10. PROPOSED SERVICES: Describe in detail the services which the Applicant proposes to offer. Provide a brief description of the facilities the Company will use to provide services. Specify whether those facilities are Company-owned or obtained from other companies as UNEs or on a resold basis.

Tri-Co will use facilities that are company-owned to provide residential and business voice services. Tri-Co's facilities are fiber-based and include Optical Network Terminals ("ONTs") at the customers' premises. Although Tri-Co is still analyzing the technology that will be used, Tri-Co anticipates that messages will originate and terminate at the ONT in TDM or similar, non-Internet Protocol, formats.

11. SERVICE AREA: Describe the geographic service area in which the Applicant proposes to offer services. Clearly and separately delineate the service territory for each category listed in Item #9. For Competitive Local Exchange Carrier operations, you must name and serve the Incumbent Local Exchange Carriers in whose territory you request authority.

12. **MARKET: Describe the customer base to which the Applicant proposes to market its services. Clearly and separately delineate a market for each category listed in Item #9.**

Tri-Co's customer base will be the Tri-County Rural Electric Cooperative service territory, as shown on the map. This includes portions of Bradford, Tioga, Potter, McKean, Cameron, Clinton, and Lycoming Counties. Tri-County Rural Electric Cooperative has over 19,000 members that will all have access to the services. Some additional customers that are not currently electric cooperative members may request service. Also, there are a few locations within the FCC locations that are not in Tri-County Rural Electric Cooperative's territory, but just outside it. Tri-Co will build out the broadband to those customers as needed to meet FCC requirements. Tri-Co will market its services to residential, business and institutional customers in its proposed service territory.

- 16. FURTHER DEVELOPMENTS: Attach to the Application a statement of further developments, planned or contemplated, to which the present Application is preliminary or with which it forms a part, together with a reference to any related proceeding before the Commission.**

Tri-Co has been awarded FCC CAF II funds, as well as PA Redevelopment Capital Assistance Funds to assist in building out a fiber optic broadband network to serve customers along the route. Tri-Co is working with a qualified consultant on the project and is bidding out the engineering, project management and construction for the project. Per FCC requirements, the buildout must be completed in six years. Tri-Co anticipates offering service to over 19,000 customers.

Per RACP's requirements, year one will be the buildout of the "backbone," as well as the buildout to customers along a 100-mile route in the western part of the territory (building out from the Coudersport office to Tri-County members). Between the backbone (connecting all substations, metering points, district offices, etc.) and the 100-mile buildout to customers (which will be a buildout off of that backbone), that first year will equal the 500 miles per year needed to build out the entire system in six years.

Section 2.03 **Units.** The Interest in the Company shall be apportioned into 1,000 units (each a "Unit" and collectively the "Units"), each of which represents a proportionate interest in the Interest, and therefore represents a proportionate interest in the rights and interests in the Company including a proportionate interest in the capital, distributions, income, gain, deductions, losses and credits of the Company. The Company, in its discretion, may provide a certificate representing such Units to each holder.

Section 2.04 **Transfers.** A member may transfer in whole or in part such member's Interest, provided that such transfer shall be made in writing and be delivered to the Company promptly upon the effectiveness of such transfer. If the Sole Member transfers all or any part of its Interest in the Company pursuant to this Section, the transferee will be admitted to the Company upon its execution of an instrument signifying its agreement to be bound by the terms and conditions of this Agreement. **ANY SUCH TRANSFEREE ACKNOWLEDGES THAT THIS AGREEMENT, UNLESS AMENDED TO ACCOMMODATE MULTIPLE MEMBERS, CONTEMPLATES ONLY ONE MEMBER.** If a member transfers all of its Interest in the Company pursuant to this Section, such admission will be deemed effective immediately prior to the transfer, and, immediately following such admission, the transferor member will cease to be a member of the Company. The grant of a security interest in a member's Interest shall not be considered a transfer for purposes of this Section. Nothing shall restrict (a) the right of a member to grant a security interest in such member's Interest to any creditor, (b) the right of any creditor to exercise its remedies in respect of any such security interest, or (c) the right of any transferee in whole or in part of a member's interest in connection with the exercise of such remedies, upon compliance with the terms of this Section, to be admitted to the Company as a member.

Section 2.05 **Reasonable Expectations.** **ALTHOUGH THE COMPANY'S MEMBERS AND TRANSFEREES ARE (OR FROM TIME TO TIME MAY BE) OFFICERS AND/OR EMPLOYEES OF THE COMPANY, EACH MEMBER AND TRANSFEREE IS HOLDING ITS INTEREST IN THE COMPANY FOR ITS POTENTIAL AS AN EQUITY INVESTMENT AND WITHOUT ANY REASONABLE EXPECTATION UNDER THE ACT**

