RE: Transource Application for Transmission Docket # A-2017-2640200

Your Honors,

The Franklin County Visitors Bureau (FCVB) respectfully requests a site visit to demonstrate the impacts of Independence Energy Project-West on the heritage-cultural tourism of Franklin County. FCVB will provide a vehicle to transport you to several key sites to demonstrate landscape, historic, and recreation impacts.

Thank you for your consideration.

Sincerely,

Janet Pollard

RE: Transource Power Line Project / Franklin County

Honorable Judges:

This letter is to request a site visit of my property before making any decisions on the application submitted by Transource Pennsylvania, LLC. The physical location of my property to be affected by the power lines is 9949 Wayne Highway, Waynesboro, PA 17268.

My farm is utilized to produce crops for which I consider an investment and asset. There is already an easement running through my property and to add a second easement beside the existing one will create an excessive loss of control of my property. I have five poles now that run through a forty-acre field.

The construction and placement of these transmission structures, including how one might access and maintain the structures, will impact my operation in the following ways:

1. Create a problem in turning field machinery and maintaining efficient fieldwork patterns.
2. Allow opportunities for weed and pest encroachment.
3. Compact and damage soil.
4. Hinder/prevent aerial spraying or seeding activities by planes or helicopters.
5. Creation of safety hazards while maintaining machinery in the area.
6. Hinder future consolidation of farm fields.

Producing crops today is very expensive and involves so many delicate facets. If anyone of these delicate facets is disturbed or interrupted, it can cause crop failure. As you know, one crop failure can cause a huge lose in a farming operation. I also feel that it would decrease the value of my land.

In closing, I wish to state that I would truly appreciate your time and consideration if a site visit is possible to understand my concerns. I may be reached by calling my cell phone number, at any time.

Best Regards,

Daniel S Long

The Honorable Elizabeth H. Barnes
The Honorable Andrew M. Calvelli
Office of Administrative Law Judge
Pennsylvania Public Utility Commission

Dear Your Honors,

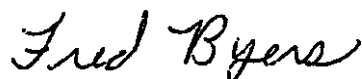

**Citizens to STOP Transource Franklin County v Transource Pennsylvania, LLC
Docket No. A-2017-2640200**

I am Fred Byers and am the owner of a farmette located at 2585 Woodstock Road, Chambersburg, PA 17257, which is one of many properties located in Franklin County, PA that is in the path of a proposed 230 kV Transource power line. I would like to request the presence of Your Honors, a court reporter, Public Utility Commission employees, Transource representative, and other parties for a site view of said property.

I am concerned for the wellbeing of the current tenants living in the farmhouse, as well as any future tenants to this property and cattle with the hazards of stray voltages. The proposed path of this power line will go through the pasture where my cattle graze and it will be close to the farmhouse which has a metal roof. This proposed power line will reduce the value of the property and will have a negative impact on future rental income. The distance from the I-81 fence to the farmhouse is 140 feet. Within that 140 feet is a West Penn power line and a 20 foot easement with the Borough of Chambersburg. The proposed 230 kV power line easement is to be 130 feet which places it 10 feet from the farmhouse and it will overlap the current 20 foot easement with the Borough of Chambersburg and West Penn Power Company.

I am available at your convenience and can be reached at 717-263-7737 or by email at fredvickie@hotmail.com.

Sincerely yours,

Fred Byers
