Re: Application of Duquesne Light Company Under 15 Pa.C.S. § 1511(c) For A Finding and Determination That the Service to be Furnished by the Applicant Through Its Proposed Exercise of the Power of Eminent Domain to Acquire a Certain Portion of the Lands of Parkway Associates, Inc. in Penn Hills Township, Allegheny County, Pennsylvania for the Siting and Construction of Transmission Lines Associated with the Proposed Universal-Plum Project Is Necessary or Proper for the Service, Accommodation, Convenience, or Safety of the Public - Docket No. A-2018-

Dear Secretary Chiavetta:

Enclosed is the Application of Duquesne Light Company for the above-referenced proceeding. Also enclosed is the Direct Testimony of Mark Hummel and supporting exhibits. A CD containing a copy of the Application, Direct Testimony and supporting exhibits is also enclosed. A check in the amount of \$350 is enclosed for payment of the filing fee. Copies will be provided as indicated on the certificate of service.

Sincerely,

APPLICATION OF DUQUESNE LIGHT COMPANY

TO THE PENNSYLVANIA PUBLIC UTILITY COMMISSION:

Duquesne Light Company (“Duquesne Light” or the “Company”) herein files this Application, pursuant to 15 Pa. C.S. § 1511(c), for a finding and determination by the Pennsylvania Public Utility Commission (“Commission”) that the service to be furnished through its proposed exercise of the power of eminent domain to acquire a right-of-way and easement over a certain portion of the lands of Parkway Associates, Inc. in Penn Hills Township, Allegheny County, Pennsylvania for the siting and construction of the 138 kV transmission line associated with the proposed Universal Plum Project in Penn Hills, Monroeville, and Plum Borough Allegheny County, Pennsylvania, including the relocation of a portion of the Cheswick-Plum 138 kV Transmission Line (“Universal-Plum Project”) is necessary or proper for the service, accommodation, convenience, or safety of the public. In support of this Application, Duquesne Light states as follows:

I. INTRODUCTION AND OVERVIEW

1. This Application is filed by Duquesne Light, a public utility that provides electric distribution, transmission, and provider of last resort services in Pennsylvania subject to the regulatory jurisdiction of the Commission.

2. Duquesne Light's principal business address is:

Duquesne Light Company

Duquesne Light's attorneys are authorized to receive all notices and communications regarding this Application.

4. Duquesne Light is a Pennsylvania business corporation formed on November 25, 1912. Duquesne Light converted to a limited liability company on November 11, 2017; the conversion was approved by the Commission by Order entered August 31, 2017 at Docket No. A-2017-2599375. Duquesne Light is subject to the Pennsylvania Business Corporation Law of 1988, P.L. 1444, No. 177, Section 103, *as amended*, 15 Pa. C.S. §§ 1101 *et seq.* ("BCL").

5. Duquesne Light is also a Pennsylvania public utility and has the power of eminent domain pursuant to the Pennsylvania BCL. Duquesne Light submits this Application pursuant to Section 1511 of the BCL, 15 Pa. C.S. § 1511.

6. Duquesne Light furnishes electric service to approximately 600,000 customers throughout its certificated service territory, which includes all or portions of Allegheny and Beaver Counties and encompasses approximately 800 square miles in western Pennsylvania.

7. Upon Commission approval, Duquesne Light proposes to construct the Universal-Plum Project. The Universal-Plum Project involves, among other things, the construction of approximately 3.70 miles new, overhead 138 kV transmission line between the Universal Substation and the Plum Substation, construction of approximately 1.56 miles of new, underground 138 kV transmission line,¹ and the relocation of approximately 0.51 miles of the existing Cheswick-Plum 138 kV Transmission Line. The construction of a new 138 kV transmission line and the relocation of a portion of an existing 138 kV line as a part of Universal-Plum Project are need to avoid multiple reliability issues and to reinforce the electric systems serving Allegheny County.

8. A certain portion of the route selected for the Universal-Plum Project will traverse a portion of the land owned by Parkway Associates, Inc. in Penn Hills Township, Allegheny County, Pennsylvania (the “Parkway Property”). By this Application, Duquesne Light is requesting a finding and determination that the service to be furnished through its proposed exercise of the power of eminent domain to acquire a right-of-way and easement over a certain portion of the Parkway Property for the construction of the transmission lines associated with the Universal-Plum Project is necessary or proper for the service, accommodation, convenience, or safety of the public.

