Docket No. C-2017-2640338

NOTICE TO PLEAD

TO: Eugene J. Bazan

Pursuant to 52 Pa. Code § 5.101 you are hereby notified that if you do not file a reply to the enclosed Preliminary Objections of West Penn Power Company within ten (10) days from service of this notice, the facts set forth by West Penn Power Company in the Preliminary Objections may be deemed to be admitted, thereby requiring no other proof. All pleadings, such as a Reply to Objection, must be filed with the Secretary of the Pennsylvania Public Utility Commission, with a copy service to counsel for West Penn Power Company, and where applicable, the Administrative Law Judge presiding over the case.

	:	
WEST PENN POWER COMPANY	:	

**PRELIMINARY OBJECTION TO THE FORMAL COMPLAINT OF
EUGENE J. BAZAN**

TO THE PENNSYLVANIA PUBLIC UTILITY COMMISSION:

AND NOW, West Penn Power Company ("West Penn" or the "Company"), by and through its counsel, Lauren M. Lepkoski and Tori L. Giesler, files this Preliminary Objection pursuant to Section 5.101(a) of Pennsylvania Public Utility Commission ("Commission") regulations, 52 Pa. Code § 5.101(a)(1), and in support thereof, avers as follows:

I. Introduction

1. In his recently filed Formal Complaint, Eugene J. Bazan ("Complainant"), who resides at 244 Mary Street, Lemont, Pennsylvania 16851 ("Service Location") alleges that he does not want a smart meter installed at the Service Location. (Formal Complaint ¶¶ 4, 5.) The Complainant states, in part, as requested relief:

Order WPP to leave our analog meter on our house and not to remove it to replace with their new AMI meter.

(Formal Complaint ¶ 5.)

2. The Company is in the process of deploying smart meters in its service territory in accordance with Act 129 of 2008 ("Act 129").¹

¹ 66 Pa.C.S. § 2806.1 *et seq.* Among other things, Act 129 specifically directed that electric distribution companies with at least 100,000 customers file a smart meter technology procurement and installation plan with the Commission for approval. 66 Pa.C.S. § 2807(f)(1) and (2).

3. On August 4, 2017, the Company received correspondence from the Complainant dated August 1, 2017, advising that he did not want a smart meter installed at the Service Location. The Company noted the smart meter refusal on the Complainant's electric service account. On August 14, 2017, the Complainant filed an informal complaint with the Commission's Bureau of Consumer Services ("BCS") regarding installation of a smart meter at the Service Location. On December 5, 2017, the BCS dismissed the informal complaint finding that the Company was required to install a smart meter at the Service Location pursuant to Act 129, all utilities with at least 100,000 customers were directed to file smart meter technology procurement and installation plans with the Commission and that there is no opt-out provision. On December 29, 2017, the instant Formal Complaint was served on the Company and termination efforts ceased.

4. As explained in greater detail below, even if all of the facts in the Formal Complaint are accepted as true, they do not constitute a violation of any law which the Commission has jurisdiction to administer, or of any regulation or order of the Commission, such that relief can be granted. *See* 66 Pa.C.S. § 701.

5. As a result, the Company requests that this Preliminary Objection be granted and that the Commission: (1) strike the Complainant's request for an exemption from the installation of a smart meter; (2) dismiss the Formal Complaint in its entirety with prejudice; and (3) grant the Company such other relief as may be just and reasonable under the circumstances.

II. Background

6. West Penn is an electric distribution company that is certificated as a public utility in Pennsylvania.

7. On August 4, 2017, the Company received correspondence from the Complainant dated August 1, 2017, advising that he did not want a smart meter installed at the Service Location. The Company noted the smart meter refusal on the Complainant's electric service account. On August 14, 2017, the Complainant filed an informal complaint with the Commission's Bureau of Consumer Services ("BCS") regarding installation of a smart meter at the Service Location. On December 5, 2017, the BCS dismissed the informal complaint finding that the Company was required to install a smart meter at the Service Location pursuant to Act 129, all utilities with at least 100,000 customers were directed to file smart meter technology procurement and installation plans with the Commission and that there is no opt-out provision. On December 29, 2017, the instant Formal Complaint was served on the Company and termination efforts ceased.

8. On or about December 28, 2017, the Complainant filed a Formal Complaint with the Commission against West Penn at the above-captioned docket which was then electronically served on the Company on December 29, 2017.

9. West Penn is timely filing its Answer and New Matter contemporaneously with this Preliminary Objection, which Answer and New Matter is incorporated into this Preliminary Objection as if fully set forth herein.

III. Argument

10. The Commission's Rules of Practice and Procedure permit parties to file preliminary objections. The grounds for preliminary objections are limited to those set forth in 52 Pa. Code § 5.101(a) as follows:

- (1) Lack of Commission jurisdiction or improper service of the pleading initiating the proceeding.
- (2) Failure of a pleading to conform to this chapter or the inclusion of scandalous or impertinent matter.