OR OTHERWISE THAT THE OWNERSHIP OF THE INTEREST WILL ENTITLE THE MEMBER OR TRANSFEREE TO ANY RIGHTS AS A MANAGER, OFFICER OR EMPLOYEE OF THE COMPANY THAT WOULD NOT EXIST IF THE MEMBER OR TRANSFEREE WERE NOT A MEMBER OR TRANSFEREE OF THE COMPANY. EACH MEMBER AND TRANSFEREE FURTHER AGREES THAT NO CHANGE IN THEIR EXPECTATIONS CONCERNING THEIR EMPLOYMENT BY THE COMPANY OR CONCERNING THEIR PARTICIPATION AS MANAGERS OR OFFICERS OF THE COMPANY WILL HAVE A REASONABLE BASIS UNLESS SET FORTH IN A WRITTEN AGREEMENT EXPRESSLY GRANTING THE MEMBER OR TRANSFEREE ADDITIONAL RIGHTS AS TO SUCH MATTERS. THE COMPANY HEREBY ADVISES THE MEMBERS AND TRANSFEREES THAT THE COMPANY HAS THE EXPECTATION THAT NO MEMBER OR TRANSFEREE SHALL HAVE ANY RIGHT TO EMPLOYMENT BY THE COMPANY OR TO CONTINUE TO BE AN OFFICER OF THE COMPANY BY VIRTUE OF THE MEMBER'S OR TRANSFEREE'S OWNERSHIP OF AN INTEREST, AND THE COMPANY WOULD NOT HAVE ISSUED OR CONSENTED TO THE TRANSFER OF THE INTEREST TO THE MEMBER OR TRANSFEREE IF THE MEMBER OR TRANSFEREE HAD ANY CONTRARY EXPECTATIONS.

Section 2.06 Other Business. The Sole Member and any person or entity affiliated with the Sole Member may engage in or possess an interest in other business ventures (unconnected with the Company) of every kind and description, independently or with others (including, without limitation, businesses that may compete with the Company and/or any person or entity affiliated with the Company). The Sole Member and its affiliates shall not be required to present any such business opportunity or venture to the Company or its affiliates, even if the opportunity is of the character that, if presented to such persons or entities, could be taken by them. Neither the Company nor any other person shall by virtue of this Agreement have any rights in or to such business opportunities or ventures or the income or profits derived therefrom, notwithstanding any duty otherwise existing at law or in equity.

Section 2.07 Dissociation. A Member shall not cease to be a Member as a result of the bankruptcy of such Member or as a result of any other event specified in Section 8861 of the Act. So long as a Member continues to hold a Membership Interest, such Member shall not have the ability to withdraw or resign as a Member and any such withdrawal or resignation or attempted withdrawal or resignation by a Member prior to the dissolution or winding up of the Company shall be null and void. As soon as any person who is a Member ceases to hold a Membership Interest (other than (i) a transfer for security purposes; or (ii) a charging order in effect under Section 8853 of the Act which has not been foreclosed), such person shall no longer be a Member and shall be dissociated. None of the events of dissociation set forth in Section 8861 of the Act (including those with respect to the expulsion of Members) shall apply to the Company.

ARTICLE III GOVERNANCE AND MANAGEMENT

Section 3.01 Operating Agreement. Subject only to the Act, the Sole Member and the Company intend that this Agreement (including any exhibits to this Agreement, which are hereby incorporated herein by reference), each as amended from time to time solely as provided in this Section 3.01, shall govern all aspects of the Company's business, activities and affairs as

the Company's sole operating agreement for purposes of the Act. The Sole Member and the Company intend that, during the entire term of this Agreement, the provisions of this Agreement shall supersede any provisions of the Act, as they now exist or as may be subsequently amended or restated, that are inconsistent or conflict with the provisions of this Agreement, to the maximum extent permitted by law. To the full extent permitted by the Act, and notwithstanding Section 8812(a) of the Act, the Sole Member and the Company hereby agree that: (a) this Agreement may not be amended orally or by implication and that no purported amendment to this Agreement shall be effective unless approved in writing by all of the members; and (b) this Agreement may not be supplemented or superseded by any oral or implied operating agreement.

Section 3.02 **Management.**

(a) *Manager-Managed.* The Company is and will be a "manager-managed limited liability company" within the meaning of the Act. In accordance with the Act, the managers shall have the authority to bind the Company and shall have the full, exclusive and complete power to do any and all acts necessary, convenient or incidental to or for the furtherance of the purposes described herein, including all powers, statutory or otherwise, possessed by members of a limited liability company under the laws of the State of Pennsylvania.

(i) *Managers.* The Sole Member will have the authority to appoint or elect individual persons as "managers" to be agents and representatives of the Company and to delegate to any such person all or any of its powers pursuant to this Agreement. Any number of offices or functions of those offices may be held or exercised by the same person. Notwithstanding anything to the contrary in this Agreement, no provision in this Agreement granting any authority to any manager of the Company shall limit the authority of the Sole Member to act on behalf of the Company in any capacity under law. The compensation, if any, of all managers will be fixed by the Sole Member. Any appointment, election or delegation made under the authority of this Section 3.02 may be revoked at any time by the Sole Member.

(ii) *President and Chief Financial Officer.* In the event that the Sole Member shall elect a President or a Chief Financial Officer, such persons shall, in addition to other duties prescribed by the Sole Member, be authorized to execute and deliver such agreements, instruments, certificates and document as the Sole Member shall approve by and behalf of the Company.

(iii) *Further Delegation.* Unless prohibited by a resolution adopted by the Sole Member, a manager elected or appointed by the Sole Member may delegate in writing some or all of the duties and powers of such person's office to other persons.

(iv) *Term of Office.* Each manager will hold office until a successor has been appointed by the Sole Member, or until such manager's prior death, resignation or removal from office.

