Re: Jennifer and Wesley Orvosh v. West Penn Power Company
Docket No. C-2019-3009777

Dear Secretary Chiavetta:

Attached please find the Preliminary Objections of West Penn Power Company in the above-referenced matter. This document has been served on the Complainants as shown in the Certificate of Service.

Please contact me if you have any questions.

Very truly yours,

Tori L. Giesler

WEST PENN POWER COMPANY	:	

**PRELIMINARY OBJECTION TO THE FORMAL COMPLAINT OF
JENNIFER AND WESLEY ORVOSH**

TO THE PENNSYLVANIA PUBLIC UTILITY COMMISSION:

AND NOW, West Penn Power Company (“West Penn” or the “Company”), by and through its counsel, Lauren M. Lepkoski and Tori L. Giesler, files this Preliminary Objection pursuant to Section 5.101(a) of Pennsylvania Public Utility Commission (“Commission”) regulations, 52 Pa. Code § 5.101(a)(1), and in support thereof, avers as follows:

I. Introduction

1. In their recently filed Formal Complaint, Jennifer and Wesley Orvosh (“Complainants”) allege that they do not want a smart meter installed at 175 Laurel Way, Spring Church, Pennsylvania 15686 (“Service Location”). (Formal Complaint ¶¶ 4, 5.) The Complainants state as requested relief:

The amount of radiation that is set off 4-6 times a minute in short burst is not safe to people who are sensitive to that. The body will have long term effects. There is nothing wrong with our current meter and I am more than happy to call in once a month to provide that meter reading to the electric company. That radiation travels thru all the wiring in the house and therefore comes out of each and every outlet. Its basically like we are stuck in a giant microwave inside our own house. This shouldn't be mandatory at all. I should be the only one to determine the exposure for my family. Take a look at all the other states allowing a opt out option. They are realizing and seeing the documented illnesses the people are having. The electric smart meters in the long run will end up causing more _____ out lawsuits from medical issues than what you are saving by just sending out a meter man to record the usage or having each

customer responsible for calling in their own. I absolutely do not want this attached to my home.

(Formal Complaint ¶ 5.)

2. The Company is in the process of deploying smart meters in its service territory in accordance with Act 129 of 2008 (“Act 129”).¹

3. On February 26, 2019, the Company sent correspondence to Wesley Orvosh, the customer of record (“Customer”), regarding the installation of a smart meter at the Service Location. On April 2, 2019, the Company received notification from Wellington Energy that the Customer refused installation of the smart meter on March 29, 2019. That same day, the Company attempted to contact the Customer to discuss the smart meter installation and a voicemail message was left seeking a return telephone call. No return telephone call was received. On April 3, 2019, the Company issued a letter to the Customer stating that he should contact the Company to facilitate installation of a smart meter at the Service Location. On April 8, 2019, Mrs. Orvosh contacted the Company to refuse installation of a smart meter at the Service Location. The Company representative attempted to address her concerns and advised that continued refusal could result in termination of service. Mrs. Orvosh stated that she wanted to be called back with technical information regarding the smart meter. An internal request was made for the smart meter team to contact Mrs. Orvosh. Mrs. Orvosh was provided with her dispute rights. On April 29, 2019, the Complainants filed a Formal Complaint with the Commission and the Company was electronically served with the Formal Complaint on May 9, 2019.

4. As explained in greater detail below, even if all of the facts in the Formal Complaint are accepted as true, they do not constitute a violation of any law which the Commission has

¹ 66 Pa.C.S. § 2806.1 *et seq.* Among other things, Act 129 specifically directed that electric distribution companies with at least 100,000 customers file a smart meter technology procurement and installation plan with the Commission for approval. 66 Pa.C.S. § 2807(f)(1) and (2).

jurisdiction to administer, or of any regulation or order of the Commission, such that relief can be granted.²

5. As a result, the Company requests that this Preliminary Objection be granted and that the Commission: (1) strike the Complainants' request for an exemption from the installation of a smart meter; (2) dismiss the Formal Complaint in its entirety with prejudice; and (3) grant the Company such other relief as may be just and reasonable under the circumstances.

