Re: Richard N. Myers v. PPL Electric Utilities Corporation
Docket No. C-2017-2620710

Dear Mr. Ryan:

Request PPL Electric Utility Corporation please provide answers to my below questions. PPL's responses are essential for me to properly prepare for our February 5 hearing before the PA PUC.

1. What is the make, model, nomenclature, etc. of the PPL smart meter?
2. What is the frequency range (low to high) of this smart meter?
3. How many pulses can this smart meter emit in a second or minute?
4. How many times in a 24-hour cycle will this smart meter transmit its signal into my home? Note: I don't mean the cumulative total/duration of minutes and seconds that it transmits. Rather, how many times the smart meter transmits its signals in a 24 hour day.
5. Will the PPL smart meter signals add electromagnetic radiation into the electrical wiring of my home? If so, at what frequency?
6. Please cite the research, the scientific studies, and source(s) by which PPL claims there are no adverse health effects to humans from exposure to RF energy in the frequency range emitted by the PPL smart meter.

I believe this is basic information readily available to PPL. Accordingly, kindly request please a reply by email no later than January 10. Thank you.

Sincerely,

Richard N. Myers

cc: Rosemary Chiavetta, Secretary

CERTIFICATE OF SERVICE

I hereby certify that a true and correct copy of the foregoing has been served upon the following person, in the manner indicated, in accordance with the requirements of 52 PA Code 1.54 (relating to service by a participant).