(v) *Removal and Vacancies.* Any manager or agent elected or appointed by the Sole Member will hold office at the pleasure of the Sole Member

and may be removed, with or without cause, at any time by the Sole Member, subject to the terms of this Agreement. Any vacancy in an office of the Company will be filled by action of the Sole Member.

(b) *Voting.* Notwithstanding Section 8847 Subdivision (c) of the Act, in all matters on which a vote of manager is required or otherwise provided for, the vote of each manager will count equally.

(c) *Contract Rights.* Neither the election nor appointment of a person as a manager of the Company nor such manager's delegation of his duties or powers pursuant to this Section 3.02 shall, of itself, create contract rights. The Company may enter into an employment contract with a manager or agent for a period of time if, in the judgment of the Sole Member acting on behalf of the Company, the contract would be in the best interests of the Company. The fact that the contract may be for a term longer than the terms of the manager(s) or agent(s) of the Sole Member who authorized or approved the contract shall not make the contract void or voidable. **THIS AGREEMENT DOES NOT, AND IS NOT INTENDED TO, CONFER UPON ANY PERSON—INCLUDING WITHOUT LIMITATION A RECIPIENT OF AN APPOINTMENT, ELECTION OR DELEGATION PURSUANT TO THIS SECTION 3.02—ANY RIGHTS WITH RESPECT TO EMPLOYMENT BY THE COMPANY, AND NOTHING HEREIN SHOULD BE CONSTRUED TO HAVE CREATED ANY EMPLOYMENT AGREEMENT WITH ANY SUCH PERSON.**

ARTICLE IV FINANCIAL AND TAX MATTERS

Section 4.01 **Capital Contributions.**

(a) *Contributions.* The Company and the Sole Member acknowledge and agree that (i) the Sole Member has contributed capital to the Company equal to \$1,000 and (ii) the Company duly accepted such contribution(s) when made. The Sole Member is not required to make any additional capital contributions to the Company. The Sole Member may, however, elect to make additional capital contributions to the Company.

(b) *No Interest.* No interest shall be paid on the capital contributions of the Sole Member or upon any undrawn profits credited to the Sole Member's capital account.

(c) *Withdrawal.* The Sole Member shall not be entitled to withdraw any part of its capital contribution, to receive repayment of its capital contribution, or to receive any distribution from the Company except as specifically provided herein.

Section 4.02 **Allocation of Profits and Losses.** For so long as the Sole Member is the sole member of the Company, the Company shall be treated as a corporation for tax purposes. Upon there being multiple members, items of gains, profits, losses, deductions and credit shall be allocated in accordance with the number of Units owned by such member.

Section 4.03 **Distributions.** Distributions, if any, will be made in accordance with the number of Units owned by such member. Notwithstanding any provision to the contrary contained in this Agreement, the Company shall not make any distribution to the Sole Member that would violate the Act or other applicable law.

Section 4.04 **Loans to the Company.** In order to meet the financial needs of the Company, the Company may borrow, from time to time, such amounts as the members of the Company are willing to lend and the Company may require, as determined by the Sole Member. Such amounts will be repaid by the Company on demand and bear interest to be agreed upon by the lending member and the Company. The Sole Member and the Company's managers are authorized to execute and deliver to the lending members promissory notes containing terms consistent with this Agreement or acts as the Sole Member or managers of the Company.

ARTICLE V INDEMNIFICATION AND EXCULPATION; LIMITATIONS ON LIABILITY

Section 5.01 **Indemnification.** The Company shall indemnify each person and his or her respective heirs, personal representatives, successors, and assigns, who is made or threatened to be made a party to a threatened, pending, or completed civil, criminal, administrative, arbitration, or investigative proceeding, including a proceeding by or in the right of the Company, by reason of the former or present official capacity of the person against judgments, penalties, fines, including, without limitation, excise taxes assessed against the person with respect to an employee benefit plan, settlements, and reasonable expenses, including attorneys' fees and disbursements, incurred by the person in connection with the proceeding in the manner, under the circumstances and to the fullest extent permissible under the provisions of the Act, as it may from time to time be amended. In the event a person is made or threatened to be made a party to a threatened, pending or completed civil, criminal, administrative, arbitration, or investigative proceeding, including a proceeding by or in the right of the Company, by reason of the former or present official capacity of the person, the person shall be entitled, upon written request to the Company, to payment or reimbursement by the Company of reasonable expenses, including attorneys' fees and disbursements, incurred by the person in advance of the final disposition of the proceeding, in the manner, under the circumstances and to the fullest extent permissible under the Act, as it may from time to time be amended.

Section 5.02 **Exculpation.** Neither any manager of the Company or other individual acting in his or her "official capacity" (as defined in the Act) nor the Sole Member (collectively, the "Covered Persons") shall be personally liable to the Company or any member of the Company for monetary damages for breach of fiduciary duty as a member or manager of the Company; provided, however, that this Section 5.02 shall not eliminate or limit the liability of the Covered Persons to the extent provided by applicable law for (i) liability based on a breach of the duty of loyalty to the Company or its members; (ii) for a financial benefit received by the Covered Person to which the Covered Person is not entitled; (iii) liability for a breach of a duty under Section 8846 of the Act, (iv) liability for intentional infliction of harm on the Company or a member of the Company or (v) liability for an intentional violation of criminal law. If the Act is hereafter amended to authorize the further elimination or limitation of the liability of the members and/or managers of a limited liability company, then the liability of the Covered Persons of the Company, in addition to the limitation on personal liability provided herein, shall be eliminated or limited to the fullest extent permitted by the amended Act. Any repeal or modification of this Section by the members of the Company shall be prospective only, and shall not adversely affect any limitation on the personal liability of a Covered Person existing at the time of such repeal or modification. The provisions of this Section shall not be deemed to limit or preclude indemnification of a Covered Person by the Company for any liability of a Covered Person which has not been eliminated by the provisions of this Section.

