

Rosemary Chiavetta, Secretary
Pennsylvania Public Utility Commission
P.O. Box 3265
Harrisburg, PA 17105-3265

March 10, 2019

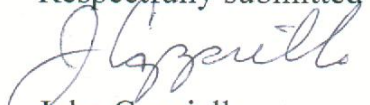

Please consider this letter as an answer to the Bureau's complaint outlined in Docket No. C-2019-3006934.

Respondent has faithfully maintained all premium payments to insurer since filing for its Motor Carrier Authority -December 27, 2016. (See payment history)

Respondent has repeatedly directed insurer and broker to make appropriate filings as mandated by the Public Utility Commission. Respondent has also requested from Insurer to mail filings as registered so that there would be some sort of tracking and proof that they were actually sending the filings to the correct address. Insurer denied respondents request so now we have requested the Broker to make the filings so we can validate receipt. (See attached email to broker).

Wherefore, respondent prays that you find that the respondent has consistently made effort to direct insurer to make the appropriate filings and has satisfied the requirements as set forth in the Pennsylvania code governing motor carrier insurance.

Respectfully submitted
