**DECEMBER 31, 2017 and 2016**

**WITH**

**INDEPENDENT AUDITOR'S REPORT**

## **CONTENTS**

Independent Auditor's Report .....	1
Balance Sheets .....	2
Statements of Income and Members' Equity .....	3
Statements of Cash Flows.....	4
Notes to Financial Statements .....	5

## INDEPENDENT AUDITOR'S REPORT

To the Members  
Clearwater Enterprises, L.L.C.

### Report on the Financial Statements

We have audited the accompanying financial statements of Clearwater Enterprises, L.L.C. which comprise the balance sheets as of December 31, 2017 and 2016, and the related statements of income and members' equity, and cash flows for the years then ended and the related notes to the financial statements.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a reasonable basis for our audit opinion.

### Opinion

In our opinion the financial statements referred to above present fairly, in all material respects, the financial position of Clearwater Enterprises, L.L.C. as of December 31, 2017 and 2016, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

**CLEARWATER ENTERPRISES, L.L.C.**

**NOTES TO FINANCIAL STATEMENTS**

**December 31, 2017 and 2016**

**Note 1 – Summary of Significant Accounting Policies**

Nature of operations

Clearwater Enterprises, L.L.C. (the Company) is a limited liability company (LLC) that is engaged in natural gas retail sales, marketing and investments. In addition to providing natural gas sales services to end-users and consumer customers, the Company purchases natural gas from numerous natural gas producers. The Company also provides risk management pricing services to its customers and to producers. An LLC limits its members from liability to creditors to the amount of capital contributed to the LLC.

Accounting estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts in the financial statements. Actual results could differ from those estimates.

Accounts receivable

Accounts receivable are due from natural gas customers and are carried at original invoice amount less an estimate for doubtful accounts based on a periodic review of all outstanding amounts. Accounts that are outstanding longer than the contractual payment terms are considered past due. Accounts receivable balances are considered to be fully collectible. Accordingly, no provision has been made for an allowance for doubtful accounts.

Investments

The Company has investments in equity method investees which are those for which the Company has the ability to exercise significant influence but does not control and is not the primary beneficiary. Significant influence typically exists if the Company has a 20% to 50% ownership interest in the venture unless persuasive evidence to the contrary exists. The Company records its proportionate share of the net income or losses of equity method investees and a corresponding increase or decrease to the investment balances. Cash payments to equity method investees such as additional investments, loans and advances and expenses incurred on behalf of investees, as well as payments from equity method investees such as dividends, distributions and repayments of loans and advances are recorded as adjustments to investment balances.

Equity method investments are reviewed for impairment on an annual basis and are written down to fair value if there is evidence of a loss in value which is other than temporary. The Company may estimate the fair value of its equity method investments by considering recent investee equity transactions, discounted cash flow analysis, recent operating results, comparable public company operating cash flow multiples and in certain situations, balance sheet liquidation values. If the fair value of the investment has dropped below the carrying amount, management considers several factors when determining whether an other-than-temporary decline has occurred, such as: the length of the time and the extent to which the estimated fair value or market value has been below the carrying value, the financial condition

and the near-term prospects of the investee, the intent and ability of the Company to retain its investment in the investee for a period of time sufficient to allow for any anticipated recovery in market value and general market conditions. The estimation of fair value and whether other than temporary impairment has occurred requires the application of significant judgment and future results may vary from current assumptions.

#### Properties and equipment

The Company leases an office building from a commonly controlled company, and guarantees the lessor's mortgage debt. At December 31, 2017 and 2016, the lessor's mortgage debt balance was \$1,293,913 and \$1,389,734, respectively. This arrangement meets the variable interest entity criteria to consolidate the lessor company under accounting principles generally accepted in the United States of America. The Company has previously adopted Accounting Standards Update 2014-07, *Applying Variable Interest Entities Guidance to Common Control Leasing Arrangements*. Accordingly, the financial statements of the lessor company have been excluded from the financial statements. The building is leased under a capital lease, which was recorded at the lower of the net present value of the minimum lease payments or the fair value of the building at the inception of the lease. Amortization of the capital lease asset is computed using the straight-line method over the shorter of the estimated useful life of the asset or the period of the related lease (15 years). See Note 4.

Depreciation of furniture and fixtures is computed using the straight-line method over estimated useful lives of five or seven years.

#### Purchases and sales of natural gas

The Company purchases natural gas from producers and invoices customers in accordance with contractual agreements based on delivered prices. Statements are received from producers in the month subsequent to the production month. Purchase costs not invoiced are accrued and reflected as accrued liabilities. Purchases of natural gas from a commonly controlled company were \$921,317 and \$3,469,938 in 2017 and 2016, respectively. Customers are invoiced on approximately the 15<sup>th</sup> of each month for the prior month's sales. Amounts for the current month activity are recognized as accounts receivable - unbilled until invoiced. Revenue from the sale of natural gas is recognized when title passes. Natural gas sales and cost of natural gas sales include risk management pricing transactions for customers and producers. Natural gas sales to a commonly controlled company were \$892,242 and \$1,397,221 in 2017 and 2016, respectively.