Section 5.03 No Personal Liability. Except as otherwise provided by applicable law or as expressly set forth in this Agreement: (a) the debts, obligations or other liabilities of the Company, whether arising in contract, tort or otherwise (i) are solely the debts, obligations or other liabilities of the Company, and (ii) do not become the debts, obligations or other liabilities of the Sole Member or any other Covered Person solely by reason of the Sole Member or Covered Person acting as a member, manager or officer of the Company; and (b) neither the Sole Member nor any other Covered Person shall, solely by reason of being a member, manager or officer of the Company, be obligated personally for the acts or omissions of any other member, manager, officer, appointee, delegate, agent or employee of the Company. Any repeal or modification of this Section by the members of the Company shall be prospective only, and shall not adversely affect any limitation on the personal liability of a Covered Person existing at the time of such repeal or modification.

Section 5.04 Waiver of Fiduciary Duties. This Agreement is not intended to, and does not, create or impose on the Sole Member any implied duty (including, without limitation, any fiduciary duty and, for purposes of clarity, any prohibition on usurping opportunities of the Company) otherwise existing at law or in equity. To the fullest extent permitted by applicable law, the Company and any other person or entity that is a party to or is otherwise bound by this Agreement (including, without limitation, (a) the Company in its capacity as a debtor or debtor in possession in a bankruptcy case, (b) any successor to the Company in such a bankruptcy case or otherwise, including, without limitation, a trustee, a litigation trust or estate representative, and (c) any creditor or committee of creditors or equity holders seeking or obtaining standing to assert claims of the estate in a bankruptcy case) hereby expressly waives any and all duties (including, without limitation, fiduciary duties and, for purposes of clarity, any prohibition on usurping opportunities of the Company) that, absent such waiver, may be implied at law or in equity or otherwise owed to such waiving party by the Sole Member, and in doing so, recognizes, acknowledges and agrees that the duties and obligations of the Sole Member are only as expressly set forth in this Agreement.

ARTICLE VI MISCELLANEOUS

Section 6.01 No Third-Party Rights. The provisions of this Agreement are intended solely to benefit the Sole Member and its successors and assigns, including without limitation any transferee in whole or in part of the Sole Member's Interest, and, to the extent set forth herein, the Covered Persons. Accordingly, to the fullest extent permitted by applicable law, the provisions of this Agreement shall not be construed as conferring any benefit upon any creditor of the Company other than as a transferee in whole or in part of the Sole Member's Interest (and no such creditor shall be a third-party beneficiary of this Agreement), and no Covered Person shall have any duty or obligation to any creditor of the Company to make any contributions or payments to the Company.

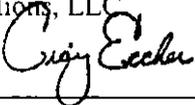

Section 6.02 Applicable Law. All questions relating to the validity, performance, enforcement, and interpretation of this Agreement and the rights of the Company's members and transferees hereunder shall be governed by the laws of the State of Pennsylvania.

Section 6.03 Notices. Whenever under the provisions of this Agreement notice is required to be given to the Company, such notice shall be in writing and is deemed to have been

given when mailed or delivered to the Sole Member or to the Company at the principal executive office of the Company. Whenever under the provisions of this Agreement notice is required to be given to a member, such notice is deemed to have been given (a) when deposited in the United States mail, posted prepaid and addressed to the member at an address designated by the member, (b) when personally delivered to the member, (c) when deposited with a nationally recognized overnight delivery service for overnight delivery, or (d) when given by facsimile communication or electronic mail. Except as otherwise expressly permitted by this Agreement, all notices provided for in this Agreement shall be in writing. Notice is considered received when given.

TARIFF FORMAT

- A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the Tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc. the Commission follows in their tariff approval process, the most current sheet number on file with the Commission is not always the Tariff page in effect.
- C. Paragraph Numbering Sequence - There are various levels of alphanumeric coding. Each level of coding is subservient to its next higher level. The following is an example of the numbering sequence suggested for use in tariffs.
 - 2.1
 - 2.1.A.
 - 2.1.A.1.(a).
 - 2.1.A.1.(a).I.
- D. Check Sheets - When a tariff filing is made with the Commission, an undated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on the check sheet if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the Commission.

SWITCHED ACCESS SERVICES**TARIFF FORMAT**

- A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the Tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc. the Commission follows in their tariff approval process, the most current sheet number on file with the Commission is not always the Tariff page in effect.
- C. Paragraph Numbering Sequence - There are various levels of alphanumeric coding. Each level of coding is subservient to its next higher level. The following is an example of the numbering sequence suggested for use in tariffs.
- 2.1
2.1.A.
2.1.A.1.(a).
2.1.A.1.(a).I.
- D. Check Sheets - When a tariff filing is made with the Commission, an undated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on the check sheet if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the Commission.