II. Background

6. West Penn is an electric distribution company that is certificated as a public utility in Pennsylvania.

7. On February 26, 2019, the Company sent correspondence to the Customer regarding the installation of a smart meter at the Service Location. On April 2, 2019, the Company received notification from Wellington Energy that the Customer refused installation of the smart meter on March 29, 2019. That same day, the Company attempted to contact the Customer to discuss the smart meter installation and a voicemail message was left seeking a return telephone call. No return telephone call was received. On April 3, 2019, the Company issued a letter to the Customer stating that he should contact the Company to facilitate installation of a smart meter at the Service Location. On April 8, 2019, Mrs. Orvosh contacted the Company to refuse installation of a smart meter at the Service Location. The Company representative attempted to address her concerns and advised that continued refusal could result in termination of service. Mrs. Orvosh stated that she wanted to be called back with technical information regarding the smart meter. An internal request was made for the smart meter team to contact Mrs. Orvosh. Mrs. Orvosh was provided with her dispute rights.

² See 66 Pa.C.S. § 701.

8. On April 29, 2019, the Complainants filed a Formal Complaint with the Commission against the Company at the above-captioned docket. On May 9, 2019, the Company was electronically served with the Formal Complaint.

9. The Company is timely filing its Answer and New Matter contemporaneously with this Preliminary Objection, which Answer and New Matter is incorporated into this Preliminary Objection as if fully set forth herein.

III. Argument

10. The Commission's Rules of Practice and Procedure permit parties to file preliminary objections. The grounds for preliminary objections are limited to those set forth in 52 Pa. Code § 5.101(a) as follows:

- (1) Lack of Commission jurisdiction or improper service of the pleading initiating the proceeding.
- (2) Failure of a pleading to conform to this chapter or the inclusion of scandalous or impertinent matter.
- (3) Insufficient specificity of a pleading.
- (4) Legal insufficiency of a pleading.
- (5) Lack of capacity to sue, nonjoinder of a necessary party or misjoinder of a cause of action.
- (6) Pendency of a prior proceeding or agreement for alternative dispute resolution.
- (7) Standing of a party to participate in the proceeding.

11. The Commission's procedure regarding the disposition of preliminary objections is similar to that utilized in Pennsylvania civil practice.³

³ *Equitable Small Transportation Intervenors v. Equitable Gas Company*, Docket No. C-00935435 (Opinion and Order entered August 15, 1994).

12. A preliminary objection in civil practice seeking dismissal of a pleading will be granted only where relief is clearly warranted and free from doubt.⁴ The Commission has adopted this standard.⁵

13. In accordance with Section 701 of the Code⁶ a person may file a complaint which sets forth “any act or thing done or omitted to be done by any public utility in violation, or claimed violation, of any law which the commission has jurisdiction to administer, or of any regulation or order of the commission.” As explained below, the Company has not violated the Public Utility Code or the orders or regulations of the Commission.⁷ In fact, the Company’s actions have been in compliance with Act 129 and the June 5 Order. Further, the Company may, in its sole and exclusive discretion, install such meters and related equipment it deems reasonable and appropriate to provide service to its customers.⁸

14. The moving party may not rely on its own factual assertions but must accept for the purposes of disposition of the preliminary objection, all well-pleaded, material facts of the other party, as well as every inference fairly deducible from those facts.⁹ Therefore, in ruling on a preliminary objection, the Commission must assume, for decisional purposes only, that the factual allegations of the Formal Complaint are true.¹⁰

15. West Penn’s smart meter deployment plan was approved by the Commission at Docket No. M-2013-2341991 by Order entered June 5, 2014. In accordance with the June 5 Order, the Company filed its final Smart Meter Deployment Plan (“SMP”) on June 16, 2014. The SMP

⁴ *Interstate Traveler Services, Inc. v. Pa. Dept. of Environmental Resources*, 406 A.2d 1020 (Pa. 1979); *Rivera v. Philadelphia Theological Seminary of St. Charles Borromeo, Inc.*, 595 A.2d 172 (Pa. Super. 1991).

⁵ *Montague v. Philadelphia Electric Company*, 66 Pa. PUC 24 (1988).

⁶ 66 Pa.C.S. § 701.

⁷ *Id.*

⁸ *West Penn Power Company Retail Electric Service Tariff*, Electric Pa. PUC No. 40, p. 41, issued January 25, 2017, effective January 27, 2017.

⁹ *County of Allegheny v. Commw. of Pa.*, 490 A.2d 402 (Pa. 1985).

¹⁰ *Id.*

was approved by the Commission on June 20, 2014. The Complainants challenge no aspect of the Company's provision of electric service other than the installation of a smart meter at the Service Location, as required by Act 129 and the Company's SMP.

