SECRETARY'S BUREAU

Comment on Docket Number L-2019-3010267

Dear PA PUC,

I am writing to express my profound disappointment in your lack of concern for PUBLIC SAFETY regarding the Mariner East 2 (ME2) pipeline. I am very concerned that because I live in the area directly effected should an "incident" occur, that you are putting profits for TransEnergy Partners before the people of Pennsylvania! I feel that the ME2 project never should have been given construction approval without an environmental protection review, an impact study for an emergency and reviewed requirements on the use of aging, existing pipelines that are being converted to highly volatile liquids. Please put Pennsylvania people first! These pipelines will put our highly-populated area AT RISK! Please use your power and supervise this construction! Thank you.

Sincerely,

Connie Long
