PA PUBLIC UTILITY COMMISSION
SECRETARY'S BUREAU

BEFORE THE
PENNSYLVANIA PUBLIC UTILITY COMMISSION

Dana Brennan,

Complainant,

v.

Docket No. C-2019-3007121

PPL Electric Utilities Corporation,

Respondent,

Dana Brennan Rebuttal to Answer of
PPL Electric Utilities Corporation with additional
Information concerning our legal right to privacy and health

TO THE PENNSYLVANIA PUBLIC UTILITY COMMISSION:

Please find enclosed a notice to Mr. Phil Walnock, Program Manager, Advanced Metering for PPL Electric Utilities Corporation, a copy was also sent to Devin T. Ryan, Post & Schell, P.C. Attorney for PPL Electric Utilities Corporation. Notice of no consent to trespass, surveillance, radiation pollution and fire hazard. Notice of liability, adhesion contract. (3 pages)

REBUTTAL TO ANSWER

1. Agree
2. Semantics, PPL Electric Utilities is more commonly known as PPL as per their Website.
3. Agree
4. Denied. Dana Brennan had contacted PPL Electric Utilities Corporations customer service by phone which was located out of state in North Carolina. I spoke to a Customer service representative named Ramona. I had asked Ramona for an operator's number so she could be identified, but Ramona declined to provide that information. When Ramona was informed of our request to have the AMI smart meter removed and the Analog meter re-installed, we were told that

we could have the meter removed and our electric cut off. That was our first encounter with PPL Electric Utilities Corporations customer service.

4a. It has been well established that the AMI meter does cause many health hazards that PPL Electric Utilities Corporation is purposely hiding from the public. It is a fact that the radiation emitted from the AMI smart meter is harmful to the human population and is recognized by professionals and thousands of complaints have been made by the general public complaining of the ill effects that they experienced since the installation of AMI smart meters. Health problem complaints include:

1. cancer and re-activating cancer of those in remission
2. nausea
3. headaches
4. dizziness
5. tinnitus
6. stabbing pain in ears
7. brain damage in children
8. heart palpitations
9. heart attack
10. hormonal issues
11. immune problems
12. extreme fatigue
13. insomnia
14. neurological problems
15. exacerbation of pre-existing medical conditions such as cancer
16. eye problems
17. leg cramps
18. anemia
19. seizures
20. inflammation
21. depression
22. DNA, sperm, cell & gene damage.
23. Behavioral problems
24. There are other problems caused by the AMI smart meter radiation and dirty electric coming into our home not covered in the above list of 23 issues

These effects can be witnessed by researching health effects of AMI meters on Youtube. There are a multitude of Doctors and health professionals explaining the danger of the dirty electric and radiation that PPL Electric Utilities Corporation and their Attorneys want to simply deny. Further evidence of complaints and harm that the AMI smart meter cause can also be viewed from news broadcasts, etc.

4b. I had called PPL Electric Utilities Corporation customer service simply asking to opt out of the AMI smart meter after my husband started to have seizures. We were simply ignored of the problem and given a remedy of removal of the AMI smart meter and cutoff of our electric. My husband had undergone brain surgery and after the AMI smart meter was installed he had seizures in which I had to contact the VA for seizure control medication. Therefore, PPL Electric Utilities Corporation had shown absolutely no cooperation concerning this matter.

4c. The radiation can disrupt plant life, and has shown to be harmful to birds, bees, etc. Since the installation of the AMI Smart meter our four bird feeders and suet have remained full all winter and even during the worst of storms to present date. Other people that feed the wildlife have the same complaint to include bat boxes that are now empty.

4d. PPL Electric Utilities Corporation claims not to have any document of illness, however, this is just a flat out denial that the AMI smart meters cause major health problem. This problem cannot be hidden with the number of people complaining of all type of health problems since the installation of the AMI smart meters on their properties. I am sure that what complaints were made through the so called customer service that we experienced was no more than customers hitting a brick wall and the only remedy offered was the removal of the AMI smart meter and denial of electrical service. We did not voluntarily submit any approval whatsoever to have the AMI smart meter installed. Contrary when a representative for PPL Electric Utilities Corporation came onto our property and knocked on our door we distinctly told him
(no and not to install the AMI smart meter) . However at a later date an individual hired by PPL Electric Utilities Corporation trespassed onto our property and installed an AMI smart meter without our consent.

4e. Privacy rights: At no time did PPL Electric Utilities Corporation receive permission, authority or consent to install an AMI Smart meter on our property as stated on page four of our Formal Complain sent to the Pennsylvania Public Utility Commission.

PPL Electric Utilities Corporation has violated our civil rights and other rights regarding our privacy. PPL Electric Utilities Corporation is wire tapping and hacking private information from within my home which they have no right to. This is a criminal act which puts our family in danger. No one can, by declaration or decree, surrender our rights to an outside party such as PPL Electric Utilities Corporation is engaging in by selling our private information to a third party. Nor does PPL Electric Utilities Corporation have a legal right to gather information or transfer such information over our property.

