Office of Administrative Law Judge

301 Fifth Ave., Suite 220, Platt Place

Pittsburgh, PA 15222

Greetings Honorable Judge Jeffrey A. Watson,

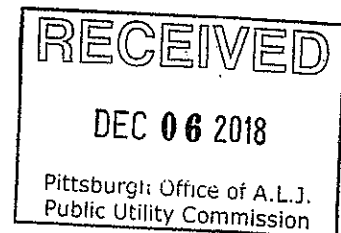

With regards to your interim order, as far as the complaint everything seems to be in order. However, what seems to be left out was the request sent by myself in June of 2018 to securely send medical information so that my family's HIIPA would not be compromised. I received no respond to the request. My exact request was, "to be able to upload to an encrypted, secure email so that my family's HIIPA would not be compromised." I am not convinced sending such medical documents through snail mail would ensure my family's HIIPA.

In summary, my request for an alternative to the smart meter is one due to health concerns and to the safety of my family.

Regards,

James Wolfgang
