**Re: PECO Default Service Program and Mitigation Plan Docket No. P-2008-2062739;  
PECO List of Customers Receiving a CAP Credit in Excess of the Applicable  
Maximum CAP Benefit Amount**

Dear Secretary Chiavetta:

In Paragraph 74 of the Commission-approved settlement in the above-noted proceeding (the "DSP Settlement"), PECO agreed to provide the following information:

PECO will generate a list by March 31 of each year identifying those Customer Assistance Program customers that individually received benefits in the prior calendar year greater than the then-applicable maximum CAP benefit amount, as set forth for both electric and gas at 52 Pa. Code § 69.265(3)(v), as that amount may be revised by the Commission from time-to-time. The list will include the customer's usage, discount level, and CAP tier.

In 2010, the Commission approved certain changes to the applicable maximum CAP benefit amount as applied to PECO. Specifically, in the Settlement of PECO's Electric Base Rate Case Proceeding (R-2010-2161575), Exhibit 4, paragraph 2, the parties agreed, and the Commission approved, an approach which PECO would escalate the maximum CAP benefit amount for its electric CAP rate to reflect changes in the Consumer Price Index after August 30, 2007. A similar arrangement was approved in PECO's Gas Base Rate Proceeding (R-2010-2161592).

Rosemary Chiavetta, Secretary  
 March 20, 2019  
 Page 2

Consequently, the maximum CAP benefit amounts for use in 2018 for the PECO CAP rate have changed as follows:

	<u>2018</u>	<u>2017</u>
Electric Rate:	\$525	\$547
Electric Rate RH:	\$1,351	\$1,407
Gas:	\$872	\$652

As per the Gas rate case settlement, PECO has agreed to the following changes to the Gas maximum CAP benefit calculation:

On January, 2011, PECO will establish a "PGC Pricing Index" set at the nominal level of 100 to reflect PECO's residential PGC rate as of that date. As each PGC proceeding is completed and new PGC rates are approved by the Commission, PECO shall adjust the PGC Pricing Index to reflect any percentage increase or decrease in purchased gas costs as compared to the initial PGC Pricing Index of 100. This adjusted level shall then constitute the new PGC Pricing Index. The Maximum Gas CAP Credit Factor shall then be adjusted, on a proportional basis, to reflect changes to the PGC Pricing Index.

PECO has generated the required 2018 list using those values for maximum CAP benefit amounts. In 2018, there were a total of 38,378 PECO CAP accounts that met this criterion. This represents a 3,107 decrease from the 2017 total of 41,485. The following table provides the total number of accounts by FPL designation for the 2018 calendar year that individually received benefits greater than the applicable maximum CAP benefit amount.

CAP FPL Groups	Gas	Electric Non-Heating	Electric Heating
0-25% FPL	167	16,569	917
51-100% FPL	29	16,381	384
101-150% FPL	15	3,819	97
<b>Total</b>	<b>211</b>	<b>36,769</b>	<b>1,398</b>

Rosemary Chiavetta, Secretary
