Re: Application of Transource Pennsylvania, LLC filed Pursuant To 15 Pa.C.S. §1511(c) for a Finding and Determination that the Service to be Furnished by the Applicant through its Proposed Exercise of the Power of Eminent Domain to Acquire a Certain Portion of the Lands of Summit Partners, LLC in Washington Township, Franklin County, Pennsylvania for the Siting and Construction of the 230 kV Transmission Line Associated with the Independence Energy Connection-West Project is Necessary or Proper for the Service, Accommodation, Convenience or Safety of the Public
Docket No. A-2018-

Dear Secretary Chiavetta:

Enclosed for filing is the Application of Transource Pennsylvania, LLC in the above-referenced proceeding. Also enclosed is a check in the amount of \$350 for payment of the filing fee. Copies will be provided as indicated on the Certificate of Service.

Respectfully submitted,

Anthony D. Kanagy

APPLICATION OF TRANSOURCE PENNSYLVANIA, LLC

TO THE PENNSYLVANIA PUBLIC UTILITY COMMISSION:

Transource Pennsylvania, LLC (“Transource PA”) herein files this Application, pursuant to 15 Pa.C.S. §1511(c), for a finding and determination by the Pennsylvania Public Utility Commission (“Commission”) that the service to be furnished through its proposed exercise of the power of eminent domain to acquire a right-of-way and easement over a certain portion of the lands of Summit Partners, LLC in Washington Township, Franklin County, Pennsylvania for the siting and construction of the 230 kV transmission lines associated with the proposed Independence Energy Connection-West Project (“IEC-West Project”) is necessary or proper for the service, accommodation, convenience, or safety of the public. In support of this Application, Transource PA states as follows:

Transource PA's attorneys are authorized to receive all notices and communications regarding this Application.

3. Transource PA is a limited liability company organized and existing under the laws of Delaware. Transource PA is a wholly-owned direct subsidiary of Transource Energy, LLC ("Transource Energy").

4. Transource PA was formed to construct, own, operate, and maintain electric transmission facilities and equipment within the Commonwealth of Pennsylvania.

5. By order issued January 23, 2018, the Commission authorized Transource PA to begin to furnish and supply electric transmission service as a Pennsylvania public utility within two corridors to be located in Franklin and York Counties, Pennsylvania. *See Application of Transource Pennsylvania, LLC for All of the Necessary Authority, Approvals, and Certificates of*

Public Convenience (1) to Begin to Furnish and Supply Electric Transmission Service in Franklin and York Counties, Pennsylvania; (2) for Certain Affiliated Interest Agreements; and (3) for any Other Approvals Necessary to Complete the Contemplated Transactions, Docket No. A-2017-2587821 (Order entered January 23, 2018).

6. As such, Transource PA is a Pennsylvania public utility and has the power of eminent domain pursuant to the Pennsylvania Business Corporation Law of 1988, P.L. 1444, No. 177, *as amended*, 15 Pa.C.S. §§ 1101, *et seq.* Transource PA submits this Application pursuant 15 Pa.C.S. § 1511.

7. On December 27, 2017, Transource PA filed the “Application of Transource Pennsylvania, LLC filed Pursuant to 52 Pa. Code Chapter 57, Subchapter G, for Approval of the Siting and Construction of the 230 kV Transmission Line Associated with the Independence Energy Connection-West Project in Portions of Franklin County, Pennsylvania” (“IEC-West Siting Application”), which was docketed at Docket No. A-2017-2640200. Therein, Transource PA is requesting Commission approval of the siting and construction of the Pennsylvania portion of the IEC-West Project in Franklin County, Pennsylvania.¹

8. With the IEC-West Siting Application, Transource PA filed Attachments 1-13, which provide additional detailed information regarding the IEC-West Project. Also accompanying the IEC-West Siting Application are Transource PA Statement Nos. 1-6, which further explain the IEC Project.