- (3) Insufficient specificity of a pleading.
- (4) Legal insufficiency of a pleading.
- (5) Lack of capacity to sue, nonjoinder of a necessary party or misjoinder of a cause of action.
- (6) Pendency of a prior proceeding or agreement for alternative dispute resolution.
- (7) Standing of a party to participate in the proceeding.

11 The Commission's procedure regarding the disposition of preliminary objections is similar to that utilized in Pennsylvania civil practice. *Equitable Small Transportation Intervenors v. Equitable Gas Company*, Docket No. C-00935435 (Opinion and Order entered July 18, 1994).

12. A preliminary objection in civil practice seeking dismissal of a pleading will be granted only where relief is clearly warranted and free from doubt. *Interstate Traveler Services, Inc. v. Pa. Dept. of Environmental Resources*, 406 A.2d 1020 (Pa. 1979); *Rivera v. Philadelphia Theological Seminary of St. Charles Borromeo, Inc.*, 595 A.2d 172 (Pa. Super. 1991). The Commission has adopted this standard. *Montague v. Philadelphia Electric Company*, 66 Pa. PUC 24 (1988).

13. In accordance with Section 701 of the Code, 66 Pa.C.S. § 701, a person may file a complaint which sets forth "any act or thing done or omitted to be done by any public utility in violation, or claimed violation, of any law which the commission has jurisdiction to administer, or of any regulation or order of the commission." As explained below, the Company has not violated the Public Utility Code or the orders or regulations of the Commission.² In fact, the Company's action have been in compliance with Act 129 and the June 5 Order.

14. The moving party may not rely on its own factual assertions, but must accept for the purposes of disposition of the preliminary objection, all well-pleaded, material facts of the other party, as well as every inference fairly deducible from those facts. *County of Allegheny v.*

² 66 Pa.C.S. § 701.

Commw. of Pa., 490 A.2d 402 (Pa. 1985). Therefore, in ruling on a preliminary objection, the Commission must assume, for decisional purposes only, that the factual allegations of the Formal Complaint are true. *Id.*

15. West Penn's smart meter deployment plan was approved by the Commission at Docket No. M-2013-2341991 by Order entered June 5, 2014. In accordance with the June 5 Order, the Company filed its final Smart Meter Deployment Plan ("SMP") on June 16, 2014. The SMP was approved by the Commission on June 20, 2014. The Complainant challenges no aspect of the Company's provision of electric service other than the installation of a smart meter at the Service Location, as required by Act 129 and the Company's SMP.

16. Commission precedent is uniform that it cannot grant exceptions to the statutory directive that smart meters be installed by allowing customers to opt out.³

17. Assuming the facts pleaded in the Formal Complaint are true, as the Commission must for the purposes of ruling on a preliminary objection, the Complainant has failed to allege that West Penn has committed or omitted an act in violation of a Commission statute, regulation, order, or West Penn's tariff, a finding of which must be made in order to sustain a formal complaint. *See* 66 Pa.C.S. § 701; *County of Allegheny*, *supra*. (Compl. ¶ 4).

18. Because Act 129 and the Commission's orders not only authorize but require the Company to develop and implement a smart meter procurement and installation plan, and do not

³ *Negley v. Metropolitan Edison Company*, Docket No. C-2010-2205305 (Final Order entered March 3, 2011); *Lutherschmidt v. Metropolitan Edison Company*, Docket No. C-2010-2200353 (Final Order entered March 25, 2011). The Commission has continued to uphold installation of smart meters and imposition of smart meter charges on customers' bills by dismissing complaints opposing installation of smart meters and imposition of smart meter charges on the basis of legal insufficiency. *Corbett v. Pennsylvania Power Company*, Docket No. C-2011-2219898 (Final Order entered May 27, 2011); *Jones v. Metropolitan Edison Company*, Docket No. C-2011-2224380 (Final Order entered June 28, 2011); *Griffin v. Metropolitan Edison Company*, Docket No. C-2012-2300172 (Final Order entered July 31, 2012); *Brake v. West Penn Power Company*, Docket No. C-2013-2367308 (Opinion and Order entered November 14, 2013); *Drake v. Pennsylvania Electric Company*, Docket No. C-2014-2413771 (Final Order entered June 12, 2014); *Efaw v. West Penn Power Company*, Docket No. C-2014-2413744 (Final Order entered June 12, 2014). *See also*, the Initial Decision of ALJ Susan D. Colwell in *Dennis McElwain v. Pennsylvania Power Company*, Docket No. C-2014-2451478 issued December 16, 2015.

allow a customer to opt out of having a smart meter installed, this Complaint must be dismissed. As a matter of law, the Company is required to install a smart meter at the Service Location. As such, the Commission cannot find the Company to be in violation for having attempted to follow the law as it has done here.

