Supchapter G, for Approval of the Siting and
Construction of the 230 kV Transmission Line
Associated with the Independence Energy
Connection-East Project in Portions of York
County, Pennsylvania

Re: Application of Transource Pennsylvania,
LLC Filed Pursuant to 52 Pa. Code Chapter 57,

Docket No. A-2017-2640195

PETITION TO INTERVENE

Pursuant to 52 PA Code § 5.71, *et seq.*, JAMES STARK hereby files this Petition to Intervene in the above-captioned proceeding. In support thereof, JAMES STARK submits as follows:

1. The name and contact information of the Petitioner is as follows:

JIM STARK
2010 GARNET RD
YORK PA 17403

2. My interest in this project is: My Children participate in riding classes/ trail riding/ vaulting and other horse activities at Muddy Creek Meadows in Airville Pa. a farm that is in the direct line for the Transource power line project. .
3. Existing participants in the filing may not understand: The dangerous atmosphere high voltage lines create in a horse riding stable with trails that young children are around daily. It's a proven fact that they shot off stray voltage.

4. The action of this Commission will stop the riding stable from providing a safe environment for our children to participate in the sport they love. As a parent I hope you will consider that there are other options to fulfill the need Transource is requesting, there are underutilized towers existing practically parallel to the lines they want to install. This is slated as a market efficiency project, no one in Pennsylvania and Maryland is going without electric!

WHEREFORE, JAMES STARK respectfully requests Pennsylvania Public Utility Commission to investigate and the filing, and strongly impose a condition that all other existing rights of way and infrastructure should be utilized before any new power line projects are approved, and the Commission should deny the Transource filing.

Dated: 5 FEB 2018

Respectfully submitted, [Signature of Protestant]