9. Upon Commission approval, Transource PA proposes to construct the Independence Energy Connection Project (“IEC Project”) to alleviate transmission congestion

¹ Also on December 27, 2017, Transource filed a related Application pursuant to 52 Pa. Code Chapter 57, Subchapter G, for Approval of the Siting and Construction of the 230 kV Transmission Line Associated with the Independence Energy Connection – East Project in Portions of York County, Pennsylvania at Docket No. A-2017-2640195 (“IEC-East Siting Application”).

constraints in Pennsylvania, Maryland, West Virginia, and Virginia as identified by PJM Interconnection, L.L.C. (“PJM”). The IEC Project approved by PJM involves, among other things, the construction of two new overhead double-circuit 230 kV interstate transmission lines: (1) the Rice-Ringgold 230 kV Transmission Line or the Independence Energy Connection-West Project (“IEC-West Project”); and (2) the Furnace Run-Conastone 230 kV Transmission Line or the Independence Energy Connection-East Project (“IEC-East Project”).

10. The IEC-West Project involves the siting and construction of the new Rice-Ringgold 230 kV Transmission Line that will extend approximately 28.8 miles to connect the existing Ringgold Substation located near Smithsburg, Washington County, Maryland and the new Rice Substation to be located in Franklin County, Pennsylvania. Approximately 24.4 miles of the IEC West Project will be located in Pennsylvania and approximately 4.4 miles will be located in Maryland.

11. A certain portion of the route selected for the IEC-West Project will traverse a portion of the land owned by Summit Partners, LLC in Washington Township, Franklin County, Pennsylvania. By this Application, Transource PA is requesting a finding and determination that the service to be furnished through its proposed exercise of the power of eminent domain to acquire a right-of-way and easement over a certain portion of the Summit Partners, LLC property for the construction of the transmission lines associated with the IEC-West Project is necessary or proper for the service, accommodation, convenience, or safety of the public.

12. A complete copy of the IEC-West Siting Application, together with the supporting Attachments and Testimony, is being served on Summit Partners, LLC. The IEC-West Siting Application and supporting Attachments and Testimonies are incorporated herein by reference.

13. A Prehearing Conference was held on March 13, 2018, at which time the IEC-West Siting Application and the IEC-East Siting Application were consolidated. At the Prehearing Conference, counsel for Transource advised that the Company would be filing necessary Condemnation Applications related to the Siting Applications by May 15, 2018.

14. Public input hearings for the IEC – West Project are scheduled for May 22 and 23, 2018. Additionally, an evidentiary hearing for both Siting Applications is scheduled for December 4-7 and 10-12, 2018.

II. NEED FOR THE PROJECT

15. PJM is a FERC-approved Regional Transmission Organization charged with ensuring the reliable and efficient operation of the electric transmission system under its functional control, and coordinating the transmission of electricity in all or parts of thirteen states, including Pennsylvania, and the District of Columbia.

16. In order to ensure reliable transmission service, PJM prepares an annual Regional Transmission Expansion Plan (“RTEP”). In addition to the reliability analysis, PJM’s RTEP includes a Market Efficiency Analysis to identify congestion on electric transmission facilities that has economic or wholesale market effects, as well as potential improvements to electric transmission economic efficiencies.

17. In October 2014, PJM opened a Long Term Proposal Window (“2014/15 RTEP Long Term Proposal Window”) to solicit proposals to address, among other things, transmission congestion constraints in Pennsylvania, Maryland, Virginia, and West Virginia. In response, Transource Energy, the parent of Transource PA, submitted “Project 9A.” The IEC Project is a major component of Project 9A.

18. After extensive evaluation and review with stakeholders, PJM selected Project 9A to address the needs identified in PJM's 2014/15 RTEP Long Term Proposal Window because it provided the highest benefit-to-cost ratio, the most total congestion savings, and the most production cost savings. On August 2, 2016, the PJM Board approved Project 9A as Baseline Upgrade Numbers b2743 and b2752, which includes the IEC Project.