16. Commission precedent is uniform that it cannot grant exceptions to the statutory directive that smart meters be installed by allowing customers to opt out.¹¹

17. Assuming the facts pleaded in the Formal Complaint are true, as the Commission must for the purposes of ruling on a preliminary objection, the Complainants have failed to allege that West Penn has committed or omitted an act in violation of a Commission statute, regulation, order, or West Penn's tariff, a finding of which must be made in order to sustain a formal complaint.¹²

18. Because Act 129 and the Commission's orders not only authorize but require the Company to develop and implement a smart meter procurement and installation plan, and do not allow a customer to opt out of having a smart meter installed, this Formal Complaint must be dismissed. As a matter of law, the Company is required to install a smart meter at the Service Location. As such, the Commission cannot find the Company to be in violation for having attempted to follow the law as it has done here.

¹¹ *Negley v. Metropolitan Edison Company*, Docket No. C-2010-2205305 (Final Order entered March 3, 2011); *Lutherschmidt v. Metropolitan Edison Company*, Docket No. C-2010-2200353 (Final Order entered March 25, 2011). The Commission has continued to uphold installation of smart meters and imposition of smart meter charges on customers' bills by dismissing complaints opposing installation of smart meters and imposition of smart meter charges on the basis of legal insufficiency. *Corbett v. Pennsylvania Power Company*, Docket No. C-2011-2219898 (Final Order entered May 27, 2011); *Jones v. Metropolitan Edison Company*, Docket No. C-2011-2224380 (Final Order entered June 28, 2011); *Griffin v. Metropolitan Edison Company*, Docket No. C-2012-2300172 (Final Order entered July 31, 2012); *Brake v. West Penn Power Company*, Docket No. C-2013-2367308 (Opinion and Order entered November 14, 2013); *Drake v. Pennsylvania Electric Company*, Docket No. C-2014-2413771 (Final Order entered June 12, 2014); *Efaw v West Penn Power Company*, Docket No. C-2014-2413744 (Final Order entered June 12, 2014). See also, the Initial Decision of ALJ Susan D. Colwell in *Dennis McElwain v. Pennsylvania Power Company*, Docket No. C-2014-2451478 issued December 16, 2015.

¹² See 66 Pa.C.S. § 701; *County of Allegheny, supra*.

19. Therefore, the Formal Complaint is legally insufficient because it fails to state a claim upon which the Commission can grant relief.¹³

20. The Commission may dismiss a complaint without hearing if a hearing is not necessary in the public interest.¹⁴

21. Recently, the Commission set for hearing two cases in which the complainant was opposed to the installation of a smart meter at their premises.¹⁵ These cases represent a departure from past Commission practice of dismissing such complaints on Preliminary Objections. The Commission stated that where a complainant has presented specific factual averments regarding the health or other effects that they have experienced after a smart meter was installed at their home, the Commission has overruled Preliminary Objections and allowed a case to proceed. Specifically, in *Kreider*, the complainant alleged specific deleterious health effects after installation of a smart meter affecting her specific medical condition. Further, in *Van Schoyck*, the complainants alleged potential health risks due to constant ringing noise in their home and their inability to sleep since the time the smart meter was installed.¹⁶ In contrast, in the instant case, the Complainants have made no specific factual averments regarding any health effects experienced *after* a smart meter has been installed. Specifically, the Complainants are refusing smart meter installation at the Service Location due to generic health concerns.¹⁷ The Commission has not recognized a customer's lack of consent to install a smart meter as sufficient to overcome preliminary objections.¹⁸ Further, the Commission has upheld decisions finding that a utility has

¹³ See 52 Pa. Code § 5.101(a)(4).

¹⁴ 66 Pa.C.S. § 703(b); 52 Pa. Code § 5.21 (d).

¹⁵ *Susan Kreider v. PECO Energy Company*, Docket No. C-2015-2469655 (Order on Reconsideration entered January 28, 2016); *Stephen and Diane Van Schoyck v. PECO Energy Company*, Docket No. C-2015-2478239 (Opinion and Order entered February 26, 2016).

¹⁶ *Id.*

¹⁷ Formal Complaint ¶ 5.

