PA PUC
SECRETARY'S BUREAU

I sent you your completed Answers to your Interrogatories and Documents Request. I answered all 45 questions. Since I could not contain my answers to the small amount of space I attached about 30 sheets of paper with my answers along with all my medical Records & Tom's Medical Records & my prescriptions plus a photo copy of My Photo Bill.

If you misplaced all of that information. Copies were sent to the PA. Public Commission, in care of Rosemary Chiavetta, Secretary. Everything I sent to you went to the PA. Public Utilities Company & to Jeffrey A. Watson, Administration Law Judge. November's questions were the same as Oct. questions and would be the same answers as October's.

I will send this letter to Rosemary Chiavetta & The Administration Law Judge. I talked to one of the Attorney's at Jeffrey Watson's Administration stating what I told you. They are the ones that had me write this Certif of Service.

With the completed answers I also sent you a list of all my books, websites & video, etc., that I used for references. They were all top quality, beyond reproach references. Because of my spinal operation & other health reasons my responses were maybe a day late. I worked in pain with also a infected right eye which I could not see out of. And I apologized & told you the next day for being a day late. Then I believe a letter came to me which said you had received all my answers and all late requests were dropped. I'm sure the judge has that letter. I am not at home in my office & do not have my files at this moment.

I've already sent you about 1,000 pages of proof that I am ~~so~~ right about everything. I started this battle with Met-Ed in May of 2017 thru the Office of Attorney General's Docket # or file # whatever you want to call it BCP-18-05-004035. After no success there, I had to file with the PA PUC. It has been 21 months since my battle with Met-Ed started 7 mos. with the Attorney General & 14 months & counting thru the PA PUC. You have tried in every way possible to stop settlement with me thru any means.

The truth is Met-Ed & all other

Utility Companies would go bankrupt if I and many like me were in court because even though Met-Ed knows everything I say is the truth they cannot acknowledge that truth because they would have to pay back billions of dollars of stimulus money. I am writing a full report on this matter. In short, the public is being forced to subsidize the capital investment and expansion of privately owned utilities in addition to being forced to pay a second time as these Parasitic Corporations recoup these same investments that were funded by the stimulus package to begin with.

I am writing up a full report on how Smart meters got into our State thru the greedy politicians & Utility Companies so they could line their pockets up billions of dollars with our tax money & destroy humankind as they do it.

Unless the Court steps in right now & hears my case & makes settlement on my behalf - Met-Ed will find every way not to settle with me! So please hear my plea & case today & lets make settlement through the court!