#### Income tax status

As an LLC, taxable income or loss is allocated to members in accordance with their respective percentage ownership. Therefore, no provision or liability for income taxes has been included in the financial statements.

#### Recently issued accounting standard

In May 2014, the Financial Accounting Standards Board issued Accounting Standards Update 2014-09, *Revenue from Contracts with Customers (Topic 606)* (the ASU). The ASU provides guidance concerning the recognition and measurement of revenue from contracts with customers. Its objective is to increase the usefulness of information in the financial statements regarding the nature, timing and uncertainty of revenue. The ASU is effective for the Company in 2019. The ASU permits the use of either the retrospective or cumulative effect transition method. The Company has not yet evaluated the impact the ASU will have on its financial statements and related disclosures, including the selection of a transition method.

Total equity	<u>\$ 4,124,064</u>	<u>\$ 3,176,444</u>

## **Note 3 – Credit Facilities**

The Company has a credit agreement with a bank expiring on May 1, 2018, which provides for (1) borrowings up to \$10,000,000, subject to a borrowing base redetermined each month, and (2) letters of credit up to \$5,000,000. The borrowing base was \$4,356,356 at December 31, 2017. Borrowings bear

interest at the greater of prime plus 0.25% or 4.5% (effective rate of 4.75% at December 31, 2017). Borrowings are required to be used solely for working capital purposes in the natural gas marketing business. Borrowings outstanding at December 31, 2017, were \$500,000. There were no borrowings outstanding at December 31, 2016. At December 31, 2017, the Company had a total of \$2,120,000 outstanding in letters of credit with the bank. These letters expire at different dates in 2018, and are being maintained as security for natural gas purchases.

The Company has a credit agreement with a bank expiring on May 1, 2018, which provides for letters of credit up to \$12,000,000. Borrowings bear interest at the greater of a specified prime rate plus 1% or 6%. There were no borrowings outstanding at December 31, 2017 or 2016. As of December 31, 2017, the Company had a total of \$10,000,000 outstanding in letters of credit with the bank. These letters expire at different dates in 2018, and are being maintained as security for natural gas purchases.

Borrowings under the above lines of credit are collateralized by substantially all assets of the Company and a guarantee by a member of the Company.

#### **Note 4 – Commitments**

##### Capital lease

A capital lease with a commonly controlled company expires on January 31, 2026, but provides for an automatic one-year renewal unless either party notifies the other in writing at least 60 days prior to the end of the lease term.

Future minimum lease payments at December 31, 2017, are as follows:

2018	\$ 168,000
2019	168,000
2020	168,000
2021	168,000
2022	168,000
2023 to 2026	<u>518,000</u>
Total	1,358,000
Less amount representing interest	<u>285,118</u>
Present value of minimum lease payments	1,072,882
Less obligations under capital lease due within one year	<u>108,006</u>
Obligations under capital lease due after one year	<u>\$ 964,876</u>

##### Postemployment benefits

The Company has severance agreements with several executives which provides for severance payments equal to each executive's base salary for a period of 12 months after termination. Terminations, if any, will be accounted for on an individual basis and a liability will be recognized when probable and estimable. At December 31, 2017, the maximum amount which the Company is contingently liable for under these arrangements is \$1,675,000.

### Member redemption

In December 2016, the Company entered into an Agreement to Purchase Units which required the Company to purchase for \$3,000,000 a member's ownership interest as of December 31, 2017. In 2017, \$1,500,000 of the purchase price was paid. The remaining \$1,500,000 will be paid in 15 monthly installments of \$100,000 from January 2018 through March 2019.

### **Note 5 – Concentrations of Credit Risk**

The Company has a geographical concentration of credit risk as most of its natural gas customers are located in Oklahoma City, Oklahoma, and the surrounding area. Approximately 16% and 25% of total operating revenues was derived from natural gas sales to one customer in 2017, and two customers in 2016, respectively. Unbilled accounts receivable from those customers comprised approximately 15% and 14% of total unbilled accounts receivable at December 31, 2017 and 2016, respectively.

## Natural Gas Transportation Services

Oklahoma Natural Gas commercial and industrial customers who meet minimum usage threshold requirements are eligible to purchase their natural gas commodity from sources other than Oklahoma Natural Gas, while continuing to receive the same reliable distribution and utility service. Purchasing your commodity from a natural gas supplier may assist your company in a variety of ways.

Oklahoma Natural Gas encourages qualified customers to review their options; however, we do not specifically endorse any supplier.

Representatives are happy to visit with you regarding any questions you may have about this process. Please contact us at 844 263-7762

To access tariffs in your area, visit our usage-based tariffs (/RateInformation-Tariffs) page.
