Re: Vincent Malandra vs PPL Electric Utilities Corporation Docket Number C-2018-3004074

Dear Judge Haas:

I'm writing to you in response from a letter I received on October 12, 2018 from Gross McGinley. Where in as PPL has requested a "continuance". As hopeful as I can be. I am not that optimistic. The negotiations are not that far along. I respectfully request that we move forward on the October 23, hearing date. I will however agree to a thirty (30) day continuance should that lead to a in-courtroom hearing. and not a phone in conference call. The time of ninety (90) days is too long and that would delay any work on the property until next spring. Any and all outside work this season is coming to an end due to frost, and the winter season. This November I will have endured with PPL and JMF for one year. A year of having to check on construction fencing, open trenches, hazard tape, a energized cable across my yard. A year of making sure all the school kids stay safely away from this area. Should a continuance be granted I request that it be no longer than thirty (30) days.

Respectfully submitted,

Vincent Malandra
