Please note in reading over this letter that it was written out by my hand. I did not send a typed letter or e-mail.

This indicates the amount of emotion and feeling I have in this situation.

Please take into consideration all of my and so many other people here in Southern York County's feelings on this TRANSOURCE matter.

There is so many aspects of this situation and how it will impact all of us business owners, private citizens and especially the farmers here.

And, not only people but our wildlife that has lived here and been untouched and been able to roam free. Substations and power lines will impact them to.

2. My interest in this project is

The main station for purposed Transource is located directly across road from our Business + home. Then we will lose our beautiful Country landscape and feel we are in the city! And, the health risks to our children + grandchildren (Read attached

3. Existing participants in the filing may not understand:

we have lived here for 37 years (letter) → and have enjoyed watching across our road at many dozens of deer over the years and enjoyed our Country setting! NOW, TRANSOURCE is planning on putting their major station there! Now we as a business + home owner have to look at that! HORRIBLE, for us and the wildlife., and health dangers! Miller

4. The action of this Commission will *impact ALOT of people. Our Business and many farmers here in Southern York County DO NOT want this. Please make, Miller's Fuel Supply your decision wisely!*

WHEREFORE, Dave & Susan respectfully requests Pennsylvania Public Utility Commission to investigate and the filing, and strongly impose a condition that all other existing rights of way and infrastructure should be utilized before any new power line projects are approved, and **the Commission should deny the Transource filing.**

How is it possible that an electric company can come thru a place where the electric does not even go to the people where its coming thru? "HOW?"

This will not benefit PA residents at all, but they are coming thru our beautiful community in Southern York County!!

People from the City and other places actually drive to Southern York County to see the beautiful Country landscape and farms to get away from City, NOW you want to load up our beautiful Country sides and our beautiful farms with large ugly towers to supply electric for another State? "UNREAL"!!

Please take a long and serious look at this decision and say "NO" to TRANSOURCE and leave us keep our beautiful countryside!

and MOST important, what are the health concerns for our children and our future grandchildren! What are the cancer concerns from this electric?, and for our animals! So many unanswered questions!
