Re: Rashaan-Mechelle Elam v. PPL Electric Utilities Corporation
Docket No. C-2017-2630795

Your Honor:

PPL Electric Utilities Corporation (“PPL Electric” or the “Company”) hereby submits this letter and respectfully requests that all expert witnesses submit written direct testimony in advance of the evidentiary hearing scheduled for February 8, 2018. Although PPL Electric does not know if Ms. Elam will present any expert witnesses at this time, the Company intends to call two expert witnesses as a part of its direct case: (1) Dr. Christopher C. Davis, Ph.D.; and (2) Dr. Mark A. Israel, M.D. The expert witnesses’ testimony will cover complex scientific and medical issues.

Specifically, Dr. Davis is expected to testify about the nature and physical properties of radio frequency (“RF”) fields, whether there is an established biophysical or biological mechanism for RF fields from advanced metering infrastructure (“AMI”) and/or automatic meter reading (“AMR”) systems to cause adverse effects in humans, methods for determining a person's exposure to RF fields, and how the RF fields from PPL Electric’s AMI system compare to the Federal Communications Commission’s RF exposure standards and to RF field exposures from other sources in everyday life.

Dr. Israel is expected to testify about RF fields and health, and whether there are scientific studies that provide a reliable medical or scientific basis for concluding that RF fields from PPL Electric’s AMI system will cause or contribute to the adverse health effects, if any, alleged by Ms. Elam.

Honorable Elizabeth Barnes

Page 2

PPL Electric submits that the use of written testimony will help the hearing proceed in an orderly and expeditious fashion. Such expert testimony would be easier to understand if presented in written form and could be moved into the record much quicker. Moreover, as Ms. Elam is appearing *pro se*, PPL Electric believes that using written testimony for expert witnesses will enable Ms. Elam to better prepare for the hearing.

For these reasons, PPL Electric respectfully requests that all expert witnesses in this proceeding be required to submit written direct testimony on or before January 17, 2018, which is the current due date for parties to exchange exhibits, reports, and statements. To the extent that Ms. Elam needs additional time to prepare and submit any expert testimony, the Company would not object, on procedural grounds, to her submission of expert testimony on or before January 29, 2018.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Devin Ryan", with a long horizontal flourish extending to the right.

Devin Ryan
