

Letter of Support Docket Number: C-2018-3006117

Dear PUC:

My name is Dr Bernard Greenberg. I live at 894 Jefferson Way West Chester PA in East Goshen Township, Chester County. My home is ~ 3000 feet from the Mariner East pipelines. I am at risk of harm from these pipelines because if there is a leak or explosion I do not know what to do. Should I stay in my home or flee and if the later where. I have not been informed how I will be notified if there is a pipeline accident.

I fully support a full and complete shutdown of Mariner East 1 and 2 until the PUC has had ample opportunity to assess Sunoco's Public Awareness Program for credibility and feasibility of mitigating the risk to the public.

Sincerely, Bernard Greenberg MD