19. Therefore, the Formal Complaint is legally insufficient because it fails to state a claim upon which the Commission can grant relief. *See* 52 Pa. Code § 5.101(a)(4).

20. The Commission may dismiss a complaint without hearing if a hearing is not necessary in the public interest. 66 Pa.C.S. § 703(b); 52 Pa. Code § 5.21 (d).

21. Recently, the Commission set for hearing two cases in which the complainant was opposed to the installation of a smart meter at their premises.⁴ These cases represent a departure from past Commission practice of dismissing such complaints on Preliminary Objections. The Commission stated that where a complainant has presented specific factual averments regarding the health or other effects that they have experienced after a smart meter was installed at their home, the Commission has overruled Preliminary Objections and allowed a case to proceed. Specifically, in *Kreider*, the complainant alleged specific deleterious health effects after installation of a smart meter affecting her specific medical condition. Further, in *Van Schoyck*, the complainants alleged potential health risks due to constant ringing noise in their home and their inability to sleep since the time the smart meter was installed.⁵ In contrast, in the instant case, the Complainant has made no specific factual averments regarding any effects experienced which began *after* a smart meter was installed. Furthermore, the Complainant only raises general concerns regarding smart meters in his two letters attached to the Formal Complaint. The

⁴ *Susan Kreider v. PECO Energy Company*, Docket No. C-2015-2469655 (Order on Reconsideration entered January 28, 2016); *Stephen and Diane Van Schoyck v. PECO Energy Company*, Docket No. C-2015-2478239 (Opinion and Order entered February 25, 2016).

⁵ *Id.*

Commission has not recognized general assertions of health or privacy concerns as sufficient to overcome Preliminary Objections.⁶ Therefore, the Company respectfully submits that the matters plead in the subject Formal Complaint do not meet the standards set in the *Kreider* and *Van Schoyck* cases such that this matter can survive dismissal on preliminary objections.

22. Further, the Commission has upheld decisions granting preliminary objections and dismissing complaints for legal insufficiency opposing smart meter installation. In *Richard Negley v. Metropolitan Edison Company*, Docket No. C-2010-2205305 (Initial Decision issued January 3, 2011), ALJ Susan D. Colwell dismissed a complaint opposing installation of smart meters for legal insufficiency. ALJ Colwell concluded that Act 129 of 2008 authorized the installation of smart meters by EDCs. ALJ Colwell held that the Commission's orders approving the EDC's smart meter plans did not exempt any customers from the smart meter plans. By Commission final order entered March 3, 2011, ALJ Colwell's Initial Decision became final without further Commission action. *Dennis Lutherschmidt v. Metropolitan Edison Company*, Docket No. C-2010-2200353 (Order Issued March 25, 2011); *Gloria Corbett v Pennsylvania Power Company*, Docket No. C-2011-2219898 (Order entered May 27, 2011); *Edward Jones v. Metropolitan Edison Company*, Docket No. C-2011-2224380 (Order entered June 28, 2011); *Gerald Griffin v Metropolitan Edison Company*, Docket No. C-2012-2300172 (Order entered July 31, 2012); *Michael Balogh v. West Penn Power Company*, Docket No. C-2012-2329713 (Order entered January 4, 2013).

23. The Commission has also upheld decisions finding that a utility has the ability to terminate the service of a customer who refuses installation of a smart meter. *Art Larson v. PECO Energy Company*; Docket No. C-2014-2451754 (Opinion and Order entered June 11, 2015)

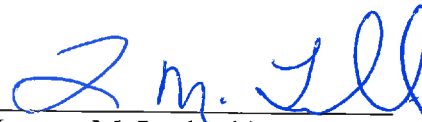

⁶ *Richard and Marie Fugo in care of Fugo Eye Institute v. PECO Energy Company*, Docket Nos. C-2015-2519763 and C-2015-2519770 (Order entered April 6, 2016).

24. Because Act 129 of 2008 and the Commission's orders authorize the Company to develop and implement a smart meter procurement and installation plan, and impose a smart meter charge on its customers to pay for that development, implementation, procurement and installation, the Complainant has not set forth in her complaint any act done by the Company that violates a Commission regulation, statute or order.

IV. Conclusion

WHEREFORE, for the foregoing reasons, West Penn Power Company respectfully requests that the Commission: (1) grant its Preliminary Objections and strike the Complainant's request for an exemption from the installation of a smart meter; (2) dismiss the Formal Complaint in its entirety with prejudice; and (3) grant the Company such other relief as may be just and reasonable under the circumstances.

Respectfully submitted,
