Docket No. C-2018-3003324

Dear PUC Secretary Chiavetta and First Energy Company,

I would like to add a small addendum to my letter of yesterday requesting an extension of time. The extension of time will also allow me to explore the possibility mentioned by Lauren Lepkoski of settling this issue by having a smart meter installed at a distance from this home.

Hopefully that can be decided within the 20 days I requested. It is, of course, dependent on First Energy's schedule and how soon they can get out here, as well as the time it will take to contact an electrician about this matter.

Thank you for your consideration.

Best regards,
Judith Hendin