9. Simultaneous with the filing of this Condemnation Application, Duquesne Light filed the “Application of Duquesne Light Company filed Pursuant to 52 Pa. Code Chapter 57,

¹ Commission approval is not required for the siting and construction of underground transmission lines. See 52 Pa. Code § 57.71 (PUC approval is required for the siting and construction of HV transmission lines); 52 Pa. Code § 57.1) (an HV transmission line is an overhead electric supply line with a design voltage of 100 kV or greater).

Subchapter G, for Approval of the Siting and Construction of the 138 kV Transmission Lines Associated with the Universal-Plum Project in Penn Hills, Monroeville, and Plum Borough, Allegheny County, Pennsylvania” (the “Universal-Plum Siting Application”). Therein, Duquesne Light is requesting Commission approval of the siting and construction of the Pennsylvania portion of the Universal-Plum Project in Allegheny County, Pennsylvania.

10. A complete copy of the Universal-Plum Siting Application, together with the supporting Attachments and Testimony, is being served on Parkway Associates, Inc. The Universal-Plum Siting Application and supporting Attachments and Testimonies are incorporated herein by reference.

II. NEED FOR THE PROJECT

11. System planning is the process which assures that transmission and distribution systems can supply electricity to all customer loads reliably and economically. The reliable and economical operation of transmission systems requires planning guidelines for system expansion and reinforcement.

12. PJM Interconnection, LLC (“PJM”) is a Federal Energy Regulatory Commission (“FERC”) approved Regional Transmission Organization charged with ensuring the reliability of the electric transmission system under its functional control and coordinating the movement of electricity in all or parts of thirteen states and the District of Columbia, including most of Pennsylvania. Duquesne Light, an owner of transmission facilities in Pennsylvania, is a member of PJM and actively participates in the PJM transmission planning process.

13. In order to ensure reliable transmission service, PJM prepares an annual Regional Transmission Expansion Plan (“RTEP”) to ensure power continues to flow reliably to customers. The North American Electric Reliability Corporation (“NERC”), PJM, and transmission owner

reliability criteria are used by PJM and the transmission owners to analyze the system and determine if specific transmission upgrade projects are needed to ensure long-term reliable electric service to customers.

14. Duquesne Light has adopted reliability and planning standards to ensure adequate and appropriate levels of electric service to its customers consistent with good utility practice. The Duquesne Light Transmission Planning Criteria were developed from and are consistent with the NERC and PJM planning and reliability standards.²

15. In accordance with the Duquesne Light Transmission Planning Criteria, Duquesne Light's transmission system is planned so that it can be operated at all projected load levels and during normal scheduled outages to withstand specific unscheduled contingencies without exceeding the equipment capability, causing system instability or cascade tripping, or exceeding voltage tolerances. The transmission system is required to have adequate capability so that it can be operated normally and can withstand unscheduled contingencies and other system conditions.

16. Duquesne Light's existing Plum 138-23 kV Substation was installed was in 1978 and is located in Plum Borough, Allegheny County. There has been significant load growth in this area since that time. The Plum Substation currently serves a peak load of approximately 34 megavolt amperes ("MVA") primarily in Plum Borough.

17. The Plum Substation presently is supplied by single source of supply, the Cheswick-Plum 138 kV Transmission Line. The Cheswick-Plum 138 kV Transmission Line is a

² Duquesne Light's reliability and planning standards are set forth in its Federal Energy Regulatory Commission Form No. 715 annual report.

radial line³ that extends approximately 7.5 miles between the Cheswick Substation in Springdale Borough, and the Plum Substation in Plum Borough.

18. In the event of an outage on the Cheswick-Plum 138 kV Transmission Line, either through required maintenance or potential system faults, the Plum Substation would lose its only transmission source of supply until repairs could be made. The ability to transfer the load served by the Plum Substation to other distribution substations in the area is limited during times of system peak load or during unusual operating conditions, and would cause 23 kV sub-transmission and 23 kV distribution circuits to become heavily loaded.

19. Duquesne Light's existing Universal 138-23 kV Substation is located in Penn Hills, Allegheny County. The Universal Substation is a large substation that has a maximum historical load of approximately 124 MVA and provides power to customers in the eastern Allegheny County, including the suburbs of Braddock Hill Borough Churchill Borough, Edgewood Borough, Forest Hills Borough, Penn Hills Borough, Penn Hills Township, Monroeville Borough, Pitcairn Borough, City of Pittsburgh, Swissvale Borough, Wilkins Township, and Wilkinsburg Borough. The Universal Substation supplies electricity to multiple critical customers, including two hospitals and a water pumping plant.

