Re: Cynthia Mosco v. Verizon Pennsylvania LLC
Docket No. C-2018-3006579

Dear Judge DeVoe:

Pursuant to our agreement at the April 8, 2019 hearing and your Interim Order Requiring Status Update, enclosed is a copy of a filing made with the Federal Communications Commission (FCC) on April 10, 2019, providing notification under the FCC's regulations of copper retirement at certain locations in Pennsylvania. The specific addresses affected are listed in Exhibit A to the filing. Due to the large number of pages in Exhibit A, Verizon is only including with this letter a copy of page 137 of Exhibit A, which includes Ms. Mosco's address in Verizon's Sharpsburg wire center. The entire exhibit is available on Verizon's website at <https://www.verizon.com/about/terms-conditions/network-disclosures>.

There is no action required by Ms. Mosco at this time. The filing of this notice starts the FCC's copper retirement process. Verizon's network transformation team will begin contacting affected customers at a later date to arrange for an orderly migration of services from copper to fiber. At this time, there is not a date scheduled to begin contacting customers in the Sharpsburg wire center where Ms. Mosco lives. When that schedule becomes available, I will notify you and Ms. Mosco. Meanwhile, we will continue to monitor her service on copper, as agreed at the hearing.

All of Verizon's copper retirement notices may be viewed on Verizon's website at <http://www.verizon.com/about/terms-conditions/network-disclosures>

Description of the planned network change(s):

Verizon intends to retire the copper facilities at specified addresses in the 96 Pennsylvania wire centers listed above. Verizon has deployed or plans to deploy its fiber-to-the-premises network in these areas and intends to provide services over a fiber network infrastructure. Updating our

network from copper to fiber benefits our customers because of fiber's resiliency and reliability, especially in inclement weather. Fiber also provides our customers with expanded capabilities to grow with current bandwidth demands for their home or business.

Description of reasonably foreseeable impact(s) of the planned change(s):

After the retirement of the copper facilities, Verizon will: (1) no longer offer services over copper facilities; and (2) cease maintaining the copper facilities. To help ensure an orderly transition, Verizon may require customers and interconnecting entities to migrate services off of copper facilities well before the copper retirement implementation date.