19. On November 2, 2016, PJM and Transource Energy executed a Designated Entity Agreement. FERC approved the Designated Entity Agreement on January 12, 2017, at Docket No. ER17-349-000. Pursuant to Schedule E of the FERC-approved Designated Entity Agreement, Transource PA is responsible for the construction, ownership, maintenance, and operation of the Pennsylvania portion of the IEC Project. Under the same agreement, Transource PA's Maryland affiliate, Transource Maryland, LLC ("Transource MD"), is responsible for the construction, ownership, maintenance, and operation of the Maryland portion of the IEC Project.

20. Pursuant to Schedule 6 of PJM's Amended and Restated Operating Agreement and as stated in the Designated Entity Agreement, Transource PA and Transource MD are required to complete the IEC Project by June 1, 2020.

21. Detailed descriptions of the process used by PJM to select and approve market efficiency projects, the need for the proposed IEC Project as identified by PJM, and the obligation of Transource PA and Transource MD to complete the IEC Project are provided in Attachment 2 to the IEC-West Siting Application and in the direct testimonies of Mr. Ali and Mr. McGlynn accompanying the IEC-West Siting Application, Transource PA Statement Nos. 2 and 3.

III. DESCRIPTION OF THE PROJECT

22. The IEC Project as approved by PJM involves: (i) construction of two new substations in Pennsylvania, namely the Rice Substation and Furnace Run Substation, and (ii) construction of the Pennsylvania portion of two new overhead double-circuit 230 kV interstate transmission lines, namely the Rice-Ringgold 230 kV Transmission Line (the IEC-West Project) and the Furnace Run-Conastone 230 kV Transmission Line (the IEC-East Project), and associated structures, equipment, and other facilities necessary to operate the transmission lines.

23. Upon receipt of all necessary approvals, the new Rice-Ringgold 230 kV Transmission Line will be sited to extend approximately 28.8 miles, connecting the existing Ringgold Substation located near Smithsburg, Washington County, Maryland, and the new Rice Substation to be located in Franklin County, Pennsylvania. This transmission line project is referred to as the IEC-West Project and is the subject of this Application.

24. Transource PA conducted an extensive, multi-faceted Siting Study to determine the overall best and most suitable route for a new 230 kV transmission line to connect the existing Ringgold Substation located near Smithsburg, Washington County, Maryland to the new Rice Substation to be located in Franklin County, Pennsylvania. The proposed route for the IEC-West Project was selected based upon a detailed analysis and balance of impacts on the human/built environment, environmental impacts, and engineering and constructability considerations. Based on these evaluation processes, the siting team chose Alternative Route C for transmission line associated with the IEC-West Project.

25. The Pennsylvania portion of the IEC-West Project will extend approximately 24.4 miles from the new Rice Substation to the Pennsylvania-Maryland border, and the Maryland portion of the IEC-West Project will extend approximately 4.4 miles from the Pennsylvania-Maryland border to the existing Ringgold Substation.

26. A map of the proposed IEC-West Project is provided in Attachment 3 to the IEC-West Siting Application.

27. A detailed explanation of the siting analysis and selection of the proposed route for the IEC-West Project is provided in Attachment 3 to the IEC-West Siting Application and explained in the direct testimony of Mr. Barry A. Baker accompanying the IEC-West Siting Application, Transource PA Statement No. 4.

28. The Rice-Ringgold 230 kV Transmission Line associated with the IEC-West Project will be a 230 kV double-circuit transmission line. The Pennsylvania portion of the new IEC-West Project will largely consist of tubular steel monopole and multi-pole structures but steel lattice structures may be used in certain areas to better accommodate topographical, construction, or land use constraints. An engineering description of Rice-Ringgold 230 kV Transmission Line is provided in Attachment 4 to the IEC-West Siting Application.

29. Subject to the Commission's approval, construction of the IEC-West Project is scheduled to begin as soon as practicable following Commission approval to meet an in-service date of June 1, 2020.

