- Interexchange Toll Facilities-based carrier, InterLATA and/or IntraLATA, (e.g., MTS, 1+, 800, WATS, Travel and Debit Cards)
- Competitive Access Provider (dedicated point-to-point multipoint service; voice or data)
- Competitive Local Exchange Carrier.

- Other (Identify).

10. **PROPOSED SERVICES:** Describe in detail the services which the Applicant proposes to offer. If proposing to provide more than one category in Item #9, clearly and separately delineate the services within each proposed operation. Provide a brief description of the facilities the Company will use to provide services. Specify whether those facilities are Company-owned or obtained from other companies as UNEs or on a resold basis.

**NGA 911 intends to provide emergency call routing, transport, and related functionalities to state and municipal governmental agencies to support Public Service Answering Point ("PSAP") operations. Applicant therefore seeks authority to provide resold and facilities-based telecommunications services to customers throughout the Commonwealth of Pennsylvania as (i) a Competitive Local Exchange Carrier; and (ii) Competitive Access Provider. Applicant proposes to provide these services primarily through a combination of its own facilities and facilities to be leased from a variety of telecommunications carriers and other providers. NGA 911 may require the same sort of interconnection and co-location made available to CLECs. Accordingly, pursuant to the Commission's *Intrado Order*<sup>1</sup> and *Vesta Solutions Order*,<sup>2</sup> NGA 911 seeks certification as a Competitive Local Exchange Carrier so that it may provide "telephone exchange service" and "telecommunications service" under applicable Telecommunications Act provisions.**

<sup>1</sup> *Application of Intrado Communications, Inc. for Approval to Offer, Render, Furnish or Supply Telecommunications Services as a Competitive Local Exchange Carrier to the Public in the Service Territories of Verizon Pennsylvania Inc.; Verizon North Inc.; The United Telephone Company of Pennsylvania d/b/a Embarq Pennsylvania, Docket Nos. A-2008-2027726, A-2008-2027733, A-2008-2027713, Order entered August 1, 2008 (Intrado Order).*

<sup>2</sup> *Application of Airbus DS Communications, Inc. for approval to offer, render, furnish or supply telecommunications services as a Competitive Local Exchange Carrier to the public in the Commonwealth of Pennsylvania in all thirty-seven Incumbent Local Exchange Carrier service territories, Docket No. A-2016-2536383, Order entered June 30, 2016 (Vesta Solutions Order).*

**NGA 911 does not have plans to provide retail switched voice services to customers in Pennsylvania. Rather, NGA 911 intends to provide emergency call routing, transport, and related functionalities to state and municipal governmental agencies to support PSAP operations. NGA 911 intends to provide infrastructure facilities (such as conduit, and dark or lit fiber) for use in connection with the transport and transmission of communications. NGA 911 is a complete, customizable NG911 solution offering to bring secure, affordable 9-1-1 services from the cloud to the Commonwealth of Pennsylvania. NGA 911's solution provides a highly efficient path to achieve end-to-end IP call handling for 9-1-1 services. NGA 911's incremental deployment, patented and patent pending services are poised to safely transition legacy 9-1-1 systems, like those used in Pennsylvania, to the future of emergency services worldwide, offering the latest NG911 technology available.**

**Applicant is seeking to comply with the Commission's regulatory requirements so NGA 911's advanced technology can be applied to the modernization of the state's 9-1-1 system.<sup>3</sup> The anticipated impact of this technology is an improvement in the operation, function and downtime at a manageable cost.**

**With its cloud services, Applicant has created an infrastructure that stays ahead of cyber threats, scales on demand, and employs numerous failover strategies. It enables multiple access points to integrate new technology through innovative collaborative techniques, with no single point of failure. It allows for the seamless integration of PSAP processes that translate into faster call processing times, increased resource efficiency, quicker response times, and better decision making.**

- 11. SERVICE AREA:** Describe the geographic service area in which the Applicant proposes to offer services. Clearly and separately delineate the service territory for each category listed in Item #9. For Competitive Local Exchange Carrier operations, you must name and serve the Incumbent Local Exchange Carriers in whose territory you request authority.

**Competitive Local Exchange Carrier - Applicant seeks authority to offer services throughout the Commonwealth of Pennsylvania (all thirty-seven Incumbent Local Exchange Carrier territories).<sup>4</sup>**

---

<sup>3</sup> See Pennsylvania Emergency Management Agency, RFP No. 6100047600 (Open Feb. 27, 2019, Due Date Apr. 30, 2019) (*NG9-1-1 RFP*).