SWITCHED ACCESS SERVICES2. REGULATIONS (cont'd)2.3. OBLIGATIONS OF THE CUSTOMER (cont'd)2.3.3. JURISDICTIONAL REPORT REQUIREMENTS

- A. For Feature Group B Switched Access Service(s) for both originating and terminating usage, a projected Percentage of Interstate Usage (PIU) must be provided by the Customer to the Company. When a Customer orders Feature Group B Switched Access Service, the Customer shall state, in its order, the projected PIU factor for each Feature Group B Switched Access Service group ordered. The formula for developing PIU is as follows in Section 2.3.3(B) below.
- B. For Feature Group D Switched Access Service(s), the Company, where jurisdiction can be determined from call detail, will determine the PIU as follows:
 1. For originating access minutes, the PIU will be developed on a monthly basis, by end office trunk group, by dividing the measured interstate originating access minutes (the access minutes where the calling number is in one state and the called number is in another state) by the total originating access minutes.
 2. For terminating access minutes, the Customer has the option to provide the Company with a projected PIU factor. Customers who provide a PIU factor shall supply the Company with an interstate percentage of the Feature Group D terminating access minutes for each account to which the Customer may terminate traffic. Should the Customer not supply a terminating PIU factor, the data used by the Company to develop the PIU for originating access minutes will be used to develop the PIU for such terminating access minutes.

When a Customer orders Feature Group D Switched Access Service, the Customer shall supply a projected PIU for each end office trunk group involved to be used in the event that originating call detail is insufficient to determine the jurisdiction of the usage. For purposes of developing the PIU, the Customer shall utilize the same considerations as those set forth in Section 2.3.3(C) following.

SWITCHED ACCESS SERVICES2. REGULATIONS (cont'd)2.3. OBLIGATIONS OF THE CUSTOMER (cont'd)2.3.3. JURISDICTIONAL REPORT REQUIREMENTS (cont'd)

C. Where the call detail data is insufficient to develop jurisdiction, the Customer must provide the Company with a PIU using the following steps:

1. For purposes of developing the PIU, the Customer shall consider every call that enters the Customer's network at a point within the same state as the state where the called station is located to be intrastate and every call that enters the Customer's network at a point in a state different from the state in which the called station is located to be interstate.
2. The Company will designate the number obtained by subtracting the PIU from 100 ($100 - \text{projected interstate percentage} = \text{intrastate percentage}$) as the projected intrastate percentage of use.
3. A whole number percentages will be used by the Company to apportion the usage, monthly recurring, and/or non-recurring charges between interstate and intrastate until a revised report is received.

D. The projected interstate percentage of use will be used to determine the charges as follows:

The number of access minutes for a trunk group will be multiplied by the projected interstate percentage of use to determine the interstate access minutes. (i.e., $\text{number of access minutes} \times \text{projected interstate percentage of use} = \text{interstate access minutes}$). The number of interstate access minutes so determined will be subtracted from the total number of access minutes (i.e., $\text{number of access minutes} - \text{interstate access minutes} = \text{intrastate access minutes}$). The intrastate access minutes for the group will be billed as set forth in Section 5 following.

E. Effective on the first of January, April, July and October of each year, the Customer may update the jurisdictional reports that require a projected interstate percentage. The Customer shall forward to the Company, to be received no later than 20 calendar days after the first of each such month, a revised report showing the interstate percentage of use for the past three months ending the last day of December, March, June and September, respectively, for each service arranged for *interstate and intrastate use*. Except as set forth in Section 2.3.3(A) preceding where jurisdiction can be determined from the recorded message detail, the revised report will serve as the basis for the next three months billing and will be effective on the bill date in the following month (i.e., February, May, August, and November) for that service. No prorating or back billing will be done based on the report. If the Customer does not supply the report, the Company will assume the percentage to be the same as that provided in the last quarterly report. For those cases in which a quarterly report has never been received from the Customer, the Company will assume the percentage to be the same as that provided in the order for service as set forth in Section 2.3.3(A) preceding.

2. REGULATIONS (cont'd)

2.3. OBLIGATIONS OF THE CUSTOMER (cont'd)

2.3.3. JURISDICTIONAL REPORT REQUIREMENTS (cont'd)

- F. The Customer reported projected interstate percentage of use as set forth in Section 2.3.3(A) preceding will be used for the apportionment of any monthly rates or non-recurring charges associated with Feature Groups B or D Switched Access Service until the end of the quarter during which the service was activated. Thereafter, a projected interstate percentage for such apportionment will be developed quarterly by the Company based on the data used to develop the projected interstate percentage of use as set forth in Section 2.3.3(A) preceding. Where call detail is insufficient to make such a determination, the Customer will be requested to project a interstate percentage of use to be used by the Company for such apportionment.
- G. The Customer shall keep sufficient detail from which the percentage of interstate use can be ascertained and upon request of the Company make the records available for inspection. The Company no more than once per year will initiate such a request. The Customer shall supply the data within 30 calendar days of the Company request.
- H. Determination of Interstate Charges for Mixed Interstate and Intrastate Service

When mixed interstate and intrastate Access Service is provided, all charges (i.e., nonrecurring, monthly and/or usage), including optional features charges, will be prorated between interstate and intrastate. The percentage provided in the reports as set forth in Section 2.3.3 preceding will serve as the basis for prorating the charges. The percentage of an Access Service to be charged as intrastate is applied in the following manner:

- 1. For monthly and nonrecurring chargeable rate elements, multiply the percent intrastate use times the quantity of chargeable elements times the stated tariff rate per element.
- 2. For usage sensitive (i.e., access minutes and calls) chargeable rate elements, multiply the percent intrastate use times actual use (i.e., measured or Company assumed average use) times the stated tariff rate.