20. The Universal Substation currently has three 138-23 kV transformers, but only two transmission sources: the Logans Ferry-Universal 138 kV Transmission Line and the Universal-USS Illinois 138 kV Transmission Line. The Logans Ferry-Universal 138 kV Transmission Line extends approximately 6.52 miles between the Logans Ferry Substation located in Plum Borough and the Universal Substation. The Universal-USS Illinois 138 kV

³ In a "networked" configuration, the transmission line has a voltage source and power supply available at each end of the line. Power can flow from either end of the line to serve customer load. However, in a "radial" configuration, the transmission line has a voltage source and power supply available at only one end of the line.

Transmission Line extends approximately 6.98 miles between the USS Illinois Substation located in the City of Duquesne and the Universal Substation.

21. The Universal Substation currently violates the Duquesne Light Planning Criteria, which provides that a substation with peak load over 100 MVA should have three transmission line sources. As explained above, the Universal Substation currently has only two transmission sources.

22. The two-source configuration at the Universal Substation creates a significant risk of losing the load served by the Universal Substation, such as, during periods when one of the transmission sources are out of service for planned maintenance. If one of the two sources of supply is out of service, the entire customer load served by the Universal Substation could be interrupted for an extended period of time until repairs could be made if the other source of supply is lost due to potential system faults.

23. For example, on September 4, 2003, the Cheswick-Universal 138 kV Transmission Line was out of service for scheduled maintenance work. Concurrently, an equipment failure caused an outage to the remaining transmission source to the Universal Substation. This event resulted in the loss of the entire Universal Substation, which interrupted electrical service to all customers served from the substation (approximately 29,500 customers in the Penn Hills area) until repairs could be made. If a similar outage were to occur during current peak load conditions, approximately 37,600 customers would be without power until repairs could be made.

24. Given the experienced and expected load growth in the region, Duquesne Light anticipates that the severity of these reliability issues will continue to increase if the transmission systems serving the areas are not reinforced.

III. DESCRIPTION OF THE PROJECT

25. To address the identified reliability and planning issues described above, Duquesne Light proposes to construct the new Universal-Plum 138 kV Transmission Line. In order to accommodate the new Universal-Plum 138 kV Transmission Line, Duquesne Light also proposes to relocate approximately 0.51 miles of the existing Cheswick-Plum 138 kV Transmission Line.

26. As explained in the Universal-Plum Siting Application, and the Attachments and Statements thereto, the proposed Universal-Plum 138 kV Transmission Line will extend approximately 5.26 miles between the Universal Substation in Penn Hills and the Plum Substation in Plum Borough. Approximately 3.70 miles of the proposed Universal-Plum 138 kV Transmission Line will be constructed as an overhead transmission line and approximately 1.56 miles will be constructed as an underground transmission line.

27. To accommodate the new Universal-Plum 138 kV Transmission Line, an approximately 0.51-mile portion of the existing Cheswick-Plum 138 kV Transmission Line will be relocated 64 to 155 feet south of its present location into new right-of-way. The relocated portion of Cheswick-Plum 138 kV Transmission Line will proceed west from the Plum Substation and will parallel its present route and the proposed route of the Universal-Plum 138 kV Transmission Line. The relocated portion of Cheswick-Plum 138 kV Transmission Line will minimize overhead wire crossings and make room for the new Universal – Plum 138 kV Transmission Line.

28. The entire Project will be located in Allegheny County. Approximately 1.39 miles of the proposed Universal-Plum 138 kV Transmission Line will be located within the Municipality of Penn Hills, approximately 0.58 miles will be located within the Municipality of Monroeville, and approximately 3.29 miles will be located within Plum Borough. The 0.51-mile

portion of the Cheswick-Plum 138 kV Transmission Line to be relocated is located in Plum Borough.

29. An aerial photograph map showing the location of the proposed Universal-Plum 138 kV Transmission Line and relocated Cheswick-Plum 138 kV Transmission Line is provided in this proceeding Duquesne Light Exhibit No. MH-1 (Parkway), which is attached to Duquesne Light Statement No. 1 (Parkway).

