Re: PPL Electric Utilities Corporation
***Nunc Pro Tunc* Request for Exclusion of March 2 – March 10, 2018**
Major Outage Data for Reliability Reporting Purposes

Dear Ms. Chiavetta:

Enclosed for filing on behalf of PPL Electric Utilities Corporation (“PPL Electric”) is PPL Electric’s *Nunc Pro Tunc* Request for Exclusion of March 2 – March 10, 2018 Major Outage Data for Reliability Reporting Purposes. This request is being filed pursuant to the Commission’s Order, entered May 11, 2004, at Docket No. M-00991220.

This request for exclusion of major outage data relates to the electric service interruptions associated with storms Riley and Quinn which adversely affected PPL Electric’s service territory from March 2 through March 10, 2018. Specific impacts of this event are detailed in PPL Electric’s Storm Outage Report filed on April 12, 2018, pursuant to the Commission’s regulations at 52 Pa. Code § 67.1. The requested exclusion applies only to electric service interruptions directly related to the wind and snow during the specified time period. PPL Electric’s 2018 Quarterly Reliability Reports filed to date exclude the outage data for the Riley and Quinn storms, however, PPL Electric inadvertently neglected to file this request in advance of such exclusion. PPL Electric respectfully requests that the Commission accept this filing *Nunc Pro Tunc*.

Pursuant to 52 Pa. Code §1.11, the enclosed document is to be deemed filed on November 14, 2018, which is the date it was filed electronically using the Commission’s E-Filing System.

If you have any questions regarding the enclosed document, please contact me or Salim Salet, Director-Distribution Engineering at (610) 774-2941.

Very truly yours,

Kimberly A. Klock

(b) Number of troubled locations in each geographic area affected listed by county and local political subdivision:

See attachment 1.

(c) Reason for interruption or outage, including weather data where applicable:
Beginning March 2, a wind storm (Riley) entered the territory. At the height of impact the storm produced approximately 16 hours of 40+ MPH gusts, with peak gusts of up to 60 MPH.

On March 7, with Riley restorations still underway, a second winter storm (Quinn) impacted the service territory with 8 to 12 inches of snow and wind gusts of 25 to 30 MPH. The storm produced another 130 to 220 cases of trouble, primarily in the Lehigh and Northeast regions. The large amount of snow and wind gusts also significantly slowed ongoing restorations.
