**PROTEST**

---

Pursuant to 52 Pa. Code Sections 5.51, *et seq.* and 66 Pa. C. S. Sections 1101, *et seq.* *Stacey*  
*A Wolfe* files this Protest to the Transource Filing Docket No. A-2017-  
2640195. In support of this Protest, Stacy A. Wolfe avers as follows:

1. The name and contact information of the Protestant is as follows: Stacy A. Wolfe of 3198 New Park Rd, New Park, PA 17352
2. My interest in this project is as a landowner and resident of Fawn Township York County. My family farm land is directly adjacent to my home lot which is within 1,000ft of the proposed project.
3. The grounds for our protest of this proposal:
  - a. These powerlines limit the options for future farming enterprises.
  - b. Our family and two young daughters enjoy the unspoiled rural countryside. The diminished value causes direct hardship for our farm and family.
4. We are concerned about the long term exposure of our children to the Electromagnetic Waves and stray shocks from the high-power lines. The constant buzzing and crackling ruins the quiet rural atmosphere.
  - a. My wife's family previously operated a tree farm, which would be prohibited under the power lines. This limits the opportunities for us to provide for our family.
  - b. Vegetable production is highly sensitive to pesticides and harvest intervals. The Right of Way would allow spraying and entry to the land, even if it were in productions, at any time potentially ruining our crops, yields and profitability.
  - c. In the past, our farm operated animal production facilities. As markets change, we must be

ready to adapt to that change. This power line project would directly limit our ability to build farm buildings on our land that we might need to allow future generations of our family to farm. My children need the flexibility to adapt to market conditions when it is their turn to make farming decisions.

- d. All jobs associated with building this project are temporary, local farms and businesses, such as ours, must survive for the long term.

WHEREFORE, Stacy A. Wolfe respectfully requests Pennsylvania Public Utility Commission to investigate and the filing, and strongly impose a condition that all other existing rights of way and infrastructure should be utilized before any new power line projects are approved, and **the Commission should deny the Transource filing.**

Respectfully submitted,

[Signature of Protestant] \_\_\_\_\_

*Stacy A. Wolfe*
