**Subject:** [EXTERNAL] Alarming development today  
**Importance:** High

Dear Your Honor and Mr. Smith,

I apologize for this email, but this is very important. I received a phone call yesterday at 3:30pm from PECO Energy. It was an automated message telling me that, according to a previous appointment I made, a technician will be out today. I assure you no such appointment was made by me. Grid One was out this morning and told me that PECO sent him to put a smart meter on this house. I sent him away explaining that I had a case pending against PECO. I understand it is illegal to put a smart meter on this house due to all the health problems caused by PECO's previous smart meter deployments while my case is pending. How can we be sure this does not happen again? I thought PECO flagged my account when I filed by formal complaint in August 2017. If PECO wants to deploy an electromechanical analog meter with no transmitters, receivers, or switch mode power supply, that would be fine. Please notify me in advance of that. Thank you.

Warm regards,  
Alexia