IV. PROPERTY FOR WHICH EMINENT DOMAIN APPROVAL IS SOUGHT

30. The service to be furnished by Transource PA through the proposed IEC-West Project is necessary or proper for the service, accommodation, convenience, or safety of the public for the reasons set forth in the IEC-West Siting Application and supporting Attachments and Testimonies that are incorporated herein by reference.

31. A certain portion of the route selected for the IEC-West Project crosses a tract of land located at Buchanan Trail East, Waynesboro, Franklin County, Pennsylvania 17268.

32. A deed for the property is recorded at the Franklin County Recorder of Deeds Office, Franklin County, Pennsylvania at Deed Book Vol. 3502, Page 73 and a copy of said recorded deed is attached hereto as Attachment A.

33. The name and mailing address of the owner of record of said tract of land is Summit Partners, LLC, 100 Colonial Way, West Chester, Pennsylvania 19382.

34. Transource PA desires to acquire a right-of-way and easement over the aforesaid land for the construction, operation, and maintenance of a segment of the 230 kV transmission line associated with the IEC-East Project to transmit electric energy for light, heat, and power. See, direct testimony of Mr. Thomas Schaffer, IEC-West Siting Application, Transource PA Statement No. 6 regarding an explanation of the acquisition of right-of-ways and easements.

35. The right-of-way for the IEC-West Project will be approximately 130 feet but may vary in certain areas in order to accommodate environmental, engineering, and constructability issues, as well as ensure compliance with the National Electrical Safety Code (“NESC”) clearances.

36. The property sought to be acquired in this Application does not include property used as a burying ground, place of public worship, a dwelling house, or any part of the reasonable curtilage appurtenant thereto.

37. A map depicting the proposed right-of-way across the Summit Partners, LLC property is attached hereto as Attachment B.

38. Transource PA currently is attempting to voluntarily negotiate and obtain a right-of-way and easement over a portion of said tract of land for the purposes described above but, to date, has been unable to reach any agreement with the property owner. Accordingly, Transource PA herein files this Application for a finding and determination, pursuant to 15 Pa.C.S. §

1511(c), that the service to be furnished through Transource PA's proposed exercise of the power of eminent domain for the IEC-West Project is necessary or proper for the service, accommodation, convenience, or safety of the public.

39. Transource PA remains willing to negotiate a reasonable and mutually acceptable right-of-way agreement with Summit Partners, LLC and, thereby, avoid the need to condemn a right-of-way across the property. However, given the construction schedule and in-service date for the proposed IEC-West Project, it is necessary for Transource PA to seek Commission approval to exercise the power of eminent domain in order to ensure that the IEC-West Project is constructed and operational by the in-service date. In the event that Summit Partners, LLC and Transource PA reach an agreement for the easement and right-of-way needed, Transource PA will withdraw the eminent domain application.

V. CONSOLIDATION OF RELATED PROCEEDINGS

40. On December 27, 2017, Transource PA filed the IEC-West Siting Application, which was docketed with the Commission at Docket No. A-2017-2640200. Therein, Transource PA is requesting approval to site and construct the 230 kV transmission line associated with the IEC-West Project, including the portion of the proposed transmission line that is the subject of this Application. Issues relating to the necessity for IEC-West Project are interrelated with this Application.

41. In accordance with the requirements of 52 Pa. Code §57.75(i)(2), Transource PA is serving a complete copy of the IEC-West Siting Application, together with the accompanying Attachments and Testimony, upon Summit Partners, LLC, who is/are the record owner(s) of the property that Transource PA seeks to acquire by the exercise of the power of eminent domain.

42. Also contemporaneously herewith, Transource PA also is separately filing 132 other Condemnation Applications, pursuant to 15 Pa.C.S. § 1511(c), for findings and determinations that the service to be furnished through its proposed exercise of the power of eminent domain to acquire rights-of-way and easements over certain tracts of land for the proposed IEC-West Project is necessary or proper for the service, accommodation, convenience, or safety of the public. Issues relating to the need for these condemnations are interrelated with this Application.

