**MOTION OF PECO ENERGY COMPANY
TO COMPEL ANSWERS TO INTERROGATORIES AND REQUESTS FOR
PRODUCTION OF DOCUMENTS**

Pursuant to 52 Pa. Code § 5.432(g), Respondent, PECO Energy Company (“PECO”) hereby requests that the Commission compel full and complete answers to Respondent’s Interrogatories and Requests for Production of Documents Set I (“Set I Interrogatories”), which were served on October 17, 2017. PECO’s Interrogatories are attached as Exhibit A.

I. BACKGROUND

On or about August 1, 2017, Complainants filed a Formal Complaint alleging, among other things, that PECO’s AMI meters cause illness through radiofrequencies and asking the Commission to prevent PECO from installing an electric AMI meter on their premises.

In the Answer filed on August 11, 2017, PECO denies the substantive allegations in the Complaint and claims that under Act 129 and the Commission’s Orders there are no “opt-outs” to smart meter installation.

On September 7, 2017, Administrative Law Judge Darlene D. Heep issued a Prehearing Order, setting the date to exchange exhibits and reports. A hearing is scheduled to take place in 2018 on April 17 and April 18

On October 17, 2017, PECO served upon Complainants its Set I Interrogatories and Requests for Production of Documents, which contained three (3) questions and/or document requests. To date, PECO has not received Complainants' responses to the company's discovery. PECO respectfully requests that the Commission issue an Order compelling Complainants to answer the questions in the Set I Interrogatories and produce the documents, including medical documentation, requested in discovery. In support of its Motion to Compel, PECO states the following:

II. LEGAL STANDARD

The Commonwealth Court of Pennsylvania has stated that “[d]iscovery itself is designed to promote free sharing of information so as to narrow the issues and limit unfair surprise. It is a tool which serves each litigant and promotes judicial economy.” *See Pittsburgh Bd. of Public Educ. V. M.J.N. by N.J.*, 105 Pa. Cmwlth. Ct. 397, 403, 524 A.2d 1385, 1388 (Pa. Commw. Ct. 1987).

Under the Commission's regulations, the scope of discovery is broad. Section 5.321 outlines the cope of discovery as follows:

- (c) **Scope.** Subject to this subchapter, a party may obtain discovery regarding any matter, not privileged, which is relevant to the subject matter involved in the pending action, whether it relates to the claim or defense of the party seeking discovery or to the claim or defense of another party, including the existence, description, nature, content, custody, condition and location of any books, documents, or other tangible things and the identity and location of persons having knowledge of a discoverable matter. It is not grounds for objection that the information sought will be inadmissible at hearing if the information sought appears reasonably calculated to lead to the discovery of admissible evidence.

52 Pa. Code § 5.321(c).

III. THE INFORMATION PECO SEEKS IN IT'S DISCOVERY REQUESTS IS REQUIRED FOR THE COMPANY TO DEFEND AGAINST THE COMPLAINANTS' ALLEGATIONS

The Commission should issue an Order compelling Complainants to answer Set I Interrogatories fully and without reservation and to provide the documents, including the medical documents requested. In accordance with Section 5.321(c) of the Commission's regulations, parties may obtain discovery of any unprivileged matter which is relevant to the subject matter involved in the pending action, whether it relates to the claim or defense of the party seeking discovery or to the claim or defense of another party. 52 Pa. Code §5.321(c).

PECO seeks information regarding the devices, appliances and equipment in Complainants' home, including cell phones that produce –radio–frequency fields. PECO additionally seeks information regarding the cellphone usage in the Complainants' household and medical records relevant to the health conditions alleged. The information requested is relevant to this proceeding, as the Complainants allege that the installation of the AMI electric meter would be harmful to their health. For the reasons set forth below, the Presiding Officer should compel Complainants to answer PECO's interrogatories and requests for production of documents.

A. Information regarding Complainants' devices, appliances and equipment used in the home that produce radio-frequency fields; cell phone usage in the home and supporting medical records is relevant and should be provided in response to PECO discovery.