4f. PPL Electric Utilities Corporation is transmitting personal information off of our property which they have no right or permission to do so. We had hired PPL Electric Utilities Corporation to provide us with clean electric through an Analog meter. Not to take anything that does not legally belong to them.

4g. Pennsylvania has a law concerning drones not being allowed on or over private property. PPL Electric Utilities Corporation is not an exception to this law in using an electronic drone to servile our privacy to include recording law, wiretapping or hacking.

4h. Theft: PPL Electric Utilities Corporation is intentionally and fraudulently taking our personal information from our property without permission or consent.

4i. Embezzlement: PPL Electric Utilities Corporation has engaged in the fraudulent act of converging my private information and thereby selling it to a third party for cash or other compensation for themselves, without any compensation whatsoever to the rightful property owner, myself. PPL Electric Utilities Corporation was in a position of trust and an agent to supply clean electricity to my household and no more. PPL Electric Utilities had fiduciary relationship with me and special trust, however, PPL Electric Utilities Corporation violated that trust by converting our private information to the highest bidder for profit. PPL Electric Utilities Corporation is selling property or information that legally doesn't belong to them. I, Dana Brennan, the customer have exclusive rights to the information PPL Electric Utilities Corporation is gathering from my household.

4j. Non-Consent: PPL Electric Utilities Corporation is illegally collecting information from my property and household which they have been doing secretly through the AMI smart meter. It is no ones business what I or any other customer use the electric for, what appliance it is being used on, the make of the appliance or the length of use. Nor does PPL Electric Utilities Corporation need to know when I turn on a switch, take a shower, use a hair dryer, how long my TV is being used or what I'm watching on TV so the information can be gathered to create a profile of my personal behavior. PPL Electric Utilities Corporation is paid for the use of the electricity and is not under any other conditions or contract to claim use of what's not theirs. PPL Electric Utilities is paid in full, on time every month, and we have no obligation to provide them with anything else.

4k. Safety: PPL Electric Utilities Corporation has installed AMI smart meters that are obviously not safe. This is evident because customers have been taking measures to protect themselves and their families by installing metal screens, using special costly paint with metal particles in it, metal tape, and trying other methods to deflect the radiation and dirty electricity emitted from the AMI smart meters.

By saying there are no ill effects created by their AMI smart meters, PPL Electric Utilities Corporation is liable for suit by placing the general public under a false pretense. There is a liability to PPL Electric Utilities Corporation denial and not taking action to replace the AMI smart meter with an Analog meter on request.

Requested Relief

5. Because of what PPL Electric Utilities Corporation has engaged in we no longer feel safe in our own home or on our property. Other Electric Utility Companies have an option to opt out of the AMI smart meter program to accommodate customers without a fight. Our requested relief is to have an Analog meter re-installed. We should have a right to feel safe in our own home and shouldn't feel as if we are being spied upon and that we are subjected to a health risk. We also feel that we are making a reasonable request that would end the dispute peacefully.

VERIFICATION

Dana Brennan
16 Oslo Way
Newfoundland, PA 18445

I, Mrs. Dana Brennan, hereby state that the facts set forth are true and correct to the best of my knowledge. I am requesting a hearing by phone due to the fact that my husband is disabled and has experienced seizures as stated. Thereby I am unable to travel.

Dana Brennan 2/18/2019

Docket No. C-2019-3007121

February 10, 2019

Prior to the installation of the smart meter a PPL Electric Utilities representative. Was told not to install the smart meter and left. Later without consent or permission PPL Electric Utilities snuck onto our property and installed the meter without our permission or consent.

**NOTICE OF NO CONSENT TO TRESPASS, SURVEILLANCE AND RADIATION POLLUTION
AND FIRE HAZARD**

NOTICE OF LIABILITY, ADHESION CONTRACT

Dear Mr. Phil Walnock, PPL Electric Utilities and all agents, officers, employees, contractors and interested parties,

In regard to your possible intention to install an electronic utility meter at the above address, those meters violate the law and cause endangerment to users and the public due to the following factors:

- 1) They individually identify electrical devices and record when they are operated causing invasion of privacy.
- 2) They monitor household activity and occupancy in violation of rights of domestic privacy.
- 3) They transmit wireless signals which can be intercepted by unauthorized and distant parties.
- 4) No power company or other individual or agency has consent to conduct surveillance or monitoring or to emit radiation (RF, EMR, EMF) on our property with an electronic utility meter. If such consent is presumed, it is hereby denied.
- 5) Data about occupant's daily habits and activities are collected by digital meters, recorded and stored in permanent databases which are accessed by parties not authorized or invited to know and share that private data. Employees and officers of the utility company are not authorized to collect, view or share

binding authority to install the unlawful and harmful device on my property and/or place of occupancy will be agreement with all terms and conditions herein. I deny and refuse any past, present and future proposal, offer, demand or claim contrary to any terms or conditions herein.

Notice to principle is notice to agent and notice to agent is notice to principal. All rights reserved.