43. Pursuant to 52 Pa. Code § 57.75(i)(1), Transource PA requests that these related proceedings be consolidated together with the IEC-West Siting Application at Docket No. A-2017-2640200 and the IEC-East Siting Application at Docket No. A-2017-2640195 for purposes of hearings, if necessary, and decision.²

VI. CONCLUSION

WHEREFORE, Transource Pennsylvania, LLC respectfully requests that the Pennsylvania Public Utility Commission: (1) consolidate this Application for approval of the exercise of the power of eminent domain with the Independence Energy Connection-West and East Project Siting Application at Docket Nos. A-2017-2640200 and A-2017-2640195; (2) consolidate this Application for approval of the exercise of the power of eminent domain with the 132 other Condemnation Applications contemporaneously filed herewith; and (3) find and determine that the service to be furnished by Transource Pennsylvania, LLC through the proposed exercise of the power of eminent domain, as set forth above, is reasonably necessary or proper for the service, accommodation, convenience, or safety of the public.

² Additionally, the March 28, 2018 Procedural Order issued in this proceeding indicates that any future filed condemnation applications related to the Siting Applications will be consolidated with the Siting Applications pursuant to 52 Pa. Code § 57.75

THIS DEED

MADE the 14th day of June, in the year two thousand seven (2007)

BETWEEN WILLIAM L. GSELL, of 4439 Iron Bridge Road, Waynesboro, PA 17268
..... GRANTOR

AND SUMMIT PARTNERS, LLC, a Pennsylvania limited liability company, having
an address of 100 Colonial Way, West Chester, PA 19382 GRANTEE

WITNESSETH, that in consideration of other good and valuable considerations and the sum of One Million Two Hundred Thousand Dollars (\$1,200,000.00), in hand paid, the receipt whereof is hereby acknowledged, the said Grantor does hereby grant and convey, in fee simple, to the said Grantee

ALL the following described real estate lying and being situate in Washington Township, Franklin County, Pennsylvania, bounded and described as follows:

BEGINNING at a set spike in the northerly right of way line of State Route 16 on the hereinafter referenced preliminary plat of a subdivision of land; thence with lands now or formerly of Perry Hull South 11 degrees 43 minutes 09 seconds West 340.53 feet to an existing iron pin; thence with same South 09 degrees 48 minutes 00 seconds West 454.74 feet to an existing iron pin; thence with lands now or formerly of Jane Zaiger North 76 degrees 39 minutes 34 seconds West 1084.18 feet to an existing stone; thence with same North 85 degrees 36 minutes 08 seconds West 284.18 feet to an existing stone; thence with same North 89 degrees 41 minutes 02 seconds West 119.41 feet to an existing iron pin; thence with lands now or formerly of Pierce Hardy LTD Partnership North 01 degree 21 minutes 05 seconds East 781.78 feet to a set spike in the northerly right of way line of State Route 16; thence with said right of way on a curve to the left having a radius of 5729.65 feet and an arc length of 1137.86 feet, along a chord bearing South 78 degrees 45 minutes 43 seconds East 1136.00 feet to a set spike; thence with same South 83 degrees 40 minutes 25 seconds East 474.47 feet to a set spike in the northerly right of way line of State Route 16, the place of beginning. Containing approx. 25.844 acres and being Lot 3 on a Preliminary Plat of a Subdivision of Land for Anna, John & Roy Keller as prepared by R. Lee Royer & Associates, dated September 11, 1998 and recorded in Franklin County Plat Book 288G, Page 1545.

BEING the same real estate conveyed to William L. Gsell by deed of Anna W. Keller, et al., dated March 23, 2000 and recorded in Franklin County Record Book 1492, Page 9.

SUBJECT TO all conditions, restrictions, reservations, rights-of-way and easements of record and as may appear on the aforementioned Preliminary Plat.

Ellen C. Gsell, spouse of William L. Gsell, does not join in this deed. However, William L. Gsell and Ellen C. Gsell are not separated, are not contemplating divorce and have not filed an action in divorce in this or any other jurisdiction.