¹⁸ *Richard and Marie Fugo in care of Fugo Eye Institute v. PECO Energy Company*, Docket Nos. C-2015-2519763 and C-2015-2519770 (Order entered April 6, 2016).

the ability to terminate the service of a customer who refuses installation of a smart meter.¹⁹ Therefore, the Company respectfully submits that the matters plead in the subject Formal Complaint do not meet the standards set in the *Kreider* and *Van Schoyck* cases such that this matter can survive dismissal on preliminary objections.

22. In *Charles F. Jackson v. Pennsylvania Electric Company*, Docket No. C-2017-2600495 (Order Entered August 31, 2017), the Commission approved the Initial Decision of ALJ David A. Salapa, dated June 26, 2017, which granted the preliminary objections of Pennsylvania Electric Company and dismissed the formal complaint of Mr. Jackson (who was disputing the installation of a smart meter), finding that the formal complaint was legally insufficient, pursuant to 52 Pa. Code § 5.101(a)(4), in that the complaint failed to allege that the utility violated the Public Utility Code, Commission regulations or orders or the utility's tariff provisions. The respondent was found to be authorized to install smart meters and impose a charge on its customers to develop and implement a smart meter procurement and installation plan that will lead to the installation of smart meters throughout its service territory. ALJ Salapa further found that the respondent was authorized to terminate the Mr. Jackson's service if he refused to provide the respondent with access to its meter and equipment to install the smart meter.

This Commission decision was entered after *Kreider*. The Formal Complaint is similar to the alleged averments in the formal complaint at Docket No. C-2017-2600495, in that the Complainants have only alleged that they do not want a smart meter installed at the Service Location. The Complainants have not set forth in their complaint any act done by the Company that violates a Commission regulation, statute or order.

¹⁹ *Art Larson v. PECO Energy Company*, Docket No. C-2014-2451754 (Opinion and Order entered June 11, 2015). See also, *Catherine J. Frompovitch v. PECO Energy Company*, Docket No. C-2015-2474592 (Opinion and Order entered May 3, 2018).

23. Therefore, the Company respectfully submits that the matters plead in the Formal Complaint do not meet the standards set in the *Kreider* and *Van Schoyck* cases such that this matter can survive dismissal on preliminary objections.

24. Further, the Commission has upheld decisions granting preliminary objections and dismissing complaints for legal insufficiency opposing smart meter installation. In *Negley*, ALJ Susan D. Colwell dismissed a complaint opposing installation of smart meters for legal insufficiency. ALJ Colwell concluded that Act 129 of 2008 authorized the installation of smart meters by EDCs. ALJ Colwell held that the Commission's orders approving EDCs smart meter plans did not exempt any customers from the smart meter plans. By Commission final order entered March 3, 2011, ALJ Colwell's Initial Decision became final without further Commission action.

25. Rule 9 of the Company's Commission-approved tariff²⁰ allows the Company to have access to its customers' premises for any and all purposes relating to the supply of electric energy which includes the exchange of meters. The Complainants' refusal to allow the Company access to its own meter is a violation of Rules 9 and 20 of the Company's Commission-approved tariff²¹ and is grounds for termination of service in accordance with 66 Pa.C.S. § 1406(a)(4) and 52 Pa. Code § 56.81(3). The Commission has also upheld decisions finding that a utility has the ability to terminate the service of a customer who refuses installation of a smart meter.²²

26. Because Act 129 of 2008 and the Commission's orders authorize the Company to develop and implement a smart meter procurement and installation plan, the Complainants have

²⁰ *West Penn Power Company Retail Electric Service Tariff*, Electric Pa. PUC No. 40, p. 46, issued May 1, 2015, effective May 3, 2015.

²¹ *West Penn Power Company Retail Electric Service Tariff*, Electric Pa. PUC No. 40, pp. 46, 61, issued May 1, 2015, effective May 3, 2015.

²² *Art Larson v. PECO Energy Company*, Docket No. C-2014-2451754 (Opinion and Order entered June 11, 2015). See also, *Catherine J. Frompovitch v. PECO Energy Company*, Docket No. C-2015-2474592 (Opinion and Order entered May 3, 2018).

not set forth in their complaint any act done by the Company that violates a Commission regulation, statute or order.

IV. Conclusion

WHEREFORE, for the foregoing reasons, West Penn Power Company respectfully requests that the Commission: (1) grant its Preliminary Objections and strike the Complainants' request for an exemption from the installation of a smart meter; (2) dismiss the Formal Complaint in its entirety with prejudice; and (3) grant the Company such other relief as may be just and reasonable under the circumstances.

Respectfully submitted,