2.3.4. IDENTIFICATION AND RATING OF VOIP-PSTN TRAFFIC

A. Scope

1. This section governs the identification and billing of VoIP-PSTN Traffic, unless the parties have agreed otherwise, pursuant to the Federal Communications Commission Report and Order in WC Docket Nos. 10-90, etc., FCC Release No. 11-161 (November 18, 2011) ("FCC November 18th Order) and the Second Order on Reconsideration in WC Docket Nos. 10-90, etc., FCC Release No. 12-47 (April 25, 2012).
2. *For purposes of this tariff section, "VoIP-PSTN Traffic" is defined, consistent with 47 C.F.R. § 51.701(b)(3), as interexchange (access) telecommunications traffic exchanged between Company and another telecommunications carrier in Time Division Multiplexing ("TDM") format that originates and/or terminates in IP format and that otherwise meets the definitions in 47 C.F.R. § 51.701(b)(1) or (b)(2). Telecommunications traffic originates and/or terminates in IP format if it originates from and/or terminates to an end-user Customer of a service that requires Internet protocol-compatible Customer premises equipment.*

B. Interstate and Intrastate Rates Apply

1. Intrastate, interexchange VoIP-PSTN Traffic identified in accordance with this tariff section that terminates to the Company will be billed at rates equal to the Company's applicable switched access rate as specified in Section 5 following.

C. Calculation and Application of Percent-VOIP-Usage Factors

1. The traffic minutes of use ("MOU") to which interstate rates will be applied under this section will be determined by the Company by calculating a Percent VoIP Usage ("PVU") factor to be applied to the total terminating and originating intrastate access MOU terminated by the Customer to the Company's end-user and originated by the Company's end-user and terminated to the Customer.

2.10. APPLICATION OF RATES

The regulations set forth in this section govern the application of rates for services contained in other sections of this tariff.

2.10.1. CHARGES BASED ON DURATION OF USE

Customer traffic to end offices will be measured (i.e., recorded or assumed) by the Company at end office switches. Originating and terminating calls will be measured (i.e., recorded or assumed) by the Company to determine the basis for computing chargeable access minutes. In the event the Customer message detail is not available because the Company lost or damaged tapes or experienced recording system outages, the Company will estimate the volume of lost Customer access minutes of use based on previously known values.

For originating calls over Feature Group B or D, usage measurement begins when the originating Feature Group B or D switch receives the first wink supervisory signal forwarded from the Customer's point of termination.

The measurement of originating call usage ends when the originating Feature Group B or D switch receives disconnect supervision from either the originating end user's end office, indicating the originating end user has disconnected, or the Customer's point of termination, whichever is recognized first by the switch.

The measurement of terminating call usage over Feature Group B or D ends when the terminating Feature Group B or D switch receives disconnect supervision from either the terminating end user's end office, indicating the terminating end user has disconnected, or the Customer's point of termination, whichever is recognized first by the switch.

Access minutes or fractions thereof are accumulated over the billing period for each end office and are then rounded up to the nearest access minute for each end office.

2.10.2. RATES BASED UPON DISTANCE

Where the charges for service are specified based upon distance, the following rules apply:

- A. Distance between two points is measured as airline distance between the wire centers of the originating and terminating telephone lines. The wire center is a set of geographic coordinates, as referenced in NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. TARIFF FCC No. 4, associated with each NPA-NXX combination (where NPA is the area code and NXX is the first three digits of a seven-digit telephone number). Except that, until the NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. TARIFF F.C.C. NO. 4 is revised to include certain Company wire centers, the airline distance should be determined utilizing the "V" (vertical) and "H" (horizontal) coordinates as set forth in THE NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. TARIFF F.C.C. No. 4.

SWITCHED ACCESS SERVICES2. REGULATIONS (cont'd)2.10. APPLICATION OF RATES (cont'd)2.10.2. RATES BASED UPON DISTANCE (cont'd)

B. The airline distance between any two-wire centers is determined as follows:

1. Obtain the "V" and "H" coordinates for each wire center from the above-referenced NECA tariff.
2. Compute the difference between the "V" coordinates of the two wire centers; and the difference between the two "H" coordinates.
3. Square each difference obtained in step (2) above.
4. Add the square of the "V" difference and the square of the "H" difference obtained in step (3).
5. Divide the sum of the squares by 10. Round to the next higher whole number if any fraction is obtained.
6. Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.
7. Formula =

$$\sqrt{\frac{(V1 - V2)^2 + (H1 - H2)^2}{10}}$$

2.10.3. MILEAGE

The mileage to be used to determine the Local Transport monthly rate is calculated on the airline distance between the end office switch where the call carried by Local Transport originates or terminates and the Customer's serving wire center. The V&H coordinates method is used to determine mileage. This method is set forth in Section 2.10.2.

The Local Transport mileage rates are shown in Section 5.1.3 in terms of mileage bands. To determine the rate to be billed, first compute the mileage. Should the calculation result in a fraction of a mile, always round up to the next whole mile before determining the mileage. Then find the mile band for the mileage measured. The amount to be billed shall be the banded Local Transport rate multiplied by the number of access minutes.

