"Justice, Justice, you
shall pursue."

Deuteronomy 16:20

The American Center for Law & Justice fights on a lot of Top Issues, including National Security and the War on Terrorism. I see the Smart Meter issue as a National Security Problem and an act of Terrorism on the American People by its own government!

And as I mentioned it before, the Agenda 21 is now Agenda 2030! They have 17 goals and 169 targets of treacherous deception that will affect every person on Earth! And just in case if you don't know, I'll tell you about the New World Order!

The NWO (New World Order) is a rich and powerful group of genetically-related individuals, including many of the world's top politicians, corporate elite and so-called "Royal" bloodlines, whose agenda is to create a communist, militaristic One World Government. Their plan is to lock this planetary-wide centralized dictatorship with a one World Currency & army, and wipe out the middle class to leave a hierarchical society with just rulers and servants, whom they want to have microchipped. The NWO agenda also includes depopulation of the Earth (through various means such as war, famine, vaccines, poisoned food & water supplies and HAARP-induced earthquakes and other environmental →

disasters along with The Smart Meter,
Smart Grid, Western Medicine, Autism,
5G Wireless Technology, etc. (5G
Wireless Technology is ultra-high microwave
frequencies ^{power} for us by approving the deployment
of the 5G wireless network. 5G uses
experimental high frequencies (without safety
testing) in the range of 28-100 GHz (and
some even in the terahertz range). It
requires the massive deployment of more
towers. This network, though invisible,
has the potential to be quite harmful,
since the sweat ducts in our skin act
as antennae and respond to 5G frequencies.
USAF considers 5G a weapon. It is being
rolled out to set up the Internet of Things!
This really is about behavior modification,
mind control and depopulation!

We need to fight Smart Meters &
the Smart Grid if we ever ~~want~~ ^{want} to fight
the 5G Technology. This is a must!
