SECRETARY'S BUREAU

An informal complaint was filed on November 5, 2017. Have no knowledge of filing a complaint on June 14, 2016 or that it was closed on August 10, 2016.

A second medical letter was sent.

As to having my meter read - I can read it myself and inform the utility of the reading.

The law is not mandatory, the legislature's intent was to give the people of Pennsylvania a choice. The PUC decided their intent was mandatory. Legislators have introduced numerous bills to allow an opt-out to fix what the PUC caused. Chairman Robert Godshall has refused to allow any to be voted on.

~~If~~ the company is without information or knowledge concerning the detrimental effects of smart meters they must be living in a vacuum.