<sup>4</sup> The *NG9-1-1 RFP* seeks a Commonwealth-wide provider of Emergency Services Internet Protocol Network ("ESInet") and Next Generation Core Services ("NGCS") that connects with all originating service providers. Therefore, Applicant requires CLEC authority in all ILEC territories.

**Competitive Access Provider - Applicant seeks authority to offer services throughout the Commonwealth of Pennsylvania.**

12. **MARKET:** Describe the customer base to which the Applicant proposes to market its services. Clearly and separately delineate a market for each category listed in Item #9.

**NGA 911 intends to provide emergency call routing, transport, and related functionalities to state and municipal governmental agencies to support PSAP operations. Applicant may eventually provide other local exchange telecommunications services. Applicant will not provide residential telecommunications services. However, pursuant to the *Intrado Order and Vesta Solutions Order*, Applicant seeks certification so that it may provide “telephone exchange service” and “telecommunications service” under applicable Telecommunications Act provisions.**

13. **PROPOSED TARIFF(S):** Each category of proposed operations must have a separate and distinct proposed tariff setting forth the rates, rules and regulations of the Applicant. Every proposed tariff shall state on its cover page the nature of the proposed operations described therein, i.e., IXC Reseller, CLEC, CAP, or IXC Facilities-based. A copy of all proposed tariffs must be appended to each original and duplicate original and copy of Form 377.

If available, include bond rating, letters of credit, credit reports, insurance coverage and reports, and major contracts.

**Applicant does not have a parent company, but NGA 911, Inc. is Applicant's majority owner. Applicant does not have any other direct owners with a 20% or greater membership interest.**

**Applicant has sufficient financial resources to initiate and maintain the services and related operations in Pennsylvania as proposed in this Application. Included with this Application as Confidential Exhibit F are: (i) an unaudited balance sheet for 2018 and (ii) additional unaudited financial information for 2018, consisting of a profit and loss statement. At this time, Applicant does not have a cash flow statement since Applicant has not yet begun providing service to customers. Likewise, Applicant does not have audited financial statements. However, the financial statements in Confidential Exhibit F demonstrate that Applicant has the financial resources to provide its proposed services in Pennsylvania.**

**TARIFF FORMAT**

- A. **Page Numbering:** Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.
  
- B. **Page Revision Numbers:** Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Pennsylvania Public Utility Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of various suspension periods, deferrals, etc., the Pennsylvania Public Utility Commission follows in its tariff approval process, the most current page number on file with the Pennsylvania Public Utility Commission is not always the tariff page in effect. Consult the Check Page for the page currently in effect.
  
- C. **Paragraph Numbering Sequence:** There are seven levels of paragraph coding. Each level of coding is subservient to its next higher level:
  - 2
  - 2.1
  - 2.1.1
  - 2.1.1.A
  - 2.1.1.A.i
  
- D. **Check Pages:** When a tariff filing is made with the Pennsylvania Public Utility Commission, an updated check page accompanies the tariff filing. The check page lists the pages contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check page is changed to reflect the revision.

**Rule 12 - Continuity of Service/Allowances for Service Interruptions**

In the event that the Company has advance knowledge of an interruption of service for a period exceeding 24 hours, the Company will attempt to notify Subscribers in writing at least one week in advance. Interruptions in service, which are not due to the negligence of, or non-compliance with the provisions of this Tariff by the Customer, or the operation or malfunction of the facilities, power, or equipment provided by the Customer, will be credited to the Customer as specified below for the part of the service that the interruption affects. A credit allowance will be made when an interruption occurs because of a failure of any component furnished by the Company under this Tariff.

**12.1 Credit for Interruptions**

- 12.1.1 An interruption period begins when the Customer reports a service, facility, or circuit to be interrupted and releases it for testing and repair. An interruption period ends when the service, facility, or circuit is operative. If the Customer reports a service, facility, or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.
- 12.1.2 For calculating credit allowances, every month is considered to have 30 days. A credit allowance is applied on a pro rata basis against the rates specified hereunder and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit.
- 12.1.3 A credit allowance will be given, upon request of the customer to the business office, for interruptions of 30 minutes or more. Credit allowances will be calculated as follows:
- (A) If interruption continues for less than 24 hours:
- i) 1/30th of the monthly rate if it is the first interruption in the same billing period.
  - ii) 2/30ths of the monthly rate if there was a previous interruption of at least 24 hours in the same billing period.
- (B) If interruption continues for more than 24 hours:
- i) if caused by storm, fire, flood or other condition out of Company's control, 1/30th of the monthly rate for each 24 hours of interruption.
  - ii) for other interruption, 1/30 of the monthly rate for the first 24 hours and 2/30ths of such rate for each additional 24 hours (or fraction thereof); however, if service is interrupted for over 24 hours, more than once in the same billing period, the 2/30ths allowance applies to the first 24 hours of the second and subsequent interruptions.
  - iii) Two or more interruptions of 15 minutes or more during any one 24-hour period shall be considered as one interruption.