3. SERVICE AND RATE DESCRIPTIONS

3.1. ACCESS SERVICES

Switched Access Service, which is available to Customers for their use in furnishing their services to End Users, provides a two-point communications path between a Customer's premises (or a collocated interconnection location) and an End User's premises. It provides for the use of common terminating, switching and trunking facilities. Switched Access Service provides for the ability to originate calls from an End User's premises to a Customer's premises (or a collocated interconnection location), and to terminate calls from a Customer's premises (or a collocated interconnection location) to an End User's premises in the LATA where it is provided. Switched Access Service must be ordered separately for each LATA in which the Customer desires to originate or terminate calls.

Switched Access Service is provided in two service categories of standard and optional features called Feature Groups. The Company provides Feature Group B and D originating and terminating equal access. The service categories are differentiated by their technical characteristics and the manner in which an end user accesses them when originating calls.

Feature Group B (FGB) Access, which is available to all Customers, provides trunk side access to Company end office switches with an associated uniform 950-XXXX access code for the Customer's use in originating and terminating communications.

Feature Group D (FGD) Access, which is available to all Customers, provides trunk side access to Company end office switches with an associated uniform 10XXX or 101XXXX access code for the Customer's use in originating and terminating communications.

SWITCHED ACCESS SERVICES**3. SERVICE AND RATE DESCRIPTIONS (cont'd)****3.1. ACCESS SERVICES (cont'd)****3.1.1. ACCESS SERVICE ORDER****A. Ordering Access Service Types**

An Access Service Order is used by the Company to provide a Customer Access Service. When placing an order for Access Service, the Customer shall provide, at a minimum, the following information:

1. For FGB Switched Access Service, the Customer shall specify the number of trunks and the end office when direct routing to the end office is desired and the Local Transport and Local Switching options desired. When ordering FGB trunks to an end office, the Customer must also provide the Company an estimate of the amount of traffic to be generated to and/or from each end office subtending an access tandem operated by another Exchange Telephone Company to assist the Company in the effort to project further facility requirements. In addition, the Customer shall also specify for terminating only access, whether the trunks are to be arranged in trunk group arrangements or provided as single trunks.
2. For FGD Switched Access Service, the Customer shall specify the number of busy hour minutes of capacity (BHMC) from the Customer's premises to the end office by Feature Group and by traffic type. This information is used to determine the number of transmission paths. The Customer shall also specify the Local Transport and Local Switching options. Customers may, at their option, order FGD by specifying the number of trunks and the end office when direct routing to the end office is desired and the Local Transport and Local Switching options desired. When ordering by trunk quantities rather than BHMC quantities to an end office, the Customer must also provide the Company an estimate of the amount of traffic it will generate to and/or from each end office subtending an access tandem operated from another Exchange Telephone Company to assist the Company in its own efforts to project further facility requirements.

In addition, for Feature Group D with the Out of Band Signaling/SS7 signaling option, the Customer shall specify the switching point codes and trunk circuit identification codes for trunks with the Out of Band Signaling/SS7 signaling option, and the STP point codes, signaling link codes and link type for each Common Channel Signaling Access (CCSA) connection ordered.

When a Customer orders FGD in trunks, the Customer is responsible to assure that sufficient access facilities have been ordered to handle its traffic.

If the Customer desires any of the optional features available with Toll Free 800 Series Data Base Service, the customer shall so specify on the order for service.
4. When a Customer orders collocation in an end office with Company provided Switched Access Service(s), the Customer must specify the collocated fiber optic facilities. The Customer must also specify the particular end officer location involved, which must be the end office in which the Switched Access Service(s) originate or terminate.

B. Access Order Modifications

The Customer may request a modification of its Access Order at any time prior to notification by the Company that service is available for the Customer's use or prior to the service date, whichever is later.

Any increase in the number of Switched Access Service lines, trunks or busy hour minutes of capacity or CCSA signaling connections will be treated as a new Access Order (for the increased amount only).

1. Service Date Change Charge

Access Order service dates for the installation of new services or rearrangements of existing services may be changed, but the new service date may not exceed the original service date by more than 30 calendar days. When, for any reason, the Customer indicates that service cannot be accepted for a period not to exceed 30 calendar days, and the Company accordingly delays the start of service, a Service Date Change Charge will apply. If the Customer requested service date is more than 30 calendar days after the original service date, the order will be canceled by the Company and reissued with the appropriate cancellation charges applied.

SWITCHED ACCESS SERVICES**3. SERVICE AND RATE DESCRIPTIONS** (cont'd)**3.1. ACCESS SERVICES** (cont'd)**3.1.1. ACCESS SERVICE ORDER** (cont'd)**E. Non-recurring Charges**

Non-recurring charges are one-time charges that apply for a specific work activity (i.e., installation or service rearrangements).

1. *Installation of Service*

Nonrecurring charges apply to each Switched Access Service installed. For Switched Services ordered on a per trunk basis, the charge is applied per trunk or out of band signaling connection. For Switched Services ordered on a busy hour minutes of capacity basis, the charge is also applied on a per trunk basis but the charge applies only when the capacity ordered requires the installation of an additional trunk(s). In addition, nonrecurring charges apply when an out of band signaling connection is installed for use with FGD.