30. The proposed Project will provide a second source of supply to the Plum Substation, which will reduce the number of customers affected by an outage of the current single transmission source of supply to the Plum Substation, as well as the duration of the outage.

31. The Universal-Plum Project will also provide a third source of supply to the Universal Substation, which will reduce the number of customers affected by an outage to both of the current two sources of supply to the Universal Substation, as well as the duration of the outage.

32. Furthermore, the Universal-Plum Project will bring Universal and Plum Substations into compliance with the Duquesne Light Planning Criteria.

33. The proposed Project was reviewed by PJM stakeholders and included in PJM's RTEP as project TOI340.2.

IV. HEALTH AND SAFETY

34. The proposed Project will not create any unreasonable risk of danger to the public health or safety. The Project will be designed, constructed, operated, and maintained in a manner that meets or surpasses all applicable NESC minimum standards and all applicable legal requirements.

35. Descriptions of Duquesne Light's construction, operation, maintenance and safety standards and procedures for transmission and distribution lines meet or exceed all relevant NESC standards and all standards of the Federal Occupational Safety and Health Administration ("OSHA").

36. The Universal-Plum Project is being completed within a new transmission line corridor. Duquesne Light will apply the Wire Zone/Border Zone management technique, which is recognized as an industry best practice to manage vegetation and ensure the safe and reliable delivery of electricity.

37. Duquesne Light performed an electromagnetic field study for the proposed transmission line. A further description of Duquesne Light's electromagnetic field practices and policies are provided in Attachment 13 to the Universal-Plum Siting Application.

38. No communication towers, pipelines, or other utilities will be affected by the proposed Project.

39. Several major roadways, including the Pennsylvania Turnpike and I-376, will be spanned by the various segments of the Project. Pennsylvania Department of Transportation ("PennDOT") Highway Occupancy Permits or equivalent type permits will be acquired by Duquesne Light for these major highways and all other state roads prior to construction.

40. Aviation coordination will be conducted through the Federal Aviation Association ("FAA"). Duquesne Light will assure that that the pole locations and heights are properly recorded by the FAA. Duquesne Light will comply with any additional lighting or other visual aids that may be required by these agencies to assure aviation safety in the region.

41. A further description of the safety considerations which will be incorporated into the design, construction and maintenance of the proposed Project are provided in Attachment 13 to the Universal-Plum Siting Application.

V. PROPERTY FOR WHICH EMINENT DOMAIN APPROVAL IS SOUGHT

42. The service to be furnished by Duquesne Light through the proposed Universal-Plum Project is necessary or proper for the service, accommodation, convenience, or safety of the public for the reasons set forth in the Universal-Plum Siting Application and supporting Attachments and Testimonies that are incorporated herein by reference.

43. A certain portion of the route selected for the Universal-Plum Project crosses a tract of land located at parcel number 0637J00158000000 in Allegheny County.

44. A deed for the property is recorded at Allegheny County, Pennsylvania Volume 8847, Pages 163-167, and a copy of said recorded deed is provided in this proceeding in Duquesne Light Exhibit No. MH-2 (Parkway), which is attached to Duquesne Light Statement No. 1 (Parkway).

45. The name(s) and mailing address of the owner(s) of record of said tract of land is/are:

Parkway Associates, Inc.
4280 Old William Penn Highway
Monroeville, PA 15146

Robert Verona
Parkway Associates
4117 Old William Penn Highway
Murrysville, PA 15668-1920

Richard C. Crawford
Parkway Associates
4117 Old William Penn Highway
Murrysville, PA 15668-1920

46. Duquesne Light desires to acquire a right-of-way and easement over the aforesaid land for the construction, operation, and maintenance of a segment of the 138 kV transmission line associated with the Universal-Plum Project to transmit electric energy for light, heat, and power.

47. The right-of-way for the Universal-Plum Project will be approximately 100 feet but may vary in certain areas in order to accommodate environmental, engineering, and constructability issues, as well as ensure compliance with NESC clearances.

48. The property sought to be acquired in this Application does not include property used as a burying ground, place of public worship, a dwelling house, or any part of the reasonable curtilage appurtenant thereto.

49. A map depicting the proposed right-of-way across the Parkway Property is provided in this proceeding in Duquesne Light Exhibit No. MH-3 (Parkway), which is attached to Duquesne Light Statement No. 1 (Parkway).

