Docket# 2018-3005278

Eleni DiSabatino  
22 Wheatsheaf Lane  
Worcester, PA 19403

I am writing in response to the judge's decision. I am pleading to reconsider the decision on this case, the charges on this were not mine, something got mixed up somewhere along the line and in the meantime, PECO is charging late fees which has brought my balance to an outrageous amount. These supposedly charges were from 10 years ago, I have had electric bills in the meantime and paid them always on time, how do these charges suddenly appear? I am a single mother and never had an issue with anything until now. Please reconsider and investigate this situation further.

Thank you for your time.
