**Re: Triana Energy, LLC – Corrected Annual Pipeline Registration**

Dear Ms. Chiavetta:

I am in receipt of your July 25, 2018 letter regarding inconsistent information in Triana Energy's 2018 Pennsylvania Pipeline Operator Registration Form. The length of pipeline listed on previous registration forms showed 1.1 miles, while the current registration showed 0.9 miles. This was simply an error; the overall length of pipeline has not changed. It is still 1.1 miles. However, Triana has not operated the pipeline since September 2014, choosing instead to move our gas through another outlet. The pipeline remains in place, but no gas moves through the pipeline, and the former interconnection was terminated.

Since Triana no longer operates this pipeline, are we required to continue annual registrations? We look forward to your answer, but in the meantime, submitted herewith please find the corrected registration form and the acknowledgment statement you requested in your letter.

I, Walter C. Showen, III, hereby state that the facts above set forth are true and correct to the best of my knowledge, information and belief, and that I understand that the statements herein are made subject to the penalties of 18 Pa C.S. § 4904 (relating to unsworn falsification to authorities).

Sincerely,

A handwritten signature in blue ink that reads 'Walter C. Showen, III'.

Walter C. Showen, III  
Permitting Manager