50. Duquesne Light currently is attempting to voluntarily negotiate and obtain a right-of-way and easement over a portion of said tract of land for the purposes described above but, to date, has been unable to reach any agreement with the property owner. Accordingly, Duquesne Light herein files this Application for a finding and determination, pursuant to 15 Pa. C.S. § 1511(c), that the service to be furnished through Duquesne Light's proposed exercise of the power of eminent domain for the Universal-Plum Project is necessary or proper for the service, accommodation, convenience, or safety of the public.

51. Duquesne Light remains willing to negotiate a reasonable and mutually acceptable right-of-way agreement with Parkway Associates, Inc., and, thereby, avoid the need to condemn a right-of-way across the property. However, given the construction schedule and

in-service date for the proposed Universal-Plum Project, it is necessary for Duquesne Light to seek Commission approval to exercise the power of eminent domain in order to ensure that the Universal-Plum Project is constructed and operational by the in-service date. In the event that Parkway Associates, Inc. and Duquesne Light reach an agreement for the easement and right-of-way needed, Duquesne Light will withdraw the eminent domain application.

VI. THE REQUIREMENTS FOR CONDEMNATION HAVE BEEN SATISFIED

52. No other public utility is now furnishing or has the corporate authority and certificate to furnish the same service as, or service similar to, that which Duquesne Light will furnish by means of the transmission line to be constructed in the proposed right-of-way and easement over the land to be acquired as set forth in this Application.

53. The service to be furnished by Duquesne Light through the proposed new Universal Plum 138 kV Transmission Line and relocated Cheswick-Plum 138 kV Transmission Line and related facilities is necessary or proper to provide safe and reliable electric service to customers in Allegheny County.

54. An appropriate resolution was adopted by Duquesne Light's Board of Directors authorizing and directing this Application. A copy of the applicable resolution is provided in this proceeding in Duquesne Light Exhibit No. MH-5 (Parkway), which is attached to Duquesne Light Statement No. 1 (Parkway).

VII. CONSOLIDATION OF RELATED PROCEEDINGS

55. Simultaneous with the filing of this Condemnation Application, Duquesne Light filed the Universal-Plum Siting Application. Therein, Duquesne Light is requesting approval to site and construct the 138 kV transmission line associated with the Universal-Plum Project,

including the portion of the proposed transmission line that is the subject of this Application. Issues relating to the necessity for Universal-Plum Project are interrelated with this Application.

56. In accordance with the requirements of 52 Pa. Code §57.75(i)(2), Duquesne Light is serving a complete copy of the Universal-Plum Siting Application, together with the accompanying Attachments and Testimony, upon Parkway Associates, Inc., who is/are the record owner(s) of the property that Duquesne Light seeks to acquire by the exercise of the power of eminent domain.

57. Also contemporaneously herewith, Duquesne Light also is separately nine (9) other Condemnation Applications, pursuant to 15 Pa. C.S. § 1511(c), for findings and determinations that the service to be furnished through its proposed exercise of the power of eminent domain to acquire rights-of-way and easements over certain tracts of land for the proposed Universal-Plum Project is necessary or proper for the service, accommodation, convenience, or safety of the public. Issues relating to the need for these condemnations are interrelated with this Application.

58. Pursuant to 52 Pa. Code § 57.75(i)(1), Duquesne Light requests that these related proceedings be consolidated for purposes of hearings, if necessary, and decision.

VIII. CONCLUSION

WHEREFORE, Duquesne Light Company respectfully requests that the Pennsylvania Public Utility Commission: (1) consolidate this Application for approval of the exercise of the power of eminent domain with the Universal-Plum Project Siting Application; (2) consolidate this Application for approval of the exercise of the power of eminent domain with the nine other Condemnation Applications contemporaneously filed herewith; and (3) find and determine that the service to be furnished by Duquesne Light through the proposed exercise of the power of eminent domain, as set forth above, is reasonably necessary or proper for the service, accommodation, convenience, or safety of the public.

Respectfully submitted,

A-2018-_____

DUQUESNE LIGHT COMPANY

STATEMENT NO. 1

TESTIMONY OF MARK HUMMEL

DATE: MARCH 23, 2018

1 **Direct Testimony of Mark Hummel**

2 **Q. Please state your full name and business address.**

3 A. My name is Mark Hummel. My business address is 2515 Preble Avenue, Pittsburgh, PA
4 15233.

5
6 **Q. By whom are you employed and in what capacity?**

7 A. I am employed by Duquesne Light Company (the "Company") as a Supervisor in Real
8 Estate. In my position I am responsible for managing all of the surveying personal and
9 right-of-way agents for the Company. I currently have a staff of 9 full time employees to
10 support the right-of-way needs for the Company.

