18015

The Commission has scheduled a Prehearing Conference on December 4, 2017, at 10:00 AM in Hearing Room 2 in the Commonwealth Keystone Building, 400 North Street, Harrisburg, Pennsylvania. The purpose of the prehearing conference generally will be to identify the relevant issues and interested parties, if any, and to establish a schedule for the submission of evidence, hearings, and other procedural matters, if required.

NOTICE
 Re: Application of PPL Electric Utilities Corporation Filed Pursuant to 52 Pa. Code Chapter 57, Subchapter G, for Approval of the Siting and Construction of the Hosensack - Quarry #1 and #2 138/69 kV Transmission Lines in Lehigh and Northampton counties, Pennsylvania, Docket No. A-2017-262559.

Notice is hereby given that PPL Electric Utilities Corporation (the Company) filed the above-reference Application with the Pennsylvania Public Utility Commission on September 19, 2017. The purpose of the Application is to seek Commission approval to rebuild approximately 14.6 miles of the existing Hosensack - Quarry #1 and #2 138/69 kV Transmission Line Project in Lower Millford, Salisbury and Upper Saucon townships, Lehigh County and Lower Saucon Township, Northampton County, Pennsylvania (the Project).

The 14.6-mile segment of the existing Hosensack - Quarry #1 and #2 138/69 kV Transmission Lines has reached an age and condition that the facilities must be replaced in order to continue to provide safe and reliable service into the future. The rebuilt Hosensack - Quarry #1 and #2 138/69 kV Transmission Lines will allow for quicker restoration of electric service during an outage and a higher level of reliability for the customers served from this transmission line. The rebuilt Hosensack - Quarry #1 and #2 138/69 kV Transmission Lines will help ensure reasonably continuous, safe, and reliable service to approximately 25,700 customers in Lehigh and Northampton Counties and accommodate additional future customer demand for electricity. Upon Commission approval, construction is scheduled to commence in March 2018 to meet the in-service date of September 30, 2019.

A complete copy of the Application, including all Attachments, is available for public inspection on weekdays during normal business hours at PPL Electric's headquarters (Two North Ninth Street, Allentown, PA), and at the following locations:

Lower Millford Township
 7607 Chestnut Hill Church Road
 Coopersburg, PA 18036

Salisbury Township

Upper Saucon Township
 5500 Camp Meeting Road
 Center Valley, PA 18034

Lower Saucon Township

 Bethlehem, PA 18015

The Commission has scheduled a Prehearing Conference on December 4, 2017, at 10:00 AM in Hearing Room 2 in the Commonwealth Keystone Building, 400 North Street, Harrisburg, Pennsylvania. The purpose of the prehearing conference generally will be to identify the relevant issues, and interested parties, if any, and to establish a schedule for the submission of evidence, hearings, and other procedural matters, if required.

If you wish to participate in the process before the Commission, you must file a formal protest or petition to intervene in accordance with Title 52 of the Pennsylvania Code (relating to public utilities). Formal protests or petitions to intervene must be filed with the Secretary of the Pennsylvania Public Utility Commission at P.O. Box 3265, Harrisburg, PA 17105-3265, with a copy served on Administrative Law Judge Steven Haas on or before November 27, 2017.
