**Re: Richard N. Myers v. PPL Electric Utilities Corporation**  
**Docket No. C-2017-2620710**

Your Honor:

PPL Electric Utilities Corporation (“PPL Electric” or the “Company”) hereby submits this letter and respectfully requests that all expert witnesses submit written direct testimony in advance of the evidentiary hearing scheduled for February 5, 2018. Although Mr. Myers has represented that he does not plan to present any expert witnesses at this time, the Company intends to call two expert witnesses as a part of its direct case: (1) Dr. Christopher C. Davis, Ph.D.; and (2) Dr. Mark A. Israel, M.D. The expert witnesses’ testimony will cover complex scientific and medical issues.

Specifically, Dr. Davis is expected to testify about the nature and physical properties of radio frequency (“RF”) fields, whether there is an established biophysical or biological mechanism for RF fields from advanced metering infrastructure (“AMI”) and/or automatic meter reading (“AMR”) systems to cause adverse effects in humans, methods for determining a person’s exposure to RF fields, and how the RF fields from PPL Electric’s AMI system compare to the Federal Communications Commission’s RF exposure standards and to RF field exposures from other sources in everyday life.

Dr. Israel is expected to testify about RF fields and health, and whether there are scientific studies that provide a reliable medical or scientific basis for concluding that RF fields from PPL Electric’s AMI system will cause or contribute to the adverse health effects, if any, alleged by Mr. Myers.

Honorable Elizabeth Barnes

PPL Electric submits that the use of written testimony will help the hearing proceed in an orderly and expeditious fashion. Such expert testimony would be easier to understand if presented in written form and could be moved into the record much quicker. Moreover, as Mr. Myers is appearing *pro se*, PPL Electric believes that using written testimony for expert witnesses will enable Mr. Myers to better prepare for the hearing.

For these reasons, PPL Electric respectfully requests that all expert witnesses in this proceeding be required to submit written direct testimony on or before January 15, 2018, which is the current due date for parties to exchange exhibits, reports, and statements.

Respectfully submitted,

Devin Ryan