11
12 **Q. What are your qualifications, work experience and educational background?**

13 A. I have been employed by the Company for 3 years and 3 months as the supervisor of the
14 Real Estate Department. This Department has four surveying technicians, four real estate
15 agents and a clerk.

16 My surveying career started in South Florida in 1983, where I worked for several
17 small surveying and engineering firms doing construction surveying and boundary
18 surveying. In 1990, I joined the State of Florida and South Florida Water Management
19 District as Assistant Survey Manager, where I managed eight surveying contracts with
20 annual values in excess of \$2 million. In 2001, I returned to the private sector with a
21 small surveying firm as a Project Manager, where I managed several multi-million dollar
22 engineering and construction projects along with Florida Department of Transportation
23 road projects. In 2006, I moved to Pittsburgh and worked for Trans Associates as a

1 Survey Manager doing highway and construction projects. In 2009, I began working for
2 Monaloh Basin Engineers as a Project Manager for a firm doing multiple PennDOT
3 highway and bridge projects. In 2013, I started with Dawood Engineering as the Survey
4 Manager for Western Pennsylvania for highway and bridge projects and oil and gas right-
5 of-ways for private oil and gas companies. I joined the Company in 2014.

6
7 **Q. What are your responsibilities in connection with the Universal-Plum Capacity**
8 **Project?**

9 A. It is my department's responsibility to identify the parcel owners and the owners adjacent
10 to the proposed Universal Plum transmission line, identify any areas in which the
11 Company will require new or enhanced rights-of-way for the Project, and acquire such
12 rights-of-way. Except for the 0.4 mile portion of the Universal-Plum transmission line to
13 be constructed in Company-owned right-of-way currently occupied by a portion of the
14 Cheswick-Plum Transmission Line, this Project involves construction of new
15 transmission lines where none presently exist. Therefore, the Company needed to acquire
16 new right-of-way for all but 0.4 miles of the length of the proposed routes of the new
17 Universal-Plum Transmission Line and Cheswick-Plum Transmission Line relocation.
18 The Company held a public meeting on October 20, 2016 at the Garden City Fire Hall to
19 provide information about the Project to owners of property in the area. At this meeting,
20 Company representatives delivered informational presentations about the Project need,
21 route, design, and operational characteristics; answered questions from attendees; and
22 provided informational literature regarding property owner rights, eminent domain, and a
23 surveying permission form.

1

2 **Q. What is the purpose of your testimony?**

3 A. The purpose of my testimony is to describe the property of Parkway Associates, Inc. as it
4 relates to the Project, and describe the Company's proposed right-of-way and easement
5 over said property.

6

7 **Q. Please summarize the proposed Universal-Plum Capacity Crossing Project.**

8 A. The Project is the subject of the [the Application of Duquesne Light Company filed
9 Pursuant to 52 Pa. Code Chapter 57, Subchapter G, for Approval of the Siting and
10 Construction of the 138 kV Transmission Lines Associated with the Universal-Plum
11 Project in Penn Hills, Monroeville, and Plum Borough, Allegheny County, Pennsylvania
12 (the "Siting Application"), which the Company is filing contemporaneously with the
13 Condemnation Application that is the subject of my testimony.

14 As explained in the Siting Application, the Project is necessary to relocate
15 existing facilities and establish a permanent, reliable link between electric transmission
16 facilities from the Universal Substation to the Plum Substation in Allegheny County. The
17 Company proposes to construct a new 138 kilovolt ("kV") from the Universal Substation
18 to the Plum Substation. This new line would provide much needed capacity to the Plum
19 substation. Also as part of the Project, a short distance of line entering the Plum
20 substation would be relocated in the existing Right-Of-Way to accommodate the new
21 line.

22

1 **Q. Does any portion of the Project's proposed route cross over the Parkway Associates,**
2 **Inc. property?**

3 A. Yes. The 138 kV transmission lines' route would run 55 feet on the property of Parkway
4 Associates, Inc. The Project's proposed crossing over the Parkway Associates, Inc.
5 property is illustrated in Duquesne Light Exhibit No. MH-3 (Parkway), discussed more
6 fully below. The Company has attempted to purchase a right-of-way and easement over
7 the Parkway Associates, Inc. property to accommodate the Project, but has been unable to
8 reach any agreement with the property owner to date.

