RE: DOPCKET# F-2017-2633420

EXCEPTIONS:

Complainant would like to file the "Exceptions" for the above case number. (Per our conversation for a request for an extension from the November 1st, 2018.)

- I. RE: Complainant's documents were filed in a timely manner along with proof for complaint.
 - A. At the hearing of June 4th, 2018, per Administrative Judge Vero's request for documents to support complainant's case were to be submitted by June 19th, 2018. The PUC will submit copies of complainant's documents to PECO. Then PECO will have 10 days until June 29th, to object
 - a. Complainant did so comply with Administrative Law Judge Vero's request and complainant's documents were duly filed on time by the due date of June 19th, 2018. Per Administrative Law Judge Vero's statement in her decision the complainant's documents of support to complainant's case were received on June 18th, 2018; the day before the granted due date of June 19th, 2018. Therefore, the complainant's documents for support and evidence of proof for complainant's case were duly filed on time (as requested) and should be accepted and entered as evidence of proof for complainant.

- B. History – as per Administrative Law Judge Vero’s request re: complainant’s PECO account since 2014.
- a. From October 2015, Complainant received “Remaining Excessive Credit” amount issued to complainant’s PECO account in October 2015 in the amount of \$2,179.66. However, only \$934.25 was applied and credited to complainant’s account. The credit was applied on a monthly basis. This credit was applied and lasted from October 2015 until May 2016. Leaving an unused portion and uncredited amount of the Remaining Excessive Credit in the amount of \$1,255.71 in which was never applied to complainant’s account.
 - b. 1. Enclosed – Calculated chart – showing difference in remaining credit applied and unused remaining credit to be recovered – balance of \$1,255.71. (Exhibit One)
2. Copies of PECO’s billing statements showing October 2015 to May 2016 remaining credit issued and amounts issued for those months leaving a balance of unapplied remaining credit of a\$1,255.71. (Exhibit Two)
 - c. Exhibit One - copy of “Remaining Excessive Credit” Chart
 - d. Exhibit Two – copies of Peco’s billing statements – showing balance of unused credit

Complainant would also like to enter as an Exhibit Three

- e. Exhibit Three shows a comparison of PECO’ average winter monthly billing rates for an average (typical) family, in the amount of 700 to 1,000 kWh per month. Winter month rates 700kWh - \$104.55; 1,000kWh - \$145.73; and electric space heating system - RH-1,000kWh - \$127.61. (copies enclosed)
- f. Since complainant is disputing the high billing monthly rates being charged for over 700 kWh and over 1,000kWh from \$131.83 to \$203.94 per month; which is not justified nor a true amount of usage. Peco’s Residential Electric Rates Chart and calculation for a typical average family - rates showing 104.55 for 700kWh and \$145.73 for 1,000 kWh per winter month billing; and \$127.61 for RH electric heating. The RH heating charge calculation states: *“This service is available to single, private homes, or, in certain cases, a building that has up to five dwelling units. Service is supplied through one meter and the home must be heated by a qualified electric space heating system.”*

Docket # F-2017-2633420
Page Three

- C. Peco's Residential Service Rate R Electric Rates - This statement is being shown in comparison to the high billing charges complainant is disputing. This chart and calculations is stating that the usage of entire home or five units; would be less expensive for a five unit dwelling using one meter for an electric system for the entire home than compared to one (assuming amount of usage per Peco's field tech.) space heater for one room; or an oil base heating system.

Exhibit Three - (copy of Peco's Residential Heating and Electric charts enclosed)

- a. Complainant's household is of low usage of electricity per month. Complainant's usage is of low usage; low monthly usage, for a single household occupancy.
- D. Exhibit Four - Chart re: PECO's billing statements for the comparison of Exhibit Three

The amount of billings exceeds the amount of usage. Re: the two meters: Peco testified that the off peak meter was for the water heater. The water heater is a 35 gallon water heater and does not generate the amount of billing each month in PECO's billing. Please note there are months where the billing for the water heater is 86kWh and below. That would be more reasonable not 465kWh or over for the same amount of low usage. The high amounts of billing does not justify the amount of low usage. (Comparison chart enclosed) As well as, the General Service2 amounts which also exceeds the amount of usage. They add up to over 1,178kWh and 1,371kWh, these amounts are way too high for complainant's trying to maintain the energy efficiency with low usage.

In conclusion, complainant is seeking the balance amount of the unused remaining credit of \$1,255.71 to be applied back to account, as well, as a o balance.

Thank you.

Sincerely,

D. Anne Wilson

**ELECTRIC RATES TO CHANGE
BEGINNING APRIL 1, 2018**

Beginning with service provided April 1, 2018, changes will affect your monthly electric bill. For a residential customer using 700 kilowatt-hours (kWh) per month, the effect of these approved changes is a total increase of \$0.28 to the typical monthly bill, from \$102.65 to \$102.93, or 0.27%. The enclosed bill reflects these changes. Here are the details:

Consumer Education Plan Costs: PECO's Consumer Education Plan helps educate customers on Pennsylvania's competitive energy market. The plan includes certain costs approved by the Pennsylvania Public Utility Commission (PAPUC). The impact of these changes on the Customer Charge is:

Rate R – Residential Service, Rate RH – Residential Heating Service and CAP – Customer Assistance Program will remain \$8.45.

Rate GS – General Service is increasing by two cents to \$14.28 for single-phase service without demand measurement, \$18.19 for single-phase service with demand measurement, and \$43.53 for poly-phase service.

Rate HT – High Tension Power will increase by sixteen cents to \$299.78.

Rate PD – Primary Distribution Power will increase by sixteen cents to \$296.25.

Distribution System Improvement Charge (DSIC): The DSIC, which is shown as a separate line item on your bill, allows PECO to accelerate the modernization of the distribution system through the installation, replacement and relocation of electric equipment and facilities. The DSIC will increase from a value of 0.00% to a charge of 0.55%.

This change will result in a \$0.28 per month impact for a typical residential customer using 700 kWh per month. This change will result in an increase of \$1.01 per month for small commercial customers and a \$14.77 for large commercial customers.

JUNE 2015

CHANGES IN YOUR ELECTRIC CHARGES

Beginning with service provided September 1, 2015, changes will affect your monthly electric bill. For a residential customer using 500 kilowatt hours (kWh) per month, the effect of these approved changes is a total increase of \$1.45 to the monthly bill, from \$79.37 to \$80.82, or 1.83%. The enclosed bill reflects these changes. Here are the details:

Generation Charges: The costs to purchase electricity are passed along to customers at exactly the prices that PECO pays. The generation charges for residential customers will increase by 0.29 cents to 7.99 cents per kWh effective September 1, 2015. The charge is \$39.95 per month for a typical residential customer using 500 kWh per month.