## COMPETITIVE LOCAL EXCHANGE CARRIER TARIFF

Rule 12 - Continuity of Service/Allowances for Service Interruptions (Cont'd)

## 12.1 Credit for Interruptions (Cont'd)

(B) If interruption continues for more than 24 hours:

- iv) Credits attributable to any billing period for interruptions of service shall not exceed the total charges for that period for the service and facilities furnished by the Company rendered useless or substantially impaired.
- v) For the purpose of applying this provision, the word "interruption" shall mean the inability to complete calls either incoming or outgoing or both due to equipment malfunction or human errors. "Interruption" does not include and no allowance shall be given for service difficulties such as slow dial tone, circuits busy or other network and/or switching capacity shortages. Nor shall the interruption allowance apply where service is interrupted by the negligence or willful act of the subscriber or where the Company, pursuant to the terms of the Tariff, suspends or terminates service because of nonpayment of bills due to the company, unlawful or improper use of the facilities or service, or any other reason covered by the Tariff. No allowance shall be made for interruptions due to electric power failure where, by the provisions of this Tariff, the subscriber is responsible for providing electric power. Allowance for interruptions of message rate service will not affect the subscriber's local call allowance during a given billing period.

## 12.2 Limitations on Credit Allowances

No credit allowance will be made for:

- 12.2.1 interruptions due to the negligence of, or non-compliance with the provisions of this tariff, by any party other than the Company, including but not limited to the customer, authorized user, or other common carriers connected to, or providing service connected to, the service of the Company or to the Company's facilities;
- 12.2.2 interruptions due to the failure or malfunction of non-Company equipment, including service connected to customer provided electric power;
- 12.2.3 interruptions of service during any period in which the Company is not given full and free access to its facilities and equipment for the purpose of investigating and correcting interruptions;

- 13.1.3 The Company shall not be liable for any defacement of or damages to the premises of a Customer or Subscriber, resulting from the furnishing of service, which is not the result of the Company's negligence.
- 13.1.4 Except when a court of competent jurisdiction finds that gross negligence, willful neglect, or willful misconduct on the Company's part has been a contributing factor, the liability of the Company for any claim or loss, expense or damage (including indirect, special or consequential damage) for any interruption, delay, error, omission, or defect in any service, facility (including services and facilities involved in emergency calling activity) or transmission provided under this tariff shall not exceed an amount equivalent to the prorata charge to the Customer or Subscriber for the period of service or facility usage during which such interruption, delay, error, omission or defect occurs. Rule 20 – Special Services and Programs (Continued)

## 20.1 UNIVERSAL EMERGENCY TELEPHONE NUMBER SERVICE (911) (Continued)

## 20.1.2. GENERAL

The Service Access Code 9-1-1 allows the customer to reach the appropriate emergency services including police, fire and medical services. Enhanced 9-1-1 has the ability to selectively route an emergency call to the primary 9-1-1 provider so that it reaches the correct emergency service located closest to the caller. In addition, the Customer's address and telephone information will be displayed to the primary 9-1-1 provider for display at the Public Answering Point (PSAP).

Pursuant to the Public Safety Emergency Telephone Act (Act 12 of 2015), as amended, the Telephone Company collects a fee from its customers on behalf of the counties in its operating area to support the 9-1-1 system. Counties of the first through second class may impose a monthly contribution rate in an amount not to exceed \$1.65 per line on each local exchange access line. Counties of the third through fifth class may impose a monthly contribution rate in an amount not to exceed \$1.65 per line on each local exchange access line. Counties of the sixth through the eighth class may impose a monthly contribution rate not to exceed \$1.65 per line on each local exchange access line. The contribution rate may be used by counties for the expenses of implementing, expanding or upgrading a 911 system.

Parties dialing 9-1-1 waive the privacy afforded by non-listed and non-published service to the extent that the telephone number, names, and address associated with the originating station location are furnished to the Public Safety Answering Point.