9

10 **Q. Have you, and/or the right-of-way agents working under your supervision, been to**
11 **the Parkway Associates, Inc. property?**

12 A. Yes, both my survey crew and the contracted right-of-way agent have visited the
13 property.

14

15 **Q. Please describe the property.**

16 A. The property is located in Penn Hills Township, is Zoned – Commercial and is not
17 developed. The property is wooded with underbrush. The line travels in an easterly
18 direction.

19

20 **Q. Are there any dwellings on the property?**

21 A. No.

22

1 **Q. Does the Company's proposed right-of-way and easement of the Parkway**
2 **Associates, Inc. property contain any burial grounds or places of worship?**

3 A. No.

4

5 **Q. Please explain Duquesne Light Exhibit No. MH-1 (Parkway).**

6 A. Duquesne Light Exhibit No. MH-1 (Parkway) is a copy of the Map of the proposed
7 Project.

8

9 **Q. Please explain Duquesne Light Exhibit No. MH-2 (Parkway).**

10 A. Duquesne Light Exhibit No. MH-2 (Parkway) is a copy of the deed for the Parkway
11 Associates, Inc. property, which is record in Allegheny County.

12

13 **Q. Please explain Duquesne Light Exhibit No. MH-3 (Parkway).**

14 A. Duquesne Light Exhibit No. MH-3 (Parkway) is a copy of the Plan showing the Parkway
15 Associates, Inc. property, including the portion over which the Company seeks a right-of-
16 way and easement.

17

18 **Q. Please explain Duquesne Light Exhibit No. MH-4 (Parkway).**

19 A. Duquesne Light Exhibit No. MH-4 (Parkway) is a description of the easement over the
20 Parkway property, which is depicted in Exhibit No. MH-3 (Parkway).

21

22 **Q. Please explain Duquesne Light Exhibit No. MH-5 (Parkway).**

1 A. Duquesne Light Exhibit No. MH-5 (Parkway) is a copy of the resolution of the Board of
2 Directors of Duquesne Light Company authorizing the acquisition of a right-of-way and
3 easement over the portion of the Parkway Associates, Inc. property depicted in Duquesne
4 Light Exhibit No. MH-3 (Parkway) and described in Exhibit No. MH-4 (Parkway). That
5 resolution remains in effect.

6

7 **Q. In your opinion, is the service to be furnished through the condemnation of this**
8 **property necessary?**

9 A. Yes. The service the Company shall provide through the Project is necessary or proper
10 for the service, accommodation, convenience, or safety of the public for the reasons set
11 forth in my testimony, in this Condemnation Application, and in the Siting Application.

12

13 **Q. Does this conclude your Direct Testimony at this time?**

14 A. Yes.

EASEMENT DESCRIPTION

All that certain strip of land 100 feet in width, lying 50 feet on either side of the following described line situate in Penn Hills Township, Allegheny County and the Commonwealth of Pennsylvania, being more particularly described as follows:

Commencing at the intersection of the west property line of John and Susan Sciarretti as recorded in Deed Book 7111, Page 374 and the north line of SRI Venkateswara Temple as recorded in Deed Book 10667, 579 both in said Allegheny County Department of Real Estate; thence North 04°07'00" West, a distance of 144.3 feet to the Point of Beginning; thence South 89°07'08" West, a distance of 54.3 feet more or less to an intersection with the east line of Highland Aqua Club, Incorporated as recorded in Deed Book 4285, Page 465 of said Public Records of Allegheny County and the terminus of the centerline easement.

The sidelines of said easement to be lengthened or shortened to terminate along aforementioned on the east by the westerly property line of John and Susan Sciarretti, on the west by the easterly property line Highland Aqua Club, Incorporated.

The sidelines of said easement are extended or shortened to form a continuous 100 foot strip of land. The easement shall also contain rights on the entirety of the subject parcel as shall be necessary to permit Duquesne Light Company ingress and egress to the easement and right of way and appropriate protections of the electrical infrastructure within or adjacent to the easement and right of way. The easement will be subject to easements, restrictions, reservations, covenants, and rights-of-way of record.
