**Data Requests**  
Docket No. U-2019-3008254

TUS-1 Reference the Agreement, Section 8. Please provide a breakdown of the approximate per unit cost of the charging stations including installation.

**Response:**

Based on current price quotes, the Company estimates a per-unit cost of approximately \$10,967; of which \$6,870 represents hardware costs, and \$4,097 represents installation costs.

TUS-2 Reference the Agreement, Section 8. Provide the approximate value of the easement and provide a detailed explanation of the methodology used in this determination.

**Response:**

The Company did not derive an estimated value of the easement because the Company will not include the easement in rate base. Consistent with Agreement's characterization of the charging stations as a donation (see paragraph 8(a)), shareholder funds will be used to purchase and install the charging stations. These costs will not be recovered from the Company's customers.
