Docket No. C-2018-3002271

**Rebuttal to Answers and New Matters**

I am asking the P.U.C. To rule against PA Act 129 as they do have that power. I am asking for relief under the PA Constitution Article 1, Section 1 and Article 1, Section 8. These laws overrule PA Act 129.

In the defendants Answer and new matters dated June 19, 2018. In paragraph 11-15 I admit these statements to be true.

Again, the defendants are merely attacking my complaint on my methods and procedures, not addressing the root of my complaints.

In paragraph 16 the defendants are saying there is no recourse for me to take in this matter. They are just admitting in my opinion that the SMP and Act 129 are bad laws.

I maintain that through manipulation of the writings of these laws, every consumer privacy is in jeopardy and now the WPP has the ability to charge more money for less energy. Under the guise of conservation efforts. Save energy and they WPP will charge more for the peak hours usage. What does the consumer actually save with WPP doing this?

In paragraph 17, 18, 19 and 20 WPP is citing the PA Utility Code. Not a thing mentioned about my, the plaintiffs, constitutional rights, I referred to in this case. Act 129 was written to force compliance without any recourse or remedy available to the consumer other than to comply with the law or have service terminated by the company WPP. In this case. The State of Penna. Is forcing, we the consumers to buy a bad product.