2. *Service Rearrangements*

All changes to existing services other than changes involving administrative activities only will be treated as a discontinuance of the existing service and an installation of a new service. The non-recurring charge described in Section 3.1.1(E)(1) preceding will apply for this work activity. Moves that change the physical location of the point of termination are described below.

a. *Moves Within the Same Building*

When the move is to a new location within the same building, the charge for the move will be an amount equal to one half of the nonrecurring charge for the capacity affected. There will be no change in the minimum period requirements.

b. *Moves to a Different Building*

Moves to a different building will be treated as a discontinuance and start of service and all associated non-recurring charges will apply. New minimum period requirements will be established for the new service. The Customer will also remain responsible for satisfying all outstanding minimum period charges for the discontinued service.

The Local Transport rate category provides for transmission facilities between the Customer's premises or collocated interconnection location and the Company's end office switch(es) where the Customer's traffic is switched to originate or terminate its communications.

Except as stated in the following paragraph, Local Transport service is provided in conjunction with other Exchange Telephone Companies. Charges for Local Transport service are computed in accordance with Section 2.6.5 preceding (Ordering, Rating, and Billing of Access Services Where More Than One Exchange Telephone Company Is Involved). For purposes of determining Local Transport mileage, distance will be measured from the wire center that normally serves the Customer's premises to the end office switch(es).

3.2.1. PRESUBSCRIPTION

- A. Presubscription is an arrangement whereby an end user may select and designate to the Company an interexchange carrier (IC) to access, without an access code, for intrastate interLATA calls. This IC is referred to as the end user's Primary Interexchange Carrier (PIC). The end user may select the Company as its PIC, or may select any other IC that orders originating Feature Group D Switched Access Service at the end office that serves the end user. After the end user's initial selection of a predesignated IC, for any additional change in selection, a non-recurring charge, as set forth in Section 5.2.1 following applies.
- B. New end users who are served by end offices equipped with Feature Group D, will be asked to presubscribe to an IC at the time they place an order with the Company for Exchange Access Service. They may select either of the following options. There will be no additional charge for this initial selection
- Designate an IC as a PIC and dial 10XXX or 101XXXX to reach other ICs.
 - Designate that they do not want to be presubscribed to any IC and choose to dial 10XXX or 101XXXX for all calls to all ICs.

Subsequent to the installation of Exchange Access Service, and after the end user's initial selection of a PIC, for any additional change in selection, a nonrecurring charge as set forth in Section 5.2.1 following applies. This charge is billed to the end user, which is the subscriber to the Exchange Access Service and applies only for selection of an IC, which provides only intrastate service.

- D. The BNA information will be provided for the calling number furnished to the extent a billing name and address exists in the Company Customer Records Information System (CRIS), including non-published and non-listed numbers. If the billing name and address information for a specific calling number is confidential due to legal, national security, end user or regulatory imposed requirements, the Company will provide an indicator on the confidential records.

- E. When the Customer orders BNA Service for both interstate and intrastate messages, the projected percentage of interstate use must be provided in a whole number to the Company. The Company will designate the number obtained by subtracting the projected interstate percentage from 100 ($100 - \text{projected interstate percentage} = \text{intrastate percentage}$) as the projected intrastate percentage.

This whole number percentage will be used by the Company to apportion the rates and non-recurring charges between interstate and intrastate in those circumstances where the recorded message detail is not sufficient to permit the Company to determine the appropriate jurisdiction. This percentage will remain in effect until a revised report is received as set forth following.

Effective on the first of January, April, July and October of each year the Customer may update the jurisdictional report. The Customer shall forward to the Company, to be received no later than 20 calendar days after the first of each such month, a revised report showing the interstate percentage of use for the past three months ending the last day of December, March, June and September, respectively. Except where jurisdiction can be determined from the recorded message detail, the revised report will serve as the basis for the next three months billing and will be effective on the bill date in the following month (e.g., February, May, August and November). No prorating or back billing will be done based on the report. If the Customer does not supply the report, the Company will assume the percentages to be the same as those provided in the last quarterly report. For those cases in which a quarterly report has never been received from the Customer, the Company will assume the percentages to be the same as those provided in the order for service.

- F. The Company shall use reasonable efforts to provide accurate and complete lists. The company makes no warranties, expressed or implied, as to the accuracy or completeness of these lists.

4.4.3. RATE REGULATIONS

- A. For each order for BNA information received by the Company, a BNA order charge applies.
- B. A charge applies for each request for BNA information for a telephone number or DTN number on a manual basis. A charge applies for each message processed to supply BNA information on a mechanized basis.
- C. If the Customer requests BNA information on a mechanized basis, and the Company is able to provide magnetic tape, a charge per tape also applies.

The Company will keep a count of the requests and of the messages processed. The Company will bill the Customer in accordance with these counts whether or not the Company was able to provide BNA information for all requests and messages.

Where the recorded message detail is sufficient to determine a message is an intrastate message, the rates set forth in Section 5.3.2 following apply to each such message.

Usage for which the recorded message detail is insufficient to determine jurisdiction will be prorated by the Company between interstate and intrastate.

The percentages provided in the reports as set forth in Section 4.4.2(E) preceding will serve as the basis for prorating the charges. The intrastate charges are determined as follows: For usage sensitive (e.g., requests or messages processed) chargeable rate elements, multiply the intrastate percent times actual use time the stated tariff rate.
