This letter concerns my intervening on behalf of Donie Adams in his desire to not have a "Smart" meter installed on his home.

I plan to bring up the possibility of R.F. + E.M.F. sensitivity causing physical + mental problems in susceptible individuals. The power company that forces customers to be exposed to these would need to accept any liability for any problems that arise. In addition, it appears these meters subject customers to unwanted surveillance in what should be the privacy of their home.

I will point out a safe + cost effective alternative is to allow the customer to call or write in the monthly meter reading, which has been available for years.

Sincerely,
Francis M. Anderson