The interrogatories and document requests to which Complainants have failed to respond concern whether there are devices, appliances and equipment in the Complainants' home that produce RF and cell phone usage in the home and medical records of the alleged health condition. Complainants allege that they will have health effects from PECO's AMI meter. PECO's interrogatories are designed to elicit whether there are other devices, appliances

or equipment already in the home that emit radio-frequency, and whether there is cell phone usage in the home. This is critical information the company needs to know. If there have been symptoms experienced from EMF, this is directly related to the Complainants' case and PECO requires this information to properly defend against Complainants' claims. Any medical records documenting any health conditions the Complainants claim are germane to the key issues in this case. It is important that Complainants share this information in order for the Commission to make a judgment about the relative safety of the AMI meter and the effect it may have on them.

The Complainants have initiated this complaint against PECO and the company requires this information to defend against the Complainants' complaint. Without this information, PECO will be prejudiced in the company's defense against Complainants' claims that they may have adverse health effects resulting from PECO's AMI meter.

IV. CONCLUSION

WHEREFORE, for the reasons set forth above, PECO respectfully requests the Presiding Officer and the Commission: (a) grant this Motion; (b) compel Complainants to answer PECO's Set I Interrogatories and Requests for Production of Documents in full; and (c) grant any other relief deemed just and proper under the circumstances.

Respectfully submitted,

DOCKET NO. C-2017-2617558

**Respondent, PECO Energy Company's Interrogatories and
Requests for Production of Documents, Set I
Directed to Complainants, James Quigley and Teresa Mendez-Quigley**

Respondent PECO Energy Company ("PECO") hereby submits the following Interrogatories and Requests for Production of Documents, Set I, upon Complainants, James Quigley and Teresa Mendez-Quigley to be answered separately and fully in writing and under oath in accordance with 52 Pa. Code §§ 5.341 and 5.349 of the rules and regulations of the Pennsylvania Public Utility Commission.

These Interrogatories are addressed to you as a party to this action; your answers shall be based upon information known to you or in the possession, custody or control of you, your attorney or other representative acting on your behalf whether in preparation for litigation or otherwise. These Interrogatories must be answered completely and specifically by you in writing and must be verified. The fact that investigation is continuing or that discovery is not complete shall not be used as an excuse for failure to answer each interrogatory as completely as possible. The omission of any name, fact, or other item of information from the Answers shall be deemed a representation that such name, fact, or other item was not known to Respondent(s), their counsel, or other representatives at the time of service of the answers.

PECO Interrogatory 1-1:

Please identify the type (with make and model) of all devices (including appliances and equipment) used by complainant(s) anywhere, and the type (with make and model) of all devices used in complainant(s) home, that produce radio-frequency fields (including cell phones, cordless phones connected to a landline, microwave ovens, wireless Internet access, Wi-Fi routers, remote TV controls, garage door openers, and other wireless-controlled devices).

PECO Interrogatory 1-2:

Please identify whether the Complainant and any member of the Complainant's household uses a cell phone? If so, provide the make and model of each cell phone owned or used by any member of the household and, for each such phone identified, provide six months of phone bills or other usage records with sufficient detail to show actual usage for that period.

PECO Interrogatory 1-3:

A. Please provide all medical records, including diagnostic and all other test results, of complainant(s) and any resident of complainant(s) household (i.e., records for each person):

1) that relate in any way to any of the medical or health-related conditions or symptoms identified in the complaint that it is claimed was or will be caused or made worse by a PECO AMI meter; and

2) that relate in any way to any of the medical or health-related conditions or symptoms identified in the complaint that it is claimed was or will be caused by or made worse by exposure to radiofrequency fields.

B. Please identify each symptom of each medical or health-related condition identified in the complaint that it is claimed was caused by exposure to a PECO AMI meter or radio frequency fields and identify by person each symptom, condition, exposure claimed to cause the symptom, and date (if the date is not known, the month or season) and year each person first began to experience the symptom.
